Multinational Culture Social Impacts Of A Global Economy:

Multinational Culture Cheryl R. Lehman, Russell M. Moore, 1992-11-24 The papers collected here were originally presented at a conference on multinational culture held at Hofstra University to explore the sociocultural impacts of the transformation to a global economy Written by a distinguished group of contributors from Africa Asia Europe Latin America the Caribbean and North America the essays address such questions as Which particular changes have already taken root How can we assess the efficacy of interventions by nation states and transnational authorities How are the globe's resources being managed and how should they be managed in the future Specific topics explored include government policies and their relationship to multinational activities the formation and regulation of international capital labor market segmentation and protectionism managing multinationals without sacrificing ethical standards or profits environmental impacts and the language legal gender and race dimensions of a global economy Following a general introduction the volume is divided into six groups of chapters each of which examines a specific aspect of global transition The contributors first look at the more general issues of global movements and global policies with articles on critical social movements and the future of the global political economy the evolution of multinational public policy towards business and the implications of internationalization for development and welfare in the Third World The next section describes globalization's reach into the arenas of monetary policy banking financing and debt Subsequent chapters look at the explicit and implicit prejudices and differences that can undermine or enhance our global experience present case studies of the contradictory imperatives between indigenous culture and globalization affirm the importance of collective action in protecting labor and the environment and consider the controversial and multifaceted nature of technology transfer The diversity of topics and perspectives presented make this an ideal set of supplemental readings for advanced level courses in development economics political economy and international economics

The EU, the WTO and China Francis Snyder, 2010-09-02 This book presents a new theoretical framework for understanding the regulation of international trade For this purpose it analyses a series of integrated studies of relations between the EU the WTO and China It consists of three main parts Part I introduces the basic concepts It surveys the literature on law and globalisation introduces the concept of sites of governance and the theory of global legal pluralism and sketches the foundations of global legal pluralism It shows that each site of governance has both a structural dimension consisting of institutions norms and dispute resolution processes and a relational dimension comprising its relations with other sites of governance The totality of sites of governance constitutes a new form of global legal pluralism Part II analyses global legal pluralism in action in relations between the EU the WTO and China It examines the construction of relations between sites ways in which relations between sites give rise to new legal concepts or transform the character of rules the tension between regionalism and international integration and the governance of international production networks It emphasises the reciprocal interaction between the structural features and the relational features of sites Part III explores

new directions in global legal pluralism It first analyses regional trade agreements as a way of creating new sites of governance focusing on agreements involving China Then it considers how to enhance ethical values in international trade regulation Based on an institutional analysis of relations between the WTO and other sites of governance it proposes ways in which global legal pluralism can be used to reform the WTO today the predominant institution in the regulation of international trade including trade between the EU and China

Multinational Enterprises and the Global Economy John H. Dunning, Sarianna M. Lundan, 2008-01-01 For many years to come this volume is surely going to be the ultimate reference work on international business thanks to Dunning and Lundan have at their disposal a wealth of relevant data as well as theoretical and empirical analyses which will enable them to assess the capabilities contributions and challenges posed by the multinational enterprises to the global economy Seev Hirsch International Business Review Multinational Enterprises and the Global Economy has become a classic in international business Yet the book's second edition is even better than the first in part because of Professor Dunning's wise decision to choose Dr Lundan as his co author and to draw upon her deep knowledge of various strands of research on business government relations and the societal effects of firm behaviour In addition to being a remarkably useful reference book Multinational Enterprises and the Global Economy is the first book any IB doctoral student should read to understand the significance and richness of IB scholarship as it has developed over the past 50 years Alain Verbeke Journal of International Business Studies The second edition of Multinational Enterprises and the Global Economy provides unparalleled coverage not only of the literature relevant to IB research but also of the evolution of IB in the world economy Dunning and Lundan offer powerful insights into the societal effects of MNEs and the role of business government relations in the IB context Journal of International Business Studies This wonderful book offers the definitive synthesis of the modern literature on the economic aspects of international business It is encyclopedic yet full of incisive insights It is a creative masterpiece which unbundles the DNA of the multinational enterprise and shows how it is the cornerstone of the field of international business Alan M Rugman University of Reading UK The rise of the multinational enterprise and the consequent globalisation of the world economy was arguably the single most important phenomenon of the second half of the twentieth century This magisterial book written by two leading authorities examines this phenomenon in depth It explains how foreign investment by multinationals diffused advanced technologies and novel management methods driving productivity growth in Europe Asia and North America however economic inequalities were reinforced as rich countries attracted more foreign investment than poor ones This new edition of a classic work is not only an authoritative guide to contemporary multinational business but a major historical resource for the future Mark Casson University of Reading UK This thoroughly updated and revised edition of a widely acclaimed classic text will be required reading for academics policymakers and advanced students of international business worldwide Employing a distinctive and unified framework this book draws together research across a range of academic fields to offer a synthesis of the

