Boxed Notecards is set 6 of seven new Mitchell Johnson notecard sets being released in January 2025. Each of these seven limited edition box sets of notecards are beautifully designed and feature 20 blank cards of 5 different paintings, 4 cards of each, and 20 blank envelopes. The seven themes in this series capture the gamut of places that inspire Johnson's work: Amalfi Coast, North Truro, Cape Cod, Paris, Maine, Race Point, Provincetown, Newfoundland, and of course, San Francisco. The photos included with each Amazon listing provide a clear description of the contents of the set you are considering. A biographical flysheet accompanies each set, and the colorful notecards are printed on high quality stock and are perfect for writing correspondence and thank you notes.

Inspired by a New York Times article about Newfoundland, Mitchell Johnson made a painting trip to St. John's, Bonavista, and Trinity East in 2019. The result has been a series of landscapes that explore the special color and ambiguous scale of Newfoundland houses and buildings juxtaposed with icebergs. Many of Johnson's Newfoundland paintings have appeared in The New York Times Magazine and The New Yorker. Johnson's color and shape driven paintings exist at the intersection of color theory, art history, nostalgia, and observed experience. His work is in the permanent collections of over 35 museums and has been exhibited alongside Milton Avery, Georgia O'Keeffe, Wolf Kahn, and Richard Diebenkorn. His paintings have also appeared in many feature films, including The Holiday, Crazy, Stupid, Love, and It's Complicated. The legendary art critic Donald Kuspit wrote about Johnson's work in 2024: Johnson is a master of abstraction as his oddly constructivist paintings show but of unconscious feeling for his geometry serves to contain and with that control the strong feelings implicit in his strong colors. Apart from that, his paintings are art historically important because they seamlessly fuse abstraction and realism, which Kandinsky tore apart to the detriment of both, even as he recognized that they were implicitly inseparable, tied together in a Gordian knot as they masterfully are in Johnson's paintings.
