## **Munio Gitai Weinraub Bauhaus Architect In Eretz Israel:**

**Munio Gitai Weinraub** Richard Ingersoll,1994      Building the Cold War Annabel Jane Wharton,2001 In postwar Europe and the Middle East Hilton hotels were quite literally little Americas For American businessmen and tourists a Hilton Hotel with the comfortable familiarity of an English speaking staff a restaurant that served cheeseburgers and milkshakes trans Atlantic telephone lines and most important air conditioned modernity offered a respite from the disturbingly alien For impoverished local populations these same features lent the Hilton a utopian aura The Hilton was a space of luxury and desire a space that realized permanently and prominently the new and powerful presence of the United States Building the Cold War examines the architectural means by which the Hilton was written into the urban topographies of the major cities of Europe and the Middle East as an effective representation of the United States Between 1953 and 1966 Hilton International built sixteen luxury hotels abroad Often the Hilton was the first significant modern structure in the host city as well as its finest hotel The Hiltons introduced a striking visual contrast to the traditional architectural forms of such cities as Istanbul Cairo Athens and Jerusalem where the impact of its new architecture was amplified by the hotel s unprecedented siting and scale Even in cities familiar with the Modern the new Hilton often dominated the urban landscape with its height changing the look of the city The London Hilton on Park Lane for example was the first structure in London that was higher than St Paul s cathedral In his autobiography Conrad N Hilton claimed that these hotels were constructed for profit and for political impact an integral part of my dream was to show the countries most exposed to Communism the other side of the coin the fruits of the free world Exploring everything the carefully drafted contracts for the buildings to the remarkable visual and social impact on their host cities Wharton offers a theoretically sophisticated critique of one of the Cold War s first international businesses and demonstrates that the Hilton s role in the struggle against Communism was as Conrad Hilton declared significant though in ways that he could not have imagined Many of these postwar Hiltons still flourish Those who stay in them will learn a great deal about their experience from this new assessment of hotel space      *Yad Vashem* Doron Bar,2021-10-25 In this fascinating book the planning and building of Yad Vashem Israel s central and most important institution for commemorating the Holocaust merits an outstanding in depth account Following the development of Yad Vashem since 1942 when the idea to commemorate the Holocaust in Eretz Israel was raised for the first time the narrative continues until the inauguration of Nathan Rapoport s Warsaw Ghetto Uprising memorial in 1976 The prolonged and complicated planning process of Yad Vashem s various monuments reveals the debates failures and achievements involved in commemorating the Holocaust In reading this thought provoking description one learns how Israel s leaders aspired both to fulfill a moral debt towards the victims of the Holocaust as well as to make Yad Vashem an exclusive center of Holocaust commemoration both in the Jewish world and beyond      Handbook of Israel: Major Debates Eliezer Ben-Rafael,Julius H. Schoeps,Yitzhak Sternberg,Olaf Glöckner,Anne Weberling,2016-10-24 The Handbook of Israel Major Debates serves as an

academic compendium for people interested in major discussions and controversies over Israel. It provides innovative updated and informative knowledge on a range of acute debates. Among other topics, the handbook discusses post-Zionism, militarism, democracy and religion in equality, colonialism, today's criticism of Israel, Israel-Diaspora relations and peace programs. Outstanding scholars face each other with unadulterated divergent analyses. These historical, political and sociological texts from Israel and elsewhere make up a major reference book within academia and outside academia. About seventy contributions grouped in thirteen thematic sections present controversial and provocative approaches reflecting from different angles on the present-day challenges of the State of Israel.

**Other Major Works by the Editors:** Eliezer Ben Rafael, *Is Israel One Religion? Nationalism and Ethnicity* (Confounded Brill, 2005); Ethnicity, Religion and Class in Israel (Cambridge University Press, paperback, 2007); Julius H. Schoeps, *Begegnungen: Menschen, die meinen Lebensweg kreuzten* (Suhrkamp, 2016); *Pioneers of Zionism* (Hess, Pinsker, R. If, Messianism, Settlement Policy and the Israeli-Palestinian Conflict) (De Gruyter, 2013); Yitshak Sternberg, *World Religions and Multiculturalism: A Relational Dialectic* (Brill, 2010); *Transnationalism* (Brill, 2009); Olaf Glöckner, *Being Jewish in 21st Century Germany* (De Gruyter, 2015); with Haim Fireberg, *Deutschland, die Juden und der Staat* (Israel Olms, 2016); with Julius H. Schoeps, **Arieh Sharon and Modern Architecture in Israel** (Eran Neuman, 2023-11-30).

**Arieh Sharon and Modern Architecture in Israel: Building Social Pragmatism** offers the first comprehensive survey of the work of Arieh Sharon and analyzes and discusses his designs and plans in relation to the emergence of the State of Israel. A graduate of the Bauhaus, Sharon worked for a few years at the office of Hannes Mayer before returning to Mandatory Palestine. There he established his office, which was occupied in its first years in planning kibbutzim and residential buildings in Tel Aviv. After the establishment of the State of Israel in 1948, Arieh Sharon became the director and chief architect of the National Planning Department, where he was asked to devise the young country's first national masterplan. Known as the Sharon Plan, it was instrumental in shaping the development of the new nation. During the 1950s and 1960s, Sharon designed many of Israel's institutions, including hospitals and buildings on university campuses. This book presents Sharon's exceptionally wide range of work and examines his perception of architecture in both socialist and pragmatist terms. It also explores Sharon's modernist approach to architecture and his subsequent shift to Brutalist architecture when he partnered with Benjamin Idelson in the 1950s and when his son Eldar Sharon joined the office in 1964. Thus, the book contributes a missing chapter in the historiography of Israeli architecture, in particular, and of modern architecture overall. This book will be of interest to researchers in architecture, modern architecture, Israel studies, Middle Eastern studies, and migration of knowledge.

*Exiled in L.A.* Volker M. Welter, 2025-11-18. The first English language volume to explore the work of architect Leopold Fischer and the inaugural study of his California legacy. In 1936, Leopold Fischer (1901-1975), in exile from Nazi Germany, arrived in California, where he created a small but distinct oeuvre of mostly domestic architecture. In contrast to his famous peers, Rudolph Schindler and Richard Neutra, immigrants whose Southern

California buildings are frequently examined and who like Fischer studied with the modernist architect Adolf Loos Fischer and his California structures have until now escaped the attention of architectural history Exiled in L A examines Fischer's important yet overlooked contributions to Southern California architecture As the whereabouts of Fischer's archives remain unknown Volker M Welter grounds the designer's California works in comparison with his pre-exile projects and the compositions of fellow architects in California In the 1920s Fischer created experimental working class housing estates in Germany that pioneered ecological construction and living practices Comparable to their predecessors Fischer's California buildings revolve around the functioning the organization of a home as he defined domestic architecture in 1926 Featuring new photography and detailed architectural plans this book is an original contribution to the literature on Southern California's built heritage
