*Hostile Takeovers of Large Jewish Companies, 1933-1935* William M. Katin, 2020-10-28 Opportunism combined with anti-Semitism led non-Nazi businessmen to acquire the largest German Jewish companies in the period 1933-1935 These hostile takeovers were made possible by the Deutsche Bank and Dresdner Bank which recalled loans previously extended to Jewish firms Thereby Germany's largest banks obtained new loan fees new supervisory board seats and became the house banks for the new Gentile-owned firms The German judiciary did not defend Jewish property rights because judges shared the same conservative mindset Scholarship has previously not discovered this 1933-1935 paradigm because of a focus on Berlin government or Nazi Party actions instead of the Jewish companies In addition a failure to distinguish between multi-million-dollar enterprises and tiny shops caused scholars to emphasize the year 1938 when thousands of mom and pop shops became bankrupt

**The Kaiser, Hitler and the Jewish Department Store** John F. Mueller, 2022-04-21 From the emergence of department stores in the late 19th century to the financial disasters of the years following the end of World War I the history of large-scale retailing in Germany was dominated by a pioneering generation of German Jewish entrepreneurs who found fortune and influence only to have their livelihoods taken by Hitler and the Nazis in the 1930s Drawing on a range of archival sources and private collections *The Kaiser, Hitler and the Jewish Department Store* reveals how contrary to Nazi claims Jewish-owned department stores were decent employers popular with customers and well integrated into the economy In fact such institutions were so integral to German society that when Hitler came to power in 1933 the Nazis were forced to abandon their pledge to abolish them As this revelatory history argues the end of the Jewish-run store cannot solely be attributed to the rise of antisemitism it was also the consequence of financial mismanagement and the indifference of the German people John F. Mueller reveals the German Jewish department store as a powerful force in society and politics as well as a leader in architecture and design His book challenges common assumptions about the relationship between consumer culture the German Jewish business community and the rise of Nazism providing fresh insights into the social history of modern Germany
