Multidisciplinary Research at Grasshopper Pueblo, Arizona Larry D. Agenbroad, 1982 This volume presents the results of research from the University of Arizona's archaeological field school at Grasshopper Pueblo in Arizona Contributors consider issues of environmental and climatic change regional and interregional economics and subsistence change

Bioarchaeological and Forensic Perspectives on Violence American Association of Physical Anthropologists. Annual meeting, 2014-03-13 Case studies on violent deaths from the past and present vividly illustrate how anthropologists construct meaning from the victim's bones

The Protohistoric Pueblo World, A.D. 1275-1600 E. Charles Adams, Andrew Ian Duff, 2004-07 In the centuries before the arrival of Europeans the Pueblo world underwent nearly continuous reorganization Populations moved from Chaco Canyon and the great centers of the Mesa Verde region to areas along the Rio Grande the Little Colorado River and the Mogollon Rim where they began constructing larger and differently organized villages many with more than 500 rooms Villages also tended to occur in clusters that have been interpreted in a number of different ways This book describes and interprets this period of southwestern history immediately before and after initial European contact A.D. 1275-1600 a span of time during which Pueblo peoples and culture were dramatically transformed It summarizes one hundred years of research and archaeological data for the Pueblo IV period as it explores the nature of the organization of village clusters and what they meant in behavioral and political terms Twelve of the chapters individually examine the northern and eastern portions of the Southwest and the groups who settled there during the protohistoric period The authors develop histories for settlement clusters that offer insights into their unique development and the variety of ways that villages formed these clusters These analyses show the extent to which spatial clusters of large settlements may have formed regionally organized alliances and in some cases they reveal a connection between protohistoric villages and indigenous or migratory groups from the preceding period This volume is distinct from other recent syntheses of Pueblo IV research in that it treats the settlement cluster as the analytic unit By analyzing how members of clusters of villages interacted with one another it offers a clearer understanding of the value of this level of analysis and suggests possibilities for future research In addition to offering new insights on the Pueblo IV world the volume serves as a compendium of information on more than 400 known villages larger than 50 rooms It will be of lasting interest not only to archaeologists but also to geographers land managers and general readers interested in Pueblo culture

The Prehistoric Pueblo World, A.D. 1150-1350 Michael A. Adler, 2016-10-15 From the mid twelfth to the mid fourteenth century the world of the ancestral Pueblo people Anasazi was in transition undergoing changes in settlement patterns and community organization that resulted in what scholars now call the Pueblo III period This book synthesizes the archaeology of the ancestral Pueblo world during the Pueblo III period examining twelve regions that embrace nearly the entire range of major topographic features ecological zones and prehistoric Puebloan

settlement patterns found in the northern Southwest Drawn from the 1990 Crow Canyon Archaeological Center conference Pueblo Cultures in Transition the book serves as both a data resource and a summary of ideas about prehistoric changes in Puebloan settlement and in regional interaction across nearly 150 000 square miles of the Southwest The volume provides a compilation of settlement data for over 800 large sites occupied between A D 1100 1400 in the Southwest These data provide new perspectives on the geographic scale of culture change in the Southwest during this period Twelve chapters analyze the archaeological record for specific districts and provide a detailed picture of settlement size and distribution community architecture and population trends during the period Additional chapters cover warfare and carrying capacity and provide overviews of change in the region Throughout the chapters the contributors address the unifying issues of the role of large sites in relation to smaller ones changes in settlement patterns from the Pueblo II to Pueblo III periods changes in community organization and population dynamics Although other books have considered various regions or the entire prehistoric area this is the first to provide such a wealth of information on the Pueblo III period and such detailed district by district syntheses By dealing with issues of population aggregation and the archaeology of large settlements it offers readers a much needed synthesis of one of the most crucial periods of culture change in the Southwest

The Sociopolitical Structure Of Prehistoric Southwestern Societies Steadman Upham, Kent G Lightfoot, Roberta A. Jewett, 2019-06-26 This book examines current archaeological approaches for studying the organizational structure of prehistoric societies in the American Southwest It presents the

historical background of the divergent theoretical models that have been used to interpret Southwestern socio political organizations

