Redix,2014-09-01 In 1894 Wisconsin game wardens Horace Martin and Josiah Hicks were dispatched to arrest Joe White an Ojibwe ogimaa chief for hunting deer out of season and off reservation Martin and Hicks found White and made an effort to arrest him When White showed reluctance to go with the wardens they started beating him he attempted to flee and the wardens shot him in the back fatally wounding him Both Martin and Hicks were charged with manslaughter in local county court and they were tried by an all white jury A gripping historical study The Murder of Joe White contextualizes this event within decades of struggle of White s community at Rice Lake to resist removal to the Lac Courte Oreilles Reservation created in 1854 at the Treaty of La Pointe While many studies portray American colonialism as defined by federal policy The Murder of Joe White seeks a much broader understanding of colonialism including the complex role of state and local governments as well as corporations All of these facets of American colonialism shaped the events that led to the death of Joe White and the struggle of the Ojibwe to resist removal to the reservation      *Summary Narrative of an Exploratory Expedition to the Sources of the Mississippi River, in 1930: Resumed and Completed, by the Discovery of Its Origin in Itasca Lake, in 1832* Henry Rowe Schoolcraft,1855      *Summary Narrative of an Exploratory Expedition to the Sources of the Mississippi River, in 1820* Henry Rowe Schoolcraft,1855      *Schoolcraft's Expedition to Lake Itasca* Philip P.
