Multihabitation Urban Housing And Everyday Life In Chitungwiza Zimbabwe:

Multi-habitation Ann Schlyter, 2003 This is a study of everyday life and the quality of living in a poor neighbourhood of Chitungwiza an independent Zimbabwean town about thirty kilometres south of Harare city centre *Everyday Crisis-Living in Contemporary Zimbabwe* Kirk Helliker, Sandra Bhatasara, Manase Kudzai Chiweshe, 2021-02-15 This book examines the everyday lives of ordinary Zimbabweans in the context of national crises in post 2000 Zimbabwe Throughout the literature of Zimbabwean studies a consideration of everyday lives has been limited to informal trading and rarely applied as an analytical framework despite the importance of understanding crisis living with reference to the specific character of national crises across the African continent This edited volume is one of the first in its field to theorise everyday Zimbabwean lives within the context of crisis with three central themes addressed urban and rural lives men women and HIV and along and beyond the border Chapters incorporate topics from child marriage and sexual practices to climate change and social accountability encompassing a shift in focus from macro structures to how farm labourers students child brides and other ordinary people negotiate gender class and social dynamics within a dominant order The introductory chapter offers an innovative analytical framing for the empirical chapters which follow each providing micro studies based on original qualitative fieldwork by early career Zimbabwean scholars *Everyday Crisis Living in Contemporary Zimbabwe* will appeal to students and scholars of sociology anthropology and African Studies more broadly *Surviving on the Move* Jonathan Crush, Bruce Frayne, 2010 Since the collapse of apartheid there have been major increases in migration flows within to and from the Southern African region Cross border movements are at an all time high across the region and internal migration is at record levels The implications of greater mobility for areas of origin and destination have not been systematically explored Migration is most often seen as a negative phenomenon a result of increased poverty and the failure of development More recently the positive relationship between migration and development has been emphasised by agencies such as the Global Commission on International Migration the Global Forum on Migration and Development the United Nations Development Programme and the African Union The chapters in this publication are all based on primary research and examine various facets of the relationship between migration poverty and development including issues that are often ignored in the migration development debate like migration and food security and migration and vulnerability to HIV The book argues that the development and poverty reduction potential of migration is being hindered by national policies that fail to recognise and build on the positive aspects and potential of migration As a result as these studies show migrants are often pushed to the margins where they are forced to survive on the move Their treatment violates labour laws and basic human rights and compromises the potential of migration as a means to create sustainable livelihoods reduce poverty and food insecurity mitigate the brain drain and promote the productive use of remittances This book shows that migrant lives and livelihoods should be at the centre of international and African debates about migration poverty and development The Study of

Standardisation and the Wealth of Place Names: Aspects of a Delicate Relationship Chrismi-Rinda Loth, Standardisation and the Wealth of Place Names Aspects of a Delicate Relationship is a selection of double blind peer reviewed papers from the 6th International Symposium on Place Names that took place virtually 29 September 1 October 2021 The symposium explored the issues of multiple place names vis vis processes of standardisation These studies collectively show that there is not a simplistic dichotomy between standardisation and the protection of cultural heritage Some papers grapple with the implications and execution of standardisation processes while others explore the emergence of alternative or unofficial names in response to top down initiatives The matter of signed place names also receives some attention A number of papers excavate the layers of multiple place names thereby contributing to our wealth of toponymic knowledge These proceedings are the product of collaboration between Southern African and international researchers As such it is a valuable resource to local as well as international scholars who are interested in the interdisciplinary field of toponymy

Tales of the Nation Lene Bull-Christiansen, 2004 In light of the uses and misuses of history in Zimbabwean politics in recent years this research report focuses on how versions of the country s

liberation war history have become a site of struggle over the definition of Zimbabwean national identity As identity politics often do Zimbabwean nationalism draws on a wide field of cultural symbols of identity and political discourses of inclusion and exclusion Therefore the report takes a cross disciplinary approach to the issue of national identity by mapping out the imaginary field of Zimbabwean nationalism This approach opens up the possibility of cross reading the political discourses of the President and the ruling party ZANU PF with opposing voices such as those in the works of the author Yvonne Vera This cross reading shows how Vera s novels and the political discourses participate in the struggle over Zimbabwean national identity by offering different versions of the nation s history in the form of patriotic history feminist nationalism or narratives of difference In this way the research report adds to our understanding of power and resistance in Zimbabwean politics of national identity *Africa Today*,2004

African Families in a Global Context Göran Therborn,2004 The family is one of the most important institutions of African societies Where is it going today How is it affected by global processes cultural and political as well as economic How does it compare with family developments in other parts of the world These are questions which this book addresses The contributors deal with the African family in a comparative global context focusing on patriarchy sexuality and marriage and fertility biological and social reproduction in Ghana under conditions of globalization and structural adjustment Nigerian marriage relations under the impact of current conditions and family changes in the North Britain from a family perspective of the South South Africa

Contentious Politics, Local Governance and the Self Tim Kelsall,2004 The Governance Agenda is the framework that currently organizes the West s relations with Africa The present work is an attempt to see Governance through the lens of a contemporary local history The report analyzes three periods of contentious politics at local level in Tanzania and two multi party elections It provides a window on mismanagement in local government it examines the intervention by national and local elites in district conflicts and it points to the difficulties ordinary people face in holding their leaders to account The argument of the report is that current approaches to the study of Governance overlook an essential ingredient for its potential success namely the sociological conditions in which forms of collective action conducive to improved political accountability become possible at a grassroots level The analysis aims to show that economic diversification and multiple livelihoods have given rise to a reticular social structure in which individuals find it difficult to combine to hold their leaders to account People have fragmented identities formed in networks of social relations which impedes the emergence of strong collective identities appropriate to effective social movements

The Roots of the Military-political Crises in Cote D'Ivoire Francis Augustin Akindès,2004 With the coup d etat of 24 December 1999 and the politico military conflict that started on 19 September 2002 C te d Ivoire broke with its tradition of political stability which had served as a model in the West African sub region It is now facing an unprecedented crisis that is not only jeopardizing the continuity of the state but has also introduced a culture of violence into the society This study has three objectives The primary one is to understand the nature of this socio political crisis and what

is at stake in it Secondly the study examines the issue of ivoirit Finally it explores the escalation of violence in this socio political crisis and the catalogue of justifications for that violence It is argued that the recurrence of military coups d etat in C te d Ivoire signifies the delegitimization of the modes of regulation built on the tontine system and calls for a renewal of the political grammar and socio political regulatory modalities around integrating principles that have yet to be devised
