**Criminal Laws in Australia** David Lanham, David Wood, Bronwyn Bartal, Rob Evans, 2006 Aims to present a unified picture of the core aspects of Australian criminal law *Murder* Edward Marston, 2005 Indo the Samaritan finds a severed head in a barrel of fish A stammerer tries to save the life of the Emperor Charlemagne William the conqueror stares death in the face Gerald of Wales solves a crime with the help of a shoulder blade of ram *Modern Murders* Lee Michael-Berger, 2023-05-03 Modern Murders is the first comprehensive study of murder representations during the turn of the century drawing on previously neglected archival material to explore the intellectual cultural and artistic contexts of the period Most studies view the abundance of murder representations throughout the nineteenth century as an indicator of a supposedly typical Victorian appetite for sensation and melodrama Modern Murders however demonstrates the turn of the century s backlash against melodramatic and sensational representations of murder and reads them as an important component in the struggles for better aesthetic standards in art and entertainment and as a dominant feature in the debates on mass culture Through a plethora of visual and written texts representations of fictional and actual real life murders and high and popular forms of writing the volume considers the importance of murder in the elite claim to cultural authority versus its perception of plebian taste in the context of the democratization of culture This book will be of value to scholars and graduate students in a variety of research areas as well as general readers interested in the role of murder as a central trope in modern art and culture *Fault in Homicide* Stanley Meng Heong Yeo, 1997 Yeo s work examines the laws of England Australia and India pertaining to the fault elements required for the crimes of murder and manslaughter It contends that the Indian laws are superior and suggests a set of draft provisions which could comprise a viable model for reform of the English and Australian laws The work is directly relevant to issues being considered in the development of the Model Criminal Code [Commentaries on the Liberty of the Subject and the Laws of England, Relating to the Security of the Person](#) James Paterson, 1877 **Wickedness and Crime** Penny Crofts, 2013-10-30 The criminal legal system defines and authoritatively enacts the boundaries of permissible and impermissible behaviour with a focus on that which is prohibited or transgressive Wickedness and Crime Laws of Homicide and Malice seeks to expose the ways in which criminal law communicates and sanctions particular models of wickedness This book illuminates the intimate relationship of crime and definitions of wrongdoing A central contention of the book is that if a criminal legal system empty of normative content is undesirable and implausible then we must think critically about the types of models of wickedness that are communicated by criminal legal doctrine Through historical and contemporary analysis of the legal concept of malice Penny Crofts examines the types of models of wickedness that are established through criminal legal doctrine The book draws upon literature philosophy and jurisprudence to place wickedness at the centre of an account of criminal law Arguing that the current dominant idea of wickedness communicated in criminal law lacks nuance and clarity this book examines the implications in

terms of the legal subject social responsibility and the jurisdiction of the legal system Through historical accounts of malice the book provides resources to enrich a contemporary jurisprudence of blaming A fascinating contribution to the study of law this book will interest criminal legal scholars who seek a deeper understanding of the complexity of the relationship between law and morality The book also provides a resource for legal theorists and philosophers of wickedness supplying a sustained example and analysis of the implications of types of models of culpability
