Take and Read Eugene H. Peterson, 1995-12-14 Spiritual reading has fallen on bad times. Today reading is largely a consumer activity done for information that may fuel ambitions or careers, and the faster the better. Take and Read represents Eugene H. Peterson's attempt to rekindle the activity of spiritual reading: reading that considers any book that comes to hand in a spiritual way, tuned to the Spirit, alert to intimations of God. Take and Read provides an annotated list of the books that have stood the test of time and that for Peterson are spiritually formative in the Christian life. The books on this list range from standard spiritual classics to novels, poems, and mysteries, and include an equally broad spectrum of authors, from Augustine and C. S. Lewis to William Faulkner and Fyodor Dostoyevsky. Annotations following each entry offer Peterson's own significant insights into the power of each work. Sacrament of Lies Elizabeth Dewberry, 2003-02-04 When Grayson Guillory's mother died, she helped her father get rid of the empty vodka and pill bottles next to the body. It wouldn't do for the governor of Louisiana to have a wife who committed suicide after years of mental illness, especially just as he's contemplating the presidency. Grayson's husband, her father's speechwriter, helps him keep the story quiet, and the family doctor makes sure the cause of death will be listed as a heart attack. But Grayson has a problem: When she thought she was helping her father cover up a suicide, she might actually have been covering up a murder. Because Grayson's mother left a videotape hidden among her personal effects in which she claims her life is in danger. Of course, Grayson's mother did suffer from paranoid delusions. And maybe Grayson does too: manic depression is a highly hereditary illness. But just because she's paranoid doesn't

A Multitude of Women Stefania Lucamante, 2008-09-15 A Multitude of Women looks at the ways in which both Italian literary tradition and external influences have assisted Italian women writers in rethinking the theoretical and aesthetic ties between author text and readership in the construction of the novel Stefania Lucamante discusses the valuable contributions that Italian women writers have made to the contemporary novel and illustrates the relevance of the novelistic examples set by their predecessors She addresses various discursive communities reading works by Di Lascia Ferrante Vinci and others with reference to intertextuality and the theories of Elsa Morante and Simone de Beauvoir This study identifies a positive deviation from literary and ideological orthodoxy a deviation that helps give meaning to the Italian novel and to transform the traditional notion of the canon in Italian literature Lucamante argues that this is partly due to the merits of women writers and their ability to eschew obsolete patterns in narrative while favouring forms that are more attuned to the ever changing needs of society She shows that contemporary novels by women authors mirror a shift from previous trends in which the need for female emancipation interfered with the actual literary and aesthetic significance of the novel A Multitude of Women offers a new epistemology of the novel and will appeal to those interested in women s writing readership Italian studies and literary studies in general