determinants of MNE activity and its effects on the economic and social well being of developed and developing countries Unique to the new edition is its focus on the institutional underpinnings of the resources and capabilities of MNEs and the role of MNE activity in transmitting and facilitating institutional change Since the initial publication of this book more than a decade ago the economic managerial and social implications of globalisation and technological advancement have become even more varied and prominent Accompanying these developments there has been a rise in scholarly interest in interdisciplinary research addressing the important challenges of an ever changing physical and human environment Drawing on articles and books from international business and economics as well as economic geography political economy and strategic management a systematic overview of the developments in scholarly thinking is prese *Globalization, Growth and Sustainability* Satya Dev Gupta,2012-12-06 *Globalization Growth and Sustainability* focuses on the implications of both regional and global trade liberalization and complementary macroeconomics policy reforms on growth equity and sustainability The volume is organized into three sections Part One addresses the issue of economic growth with a special reference to less developed economies Part Two examines the pros and cons of the regional economic integration movement for the countries either participating in or outside of the regional groups Part Three focuses on the issues of equity and sustainability *Globalization Growth and Sustainability* will provide valuable insights and important background analysis for scholars working in the field of globalization as well as senior undergraduate and graduate students in a variety of curricula including economics development studies and international studies The Economy in the Reagan Years Anthony S. Campagna,1994-01-05 The arguments over the economic policies of the Reagan Administration will continue until sufficient time has elapsed for a consensus to be possible In the meantime it is necessary for contemporary scholars to record their opinions as a base for the consensus Campagna has recorded his conclusions based on considerable research on Reagan Administration policies He begins by describing what was planned by the government From there he discusses what actually happened and devotes the remainder of the work to his opinion of what has been left with which the future must deal Campagna concludes that the Reagan economic policies failed He establishes a position for others to attack or defend in their own publications in the continuing argument **Critical Approaches to African Cinema Discourse** Nwachukwu Frank Ukadike,2014-02-27 *Critical Approaches to African Cinema Discourse* utilizes an interdisciplinary approach to lay bare the diversity and essence of African cinema discourse It is an anthology of historical reflections critical essays and interviews by film critics historians theorists and filmmakers that signifies a dialogue and engagement apropos the ideology and cultural politics of film production in Africa The contributors are extremely concerned not only with the history of African cinema but with its future and its potential This book then is not limited to the expansion of the discourse on African cinema but tries to approach the definition of the critical canon within the exigencies and manifestations of art and African sociopolitical practices The authors view these practices as an investment in a cultural imperative stemming from the quest to delineate

how critical methodologies are derived from and shape contemporary historical and cultural practices Hence the contributions are less about the usual constrictive method of analysis and more about illustrating manifestations of an interrogative critical methodology that is certainly an offspring of an indigenous African critical cum cinematic culture and paradigms

Globalisation, Human Rights and Labour Law in Pacific Asia Anthony Woodiwiss, 1998-04-30 Anthony Woodiwiss's pathbreaking book was the first substantive contribution to a sociology of human rights In it he takes up the question of whether so called Asian values are compatible with human rights discourse and argues against human rights issues being the major obstacle to East West co operation Dr Woodiwiss's sociological and post structuralist approach to the concept of rights and his incorporation of the transnational dimension into sociological theory enable him to demonstrate how the global human rights regime can accommodate Asian patriarchalism while Pacific Asia is itself adapting by means of what he calls enforceable benevolence His studies of Hong Kong the Philippines Malaysia and Singapore highlight similarities between Pacific Asian and Western societies and offer a positive view of the social forces obtaining in these territories

