Clark,2000-02-14 SETI the search for extra terrestrial intelligence is undergoing something of a renaissance and alongside the work of the scientists almost a million PC users round the world are participating in the SERENDIP IV project through the SETI at Home initiative from Berkeley University in California This book is an up to date review of todays scientific thinking about where and how we might find life elsewhere in the universe presented in Stuart Clarks easily read yet authoritative style **Religion in Multicultural Education** Farideh Salili,Rumjahn Hoosain,2006-05-01 The National Association for Multicultural Education in Washington D C listed a number of issues that the school curriculum should address with reference to multicultural education including racism sexism classism linguisticism ablism ageism heterosexism and religious intolerance It is noteworthy that of all these issues religion is about the only one that throughout history people are willing to die for although whether what is at issue is really religion or other things such as territory is another matter It is also interesting that all the others have isms in their names but religious issues are characterized by intolerance Perhaps we should try to understand this intolerance and look at what steps might help to alleviate it However while intolerance might seem a simple thing understanding what is behind it and how it plays such a crucial role in religion requires what we refer to in the Introduction chapter as a multifaceted approach at multiple levels It is not enough just to try to dispel stereotypes of followers of other religions or to point out commonalities in world religions We should for example try to understand and appreciate how adherents of other religions try to answer questions regarding their adaptation to the contemporary environment It is through understanding how different religions coexist side by side at various levels that we truly come to learn about religion in multicultural education **Addressing Global Challenges - Exploring**
