The Making of International Criminal Justice Theodor Meron, 2012-09-13 There has been a quiet revolution over the course of the past quarter century in the prosecution of individuals for war crimes before international courts Until recently and with a few notable exceptions in the wake of World War II violations of the laws of war and international humanitarian law were addressed primarily as claims between states However this approach has changed radically in just the last twenty years as the international community has increasingly accepted the idea of individual criminal responsibility for violations of international humanitarian law The International Criminal Tribunals for the former Yugoslavia and Rwanda have played a key role in this transformation and as the trailblazers for a growing number of new international or hybrid criminal courts in establishing the field of international criminal justice and encouraging the national prosecution of war crimes Understanding the Tribunals origins their ground breaking jurisprudence and how they have addressed critical legal and practical challenges is essential to understanding both the revolution that has occurred over the past twenty years and how international criminal law will change and grow in the years ahead As a leading scholar on humanitarian law past President of the International Criminal Tribunal for the former Yugoslavia and Appeals Judge for both the Yugoslavia and Rwanda Tribunals Theodor Meron has observed and influenced the development of international criminal law as it has evolved from a mostly academic exercise to a cornerstone of the new international legal order In this collection of speeches delivered during his first decade on the bench he offers an insightful overview of the foundations of international criminal law as well as a unique insider s perspective on the challenges faced by international criminal tribunals their creation of a corpus of substantive and procedural law regarding everything from sentencing and self representation to the law of genocide and the protection of prisoners of war the contributions of other international courts and the responsibilities of international jurists Judge Meron s personal reflections and unparalleled

experience in international criminal justice make this volume as rewarding for experts as it is for the general public **The Man Born to Be King** Dorothy L. Sayers, 2011-07-20 In twelve plays for broadcasting at monthly intervals Dorothy L Sayers drew on material from all four Gospels keeping the theme of Jesus of Nazareth's divine kingship in focus throughout while locating him firmly in the social and political context of his time The first half covers episodes that precede the final journey to Jerusalem and the latter half primarily deal with Passion Week themes It is the simplicity and profundity of Jesus' words in the Fourth Gospel especially that Sayers drew on in her own writing for the voice of Jesus on air The plays gave her an opportunity to explore the many gospel characters surrounding Jesus not least that of Judas And beyond the utter sorrow of Jesus' death the King comes into his own in the garden of resurrection **Who's Who in Christianity** Lavinia Cohn-Sherbok, 2013-05-13 Who's Who in Christianity is an invaluable reference guide to the leading men and women who have influenced the course of Christian history including the founding fathers, monarchs, popes, saints, philanthropists, heretics, theologians and missionaries The book encompasses the Eastern and Western Churches and the lives and opinions of personalities who have shaped the past twenty Christian centuries from Jesus of Galilee to Pope John Paul II, Paul of Tarsus to Mother Teresa Who's Who in Christianity provides an accessible and user-friendly A-Z layout, detailed bibliographical information on each prominent figure, a glossary of technical terms, a chronological table of the chief historical events, an invaluable guide for scholars, teachers, clergy, students and general readers *Books and Pamphlets, Including Serials and Contributions to Periodicals* Library of Congress. Copyright Office, 1968 *International Law And Armed Conflict, Exploring the Faultlines* Michael N. Schmitt, Jelena Pejic, 2007 International law and armed conflict exist in a symbiotic relationship In some cases law shapes conflict proactively by imposing normative limits in advance of the appearance of proscribed conduct Much more commonly armed conflict either reveals lacunae in the law or demonstrates how law designed for yesterday's wars falls short when applied to contemporary conflict When that happens international law reacts by allowing provisions to fall into desuetude embracing new interpretations of existing prescriptions or generating new norms through practice or codification In the 21st Century both international security and armed conflict are the subject of arguably unprecedented sea changes As a result claims that both the *jus ad bellum* and *jus in bello* are unwieldy and ill fitting in the context of modern hostilities have surfaced prominently Whether one agrees with such dire assessments what has become clear is that armed conflict is increasingly exposing faultlines in the law governing the resort to force The intent of this collection of essays in honour of Professor Yoram Dinstein on the occasion of his 70th birthday is to explore such faultlines first by identifying them and then by assessing their consequences In a sense then the essays contributed by the top minds in the field will serve to assist academics and practitioners to anticipate pressure on the law governing armed conflict and to the extent possible react accordingly Paralleling Professor Dinstein's classic works *War, Aggression and Self Defence* and *The Conduct of Hostilities Under the Law of International Armed Conflict* the book addresses both *ius ad bellum* and *ius in bello* topics **A Medieval**

Kopel,2017-02-16 Shedding new light on a controversial and intriguing issue this book will reshape the debate on how the Judeo Christian tradition views the morality of personal and national self defense Are self defense national warfare and revolts against tyranny holy duties or violations of God s will Pacifists insist these actions are the latter forbidden by Judeo Christian morality This book maintains that the pacifists are wrong To make his case the author analyzes the full sweep of Judeo Christian history from earliest times to the present combining history scriptural analysis and philosophy to describe the changes and continuity of Jewish and Christian doctrine about the use of lethal force He reveals the shifting patterns of thought in both religions and presents the strongest arguments on both sides of the issue The book begins with the ancient Hebrews and Genesis and covers Jewish history through the Holocaust and beyond The analysis then shifts to the story of Christianity from its origins through the Middle Ages and the Reformation up the present day Based on this scrutiny the author concludes that contrary to popular belief the legitimacy of self defense is strongly supported by Judeo Christian scripture and commentary by philosophical analysis and by the respect for human dignity and human rights on