Commodity Chains and Global Capitalism Gary Gereffi, Miguel Korzeniewicz, 1993-11-30 The current restructuring of the world economy under global capitalism has further integrated international trade and production It thus has brought to the fore the key role of commodity chains in the relationships of capital labor and states Commodity chains are most simply defined as the link between successive processes of manufacturing that result in a final product available for individual consumption Each production site in the chain involves organizing the acquisition of necessary raw materials plus semifinished inputs the recruitment of labor power and its provisioning arranging transportation to the next site and the construction of modes of distribution via markets and transfers and consumption The contributors to this volume explore and elaborate the global commodity chains GCCs approach which reformulates the basic conceptual categories for analyzing varied patterns of global organization and change The GCC framework allows the authors to pose questions about development issues past and present that are not easily handled by previous paradigms and to more adequately forge the macro micro links between processes that are generally assumed to be discretely contained within global national and local units of analysis The paradigm that GCCs embody is a network centered historical approach that probes above and below the level of the nation state to better analyze structure and change in the contemporary world

Economic Planning and Industrial Policy in the Globalizing Economy Murat Yölek, 2014-09-04 This book discusses national development planning in the context of a globalized world economy National economic development planning the process of defining strategic economic objectives for a country and designing policies and institutional frameworks to attain them was popular in many countries in the 1960s and 1970s Over time it lost its appeal More recently with globalization accelerating and economic competition increasing it is making a comeback in different countries under different forms National planning in this new era is different than the earlier quantitative planning approaches It employs different tools such as strategic visions and action

plans revived forms of physical infrastructure planning industrial policy and cluster policy Built on the research of international scholars with firsthand knowledge of the countries in question this volume presents and evaluates current national planning strategies and policy worldwide It will be of interest to both academicians who study and teach globalization and development as well as policy makers who may use it as a reference as they contemplate their own strategies

Contemporary South Africa and the Political Economy of Regional Development Methembe Mdlalose, Isaac Khambule, Nene Ernest Khalema, 2025-02-21 South Africa's struggle in balancing its domestic needs while playing a dynamic developmental role in the African region and global context exposes a complex web of relations shaped by its geostrategic location on the continent and the world and the staggering legacies of colonialism and apartheid As such understanding the complexities of the global economy and of South Africa's place in it is of great importance This book builds upon an existing body of literature which has demonstrated that while the post apartheid South African state has recast its nation building goals with advances having been made notably in the area of a stellar post apartheid constitution policy directives and democratic political integration economic integration and policy implementation presents a projection of captured interests where big business concerns are entrenched in the post apartheid state's apparent neo liberal turn The main focus of the book is to contextualise issues relating to three main trends in global discourses on development which are significant for South Africa and indeed for the study of the political economy of regional development in the country from the prism of South Africa as a global capitalist state These trends include the impact of globalisation regionalisation and the marginalisation of South Africa and indeed the African continent in the global economy thus unpacking the possible role that South Africa might play in regional development This volume will be a valuable resource to academics researchers and students in the fields of regional studies economics and political theory as well as policymakers planners and local economic development practitioners

The Economy of Iraq Abbas Alnasrawi, 1994-03-23 The economy of Iraq has fluctuated wildly since the 1950s It has been affected by changes in governments by wars and by general instability This book analyzes a complex subject and is especially timely at this critical juncture in the history of Iraq the Middle East and international relations Abbas Alnasrawi traces the growth of the Iraqi economy since 1950 assesses its present state of crisis and underdevelopment and explores its prospects for recovery Alnasrawi contends that the economic development of Iraq was shaped by the rise in oil revenue the war between Iran and Iraq and the invasion of Kuwait and its aftermath The discussion begins with the burst of Iraq's oil industry and the development policies under the monarchy Subsequent chapters highlight development planning during the first ten years of the republic the development plans of the ruling Baath party the destructive consequences of the

