Mundialización Financiera La:

México frente a la mundialización neoliberal Héctor Guillén Romo, 2005 **Globalización e integración latinoamericana** Alfredo Guerra-Borges, 2002-01-01 Es un trabajo que se beneficia de los muchos años que Guerra Borges lleva estudiando el problema de la globalización. Con una aguda capacidad de comprensión de la historia Guerra Borges mira también al futuro para ofrecernos una visión que da cabida al optimismo. La globalización crea perdedores así como ganadores pero Guerra Borges nos anima a pensar que podemos influir en el proceso lo suficiente para aumentar el número de ganadores y reducir el de perdedores. Es un libro que merece ser leído tanto dentro como fuera de América Latina. *El derecho humano al desarrollo frente a la mundialización del mercado* Nicolás Angulo Sánchez, 2005 In seven chapters the author purports to explain development in terms of a human right. A separate generation so to speak of human rights similar to those of the environment of peace towards humanitarian help and a universal heritage within an international juridical framework. *Recrear la solidaridad en tiempos de mundialización. Ciudadanía, vecindad y fraternidad (Cátedra Eusebio Francisco Kino, SJ)* Joaquín García Roca, 2017-03-31 Esta obra busca sembrar germen de esperanza para afrontar la enfermedad del nido que se esparce por el globo terráqueo. La brújula que el autor propone es la solidaridad reinventada para nuestro tiempo y así se convierta en un factor de cohesión social regulador y a la vez emancipador para navegar con tino en medio de los desajustes intelectual, financiero, climático, geopolítico y todo lo que vivimos. ITESO *Una nueva servidumbre. Ensayo sobre la mundialización* Guy Bois, 2004 Medievalista de prestigio internacional Guy Bois ejerce sin embargo en este libro de historiador a secas y comprometido con su tiempo. En él nos ofrece un análisis profundo y a la vez sencillo de la mundialización, vasta empresa de dominación y explotación del mundo que avanza sobre varios frentes económico, político, ideológico. Desde hace más de veinte años ahonda las desigualdades sociales en todas partes, vacía las democracias de su sustancia, se impone por la fuerza de la desinformación y las manipulaciones de la opinión y no duda en recurrir a la guerra con una imprudencia sin límite. Resignarse o resistir. Aceptar una nueva servidumbre o preservar la dignidad. Tal es la alternativa que según el autor se presenta a todos los pueblos, incluido el americano. Ante un proceso de esas dimensiones cuyos efectos políticos y culturales sobre todo podrán resultar irreversibles se impone el deber de la resistencia. Un deber que exige de todos los actores sociales y políticos un intenso esfuerzo de reflexión, de replanteamiento y de renovación para abrir camino a un reagrupamiento de las fuerzas antimundialistas que sea portador de un futuro distinto. *Challenges for Human Rights* Fernando Falcón y Tella, 2007-06-30 Nowadays we are fortunate enough to be experiencing a boom in human rights, an enormous increase of their importance in the international sphere at all levels: political, economic, social, legal and moral. For the first time the condition of the individual as citizen and not just as subject has gained importance. Individuals and not only states have now become the subjects of international law as a result of the boom in humanitarian law and international criminal law. However, although there have been many battles won and goals met concerning human rights, the war against

injustice continues and the fight has not ended It is necessary to stay alert and to avoid a potentially paralyzing self complacency This collection focusses on topics that are particularly relevant for the present era It examines issues such as multiculturalism globalization international criminal justice specifically third and fourth generation rights and within this thematic framework the problems that have come about as a result of the expanding reach of the Internet and of new biomedical advances In addition it explores the increasingly urgent challenge of how to respond to international terrorism in view of worldwide events since September 11 2001 and its resulting aftermath Originally published in Spanish this thought provoking collection will be of interest to human rights scholars and practitioners alike

Potencias en conflicto : la pugna por la hegemonía mundial Luciano Vasapollo,James F. Globalización neoliberal y reconfiguración capitalista en Colombia Velásquez Forero, Augusto,2017-04-15 La globalización como proyecto internacional del capitalismo contiene nuevas formas de poder que ya se están desarrollando en los Estados Unidos Europa y Japón imperialismo colectivo mientras en los países tercermundistas hasta ahora se está tratando de entrar en la nueva ola del lenguaje económico y político que va a dominar los Estados nacionales y los mercados en el siglo XXI En este sentido la sociedad colombiana no es ajena a las nuevas transformaciones del mundo moderno y postmoderno porque el principal desafío de la globalización es la integración de los países periféricos a los grandes bloques interregionales como alternativa para poder regular las transacciones comerciales con el resto del mundo Dentro de este escenario global surgen nuevas estructuras de poder y las viejas formas de dominación se añejan y se osifican para dar paso a una fragmentación de poderes y nunca antes pensados por la rita del capital financiero La lucha del proletariado o de clases como se le llamaba en décadas anteriores empieza a perder fuerza para trascender a escenarios como el del poder de la información el poder de la electrónica la soberanía del mercado el choque entre culturas la corresponsabilidad internacional nuevas geografías económicas territorialización de la vida económica el cambio de paradigmas sociopolíticos la conquista de otras alturas en los poderes económicos la robótica y el nuevo imperio de la burocracia mundial La respuesta político-criminal al "blanqueo de capitales" como fenómeno delictivo económico.