The Architecture of Grasshopper Pueblo Charles R. Riggs, 2001 The Long History of field research at Grasshopper a massive 500 room pueblo in an isolated mountain meadow in east central Arizona has produced a wealth of architectural information Drawing on this extensive research Charles Riggs reconstructs the pueblo and provides a glimpse into the everyday life of the community at a critical time in Southwest prehistory Between AD 1300 and 1330 a group consisting mainly of newcomers to the area established and then enlarged Grasshopper From the architectural remnants excavated by the University of Arizona Archaeological Field School it is possible to determine that the earliest arrivals settled Grasshopper relatively quickly and that subsequent groups from the region and the Colorado Plateau built their houses next to kinsmen The houses of locals and immigrants remained separate in discrete room blocks despite their occupants participation in communal groups Ultimately short lived by AD 1330 the influx of immigrants tapered off and the architecture came to reflect a more seasonal less intensive use of the area Eventually the community was abandoned and the walls were left to crumble In *The Architecture of Grasshopper Pueblo* Riggs gives us a new view of community life at this ancient Puebloan site

Human Adaptations and Cultural Change in the Greater Southwest Alan H. Simmons, 1989

Ancient Burial Practices in the American Southwest Douglas R. Mitchell, Judy L. Brunson-Hadley, 2001 Prehistoric burial practices provide an unparalleled opportunity for understanding and reconstructing ancient civilizations and for identifying the influences that helped shape them

Hopi Dwellings Catherine M. Cameron, 2015-09-01 The dramatic split of the Hopi community of Orayvi in 1906 had lasting consequences not only for the people of Third Mesa but also for the very buildings around which they centered their lives This book examines architectural and other effects of that split using architectural change as a framework with which to understand social and cultural processes at prehistoric Southwestern pueblos Catherine Cameron examines architectural change at Orayvi from 1871 to 1948 a period of great demographic and social upheaval Her study is unique in its use of historic photographs to document and understand abandonment processes and apply that knowledge to prehistoric sites Photos taken by tourists missionaries and early anthropologists during the late nineteenth century portray original structures while later photos show how Orayvi buildings changed over a period of almost eighty years Census data relating to house size and household configuration shed additional light on social change in the pueblo Examining change at Orayvi afforded an opportunity to study the architectural effects of an event that must have happened many times in the past the partial abandonment of a pueblo by tracing the effects of sudden population decline on puebloan architecture Cameron's work provides clues to how and why villages were abandoned and re established repeatedly in the prehistoric Southwest as it offers a unique window on the relationship between Pueblo houses and the living people who occupied them

Sixty Years of Mogollon Archaeology Stephanie Michelle Whittlesey, 1999 They represent the Mimbres region other regions of New Mexico southeastern Arizona Chihuahua and east central Arizona The