Iran Iraq war and the recent invasion of Kuwait and the future of the Iraqi economy to the year 2010 This in depth examination puts this subject into a manageable context for students of the Middle East multinational oil Third World development and international relations *Embedded Autonomy* Peter B. Evans,2012-01-12 In recent years debate on the state s economic role has too often devolved into diatribes against intervention Peter Evans questions such simplistic views offering a new vision of why state involvement works in some cases and produces disasters in others To illustrate he looks at how state agencies local entrepreneurs and transnational corporations shaped the emergence of computer industries in Brazil India and Korea during the seventies and eighties Evans starts with the idea that states vary in the way they are organized and tied to society In some nations like Zaire the state is predatory ruthlessly extracting and providing nothing of value in return In others like Korea it is developmental promoting industrial transformation In still others like Brazil and India it is in between sometimes helping sometimes hindering Evans s years of comparative research on the successes and failures of state involvement in the process of industrialization have here been crafted into a persuasive and entertaining work which demonstrates that successful state action requires an understanding of its own limits a realistic relationship to the global economy and the combination of coherent internal organization and close links to society that Evans called embedded autonomy Globalisation For Sale Cobus Swardt-Kraus,2014-07-16 First published in 2001 Understanding and managing global financial flows and their impact of social spaces and people is one of the most complex and difficult tasks facing politicians and social theorists today Helping to meet the challenges posed by these changes this important volume focuses on three question central to the interplay between globalisation valorisation and marginalization **Labor in a Global Economy** Steven Hecker,Margaret Hallock,1991 Discusses the impact of economic globalisation on labour unions and labour relations in Canada and the USA and examines trends since the mid 1970s Includes case studies of collective bargaining in the forest products industry and the crisis of US health care with lessons from Canada **Star Struck** Sam Riley,2009-12-09 This balanced examination looks at America s pervasive celebrity culture concentrating on the period from 1950 to the present day Star Struck An Encyclopedia of Celebrity Culture is neither a stern critic nor an apologist for celebrity infatuation a phenomenon that sometimes supplants more weighty matters yet constitutes one of our nation s biggest exports This encyclopedia covers American celebrity culture from 1950 to 2008 examining its various aspects and its impact through 86 entries by 30 expert contributors Demonstrating that all celebrities are famous but not all famous people are celebrities the book cuts across the various entertainment medias and their legions of individual stars It looks at sports celebrities and examines the role of celebrity in more serious pursuits and institutions such as the news media corporations politics the arts medicine and the law Also included are entries devoted to such topics as paranoia and celebrity one name celebrities celebrity nicknames family unit celebrity sidekick celebrities and even criminal celebrities Marxism in the Postmodern Age Antonio Callari,Stephen Cullenberg,Carole Biewener,1994-10-01 Diverse Marxian intellectual cultures are

having important effects on political struggles over the subjects of history and knowledge international law television the state democratic theories and institutions bodies sexuality masculinity environmentalism postmodernism labor the meanings of the end of the USSR children archaeology the meanings of Columbus cartography the North American economy welfare NAFTA the Gulf War higher education and the many other topics discussed by the contributors to this important volume These essays show readers how Marxism's continuing vitality derives from its profound allegiance to diverse struggles for social justice At this moment we need progressive imaginaries alternative to the tired and ineffectual ones that have left us with enormous challenges and compelling questions on every aspect of contemporary social relations Here well known thinkers are joined by important new voices in exploring fruitful directions for vision analysis and political action This is without question the best collection of mediations so far on postorthodox Marxian tendencies in contemporary global cultures

Men as Managers, Managers as Men David Collinson, Jeff Hearn, 1996-09-03 Most managers in most organizations in most countries are men This book is the first international work to address the relationships between men masculinities and managements It examines the processes through which gendered managerial structures cultures and practices are reproduced Exploring top and middle managers entrepreneurs corporate executives and public and private sector managers the book breaks new ground by critically examining the gendered power processes that have largely been assumed and ignored by conventional organizational and management theory As well as providing new insights into how managements and masculinities may reinforce each other this challenging book ultimately explores the ways in which both management and men might be changed even transformed

Rebuilding War-Torn States Graciana del Castillo, 2008-09-25 With public attention increasingly focused on efforts to reconstruct war torn countries like Iraq and Afghanistan this book looks at the unique set of challenges faced by such countries in the transition to peace Strategies to promote peace building state building and economic reconstruction are discussed alongside real world examples

Human Rights and Religion Liam Gearon, 2002-09-01 Religion manifests itself as a force for social and political conflict and repression Yet religions also promote ideals of harmonious living with traditions that enrich contemporary understandings of international human rights This work examines the relationship between religion and human rights
