**Pentagon's Hammer** Tino Randall, 2013-12-09 Freedom is what being an American is all about. It is the single most important philosophy that has driven America's success since the beginning. Freedom, however, is an expensive luxury to secure and that is why America strives to be the leading force in military might and power. Americans are accustomed to this luxury and in ways they have taken it for granted. The dreaded day of 9/11 opened the eyes of millions of Americans when the US homeland was attacked. Its enemies exploited a weakness in general security and utilized that weakness to promote fear and chaos. The enemy took decisive action against its American foe, leading to the shocking realization that America is not immortal. Imagine if America's other weaknesses were exploited. Imagine if the next attack wasn't targeted at civilians but at the American government. *Pentagon's Hammer* is a story following a highly intelligent group of terrorists that have infiltrated the core of America's defense structure and are now utilizing this great wealth of knowledge against its sworn nemesis. This hostile takeover is led by an individual known only as The Serpent, an individual sworn to the destruction of the United States of America. In twelve days, the lives of millions of Americans will be changed forever. In twelve days, America will be thrown into disarray as its enemies have found a vulnerable weakness within its space-based Defense GRID. In twelve days, The Serpent executes a series of attacks that virtually cripples the America the world has come to know. BUT there's one complication: ALEX BAUER, a highly recognized defense systems engineer and expert within the US government. Follow Alex Bauer and his crew as they attempt to put an end to The Serpent's reign of terror and prevent the destruction of the life and freedom dear to all Americans.

[The Pentagon's New Map](#) Thomas P.M. Barnett, 2005-05-03 Since the end of the Cold War, America's national security establishment has been searching for a new operating theory to explain how this seemingly chaotic world actually works. Gone is the clash of blocs but replaced by what Thomas Barnett has the answers. A senior military analyst with the U.S. Naval War College, he has given a constant stream of briefings over the past few years and particularly since 9/11 to the highest of high level civilian and military policymakers and now he gives it to you. *The Pentagon's New Map* is a cutting edge approach to globalization that combines security, economic, political, and cultural factors to do no less than predict and explain the nature of war and peace in the twenty-first century. Building on the works of Friedman, Huntington, and Fukuyama and then taking a leap beyond, Barnett crystallizes recent American military history and strategy, sets the parameters for where our forces will likely be headed in the future, outlines the unique role that America can and will play in establishing international stability, and provides much needed hope at a crucial yet uncertain time in world history. For anyone seeking to understand the Iraqs, Afghanistans, and Liberias of the present and future, the intimate new links between foreign policy and national