topics are equally diverse Authors address gender and division of labor social organization and heterarchy ceramic microseriation use of sophisticated computer mapping techniques ritual space development of Formative stage culture mortuary patterns interpretations of Mimbres ceramic art and many more issues BOOK JACKET *The Davis Ranch Site* Rex E. Gerald, 2019-04-30 In this new volume the results of Rex E Gerald s 1957 excavations at the Davis Ranch Site in southeastern Arizona s San Pedro River Valley are reported in their entirety for the first time Annotations to Gerald s original manuscript in the archives of the Amerind Museum and newly written material place Gerald s work in the context of what is currently known regarding the late thirteenth century Kayenta diaspora and the relationship between Kayenta immigrants and the Salado phenomenon Data presented by Gerald and other contributors identify the site as having been inhabited by people from the Kayenta region of northeastern Arizona and southeastern Utah The results of Gerald s excavations and Archaeology Southwest s San Pedro Preservation Project 1990 2001 indicate that the people of the Davis Ranch Site were part of a network of dispersed immigrant enclaves responsible for the origin and spread of Roosevelt Red Ware pottery the key material marker of the Salado phenomenon A companion volume to Charles Di Peso s 1958 publication on the nearby Reeve Ruin archaeologists working in the U S Southwest and other researchers interested in ancient population movements and their consequences will consider this work an essential case study Southwest Archaeology in the Twentieth Century Linda S Cordell, Don D Fowler, 2005-11-10 Mesa Verde Chaco Canyon Canyon de Chelly and Paquim are well known to tourists and scholars alike as emblems of the American Southwest This region has been the scene of intense archaeological investigations for more than a hundred years with more research done here than in any other part of the United States With contributions from well known archaeologists Southwest Archaeology in the Twentieth Century reviews the histories of major archaeological topics of the region during the twentieth century giving particular attention to the vast changes in southwestern archaeology during the later decades of the century Included are the huge influence of field schools the rise of cultural resource management CRM the uses and abuses of ethnographic analogy the intellectual contexts of archaeology in Mexico and current debates on agriculture sedentism and political complexity This book provides an authoritative retrospective of intellectual trends as well as a synthesis of current themes in the arena of the American Southwest From publisher s description *The Abandonment of Settlements and Regions* Catherine M. Cameron, Steve A. Tomka, 1993-07-08 Groups of people abandoned sites in different ways and for different reasons And what they did when they left a settlement or area had a direct bearing on the kind and quality of cultural remains that entered the archaeological record for example whether buildings were dismantled or left standing or tools buried destroyed or removed from the site Contributors to this unique collection on site abandonment draw on ethnoarchaeological and archaeological data from North and South America Europe Africa and the Near East **Mimbres During the Twelfth Century** Margaret Cecile Nelson, 1999 During the mid twelfth century villages that had been occupied by the Mimbres people in what is now southwestern New Mexico were

depopulated and new settlements were formed While most scholars view abandonment in terms of failed settlements Margaret Nelson shows that for the Mimbres abandonment of individual communities did not necessarily imply abandonment of regions By examining the economic and social reasons for change among the Mimbres Nelson reconstructs a process of shifting residence as people spent more time in field camps and gradually transformed them into small hamlets while continuing to farm their old fields Challenging current interpretations of abandonment of the Mimbres area through archaeological excavation and survey she suggests that agricultural practices evolved toward the farming of multiple fields among which families moved with small social groups traveling frequently between small pueblos rather than being aggregated in large villages Mimbres during the Twelfth Century is the first book length contribution on this topic for the Classic Mimbres period and also addresses current debates on the role of Casas Grandes in these changes By rethinking abandonment Nelson shows how movement by prehistoric cultivators maintained continuity of occupation within a region and invites us to reconsider the dynamic relationship between people and their land **Investigations at the Pueblo Alto Complex, Chaco Canyon, New Mexico** Frances Joan Mathien, Thomas C. Windes, 1987 *The Bandelier Archeological Survey* Robert P. Powers, Janet Dale Orcutt, 1999 Prehistoric Households at Turkey Creek Pueblo, Arizona Julie C. Lowell, 2022-05-03 Excavations at Turkey Creek Pueblo a large thirteenth century ruin in the Point of Pines region boasting approximately 335 rooms **The Bioarchaeology of Violence** Debra L. Martin, Ryan P. Harrod, 2012-08-05 Human violence is an inescapable aspect of our society and culture As the archaeological record clearly shows this has always been true What is its origin What role does it play in shaping our behavior How do ritual acts and cultural sanctions make violence acceptable These and other questions are addressed by the contributors to *The Bioarchaeology of Violence* Organized thematically the volume opens by laying the groundwork for new theoretical approaches that move beyond interpretation it then examines case studies from small scale conflict to warfare to ritualized violence Experts on a wide range of ancient societies highlight the meaning and motivation of past uses of violence revealing how violence often plays an important role in maintaining and suppressing the challenges to the status quo and how it is frequently a performance meant to be witnessed by others The interesting and nuanced insights offered in this volume explore both the costs and the benefits of violence throughout human prehistory **The Global History of Paleopathology** Jane E. Buikstra, Charlotte Roberts, 2012-06-07 The first comprehensive global history of the discipline of paleopathology **Anthropological Papers**, 1987
