The Emergence of the Multinational Corporation Eva Lena

Richter, 2018-01-22 Seminar paper from the year 2014 in the subject Business economics General grade 1 3 University of Cologne Wirtschaftsgeografie language English abstract Multinational corporations MNCs play a significant role in our economic world Accounting for approximately one third of total world trade and including around 80 million people outside their home bases in complex supply and dependency networks they seize seemingly endless economic power what has given way to strong opposition and causes fear amongst ordinary people who feel at the mercy of their power In my paper I will try to clarify the relationship between MNCs and nation states and therefore answer the question what kind of forces drive MNCs which objectives they have and which measures they take to reach their individual aims The paper will start with the definition of MNCs chapter 2 and their emergence I will then refer theories of MNC evolution that are closely linked to Foreign Direct Investment FDI and patterns of labour division chapter 3 and 4 The following chapter shall explore the power relationship between nation states and MNCs in general chapter 5 The example of oil extraction through Royal Dutch Shell in the Nigeria s delta region will further illustrate the interdependencies especially many resource rich but underdeveloped or developing countries face and identify the sources of friction between government state peoples NGOs and MNCs The

findings will be summarized and an outlook on possible future developments will be given in the last chapter or Chapter 6

Emerging-market Multinational Enterprises in East Central Europe Ágnes Szunomár, 2020-11-23 The rise of multinational enterprises MNEs from emerging markets is topical important and poses a number of questions and challenges that require considerable attention in the future from academia as well as business management The recent takeovers of high profile companies in developed or developing countries by non European emerging market MNEs EMNEs such as Lenovo Wanhua China Hindalco India CVRD Brazil Cemex Mexico Lukoil Russia etc as well as the greenfield or brownfield investments of emerging companies such as Huawei ZTE Tata Pepco etc show a new trend where new kind of firms become major players globally EMNEs have become important players in several regions around the globe ranging from the least developed countries of Africa through the developing markets in Latin America and Asia to the developed countries of the United States or the European Union including East Central European ECE countries EMNEs presence on the global level has resulted in numerous studies in the international literature but those research results barely cover EMNEs activities in the ECE region in the East Central European EU member countries including the Czech Republic Hungary Poland Slovakia and Slovenia The existing books typically focus on the investment activity of a single country or region such as China or East Asia but a comprehensive analysis is still missing in this regard The novelty of this edited volume is that it aims at exploring EMNEs location determinants strategies activities and challenges in East Central Europe by discussing its anomalies to the traditional theories as well as to other types of MNEs in the ECE region The authors focus on EMNEs not only from China but from other important emerging countries too such as Russia India South Korea Taiwan Turkey Brazil or South Africa The Rise of Transnational Corporations from Emerging Markets Karl P. Sauvant, 2009-01-01 Having undertaken billions of FDI in many continents and nations between Argentina and the PRC I consider Dr Sauvant's book an eye opener a new page showing us a new super highway The OFDI volume of emerging markets today surpassing the entire FDI volume of not even 20 years back is a signal of success of the free market economy It signals also the end of privileges for the Europeans It reflects entrepreneurship at its best on the part of the fast developing nations of Asia It shows that free access to know how and capital has permitted Asia to catch up at an unprecedented speed Contrary to often repeated but wrong opinions the poor of the world have benefited the most by globalization A market place of unimaginable potential is under construction in the first half of the 21st century accelerated by FDI This book should find many readers particularly among the political leaders of today and tomorrow Carl H Hahn Chairman Emeritus of Volkswagen AG This comprehensive analysis deals with the range of issues raised by the rise of transnational corporations from emerging markets This insightful book shows that foreign direct investment FDI from emerging markets has grown from negligible amounts in the early 1980s to 210 billion in 2007 with the stock of investment now being well over 1 trillion This reflects the rise of firms from these economies to become important players in the world FDI market The contributors to this book comprehensively analyze the rise of

emerging market TNCs the salient features of the transnational activities of these firms the relationship of outward FDI and the competitiveness of the firms involved their impact on host and home countries and implications for the international law and policy system The subject of this study is both topical and important and poses a number of challenges that will require considerable policy attention in the future It will appeal to academics interested in FDI as well as emerging markets Karl P Sauvant has gathered together a group of leading academics that makes this an informative and valuable read for anyone interested in the subject including academics students at all levels and private sector entities as well as government officials dealing with outward FDI

Transnational Corporations Grazia Ietto-Gillies, 2002-09-26 This volume examines the role of transnational corporations TNCs in the geography of international production covering both theoretical and empirical aspects
