Murder In Guanajuato:

Murder in Guanajuato Ruthie Wornall, 2008-10-02 Hey Jim buddy after we finish the farm chores today what do you say we go down to the crick and see if we can catch some brook trout Uncle Willy sensed that his 9 year old nephew Jim was ready to be introduced to brook trout fishing Thus began a long lasting nephew uncle relationship that led to a strong bond for each and a mutual love for the brook trout Their many fishing adventures often including Jim s buddies are told and illustrated with genuine enthusiasm and realism taking us to the stream beaver pond or lake and providing a real feeling of participation They catch clean fry and eat brook trout on the crick bank Together they build a log raft from which they catch brook trout in a beaver pond To gain access to even more fishing sites Jim helps Uncle Willy build a canvas covered canoe Jim and his buddies search out a secret beaver pond and are mesmerized by dozens of brook trout rising for flies Weeks later they hear about a hidden lake and decide that it too must be teeming with large trout So they pack food and fishing gear and after hours of trudging through brush and mud find the lake and view its crystal clear water These adventures bring the boys together in body and mind Finally Jim now near retirement brings his 86 year old Uncle Willy to the beautiful trout stream that flows cold and clear through his own property They catch trout enjoy each other s company and reminisce about their experiences 50 years earlier Uncle Willy says I remember when you caught your first trout from Crooked Crick It wasn t so big but it sure was exciting And Jim says I remember when we built a log raft to fish that beaver pond You caught that colorful 12 incher the first evening and it slipped between the logs back into the water You laughed and said Don t worry we ll catch more and we sure have

Murder in Guanajuato Ruthie Wornall, 1998-05-01 *Murder and Politics in Mexico*

Sara Schatz, 2011-02-28 *Murder and Politics in Mexico* studies the causes of political killings in Mexico s liberalization democratization within the larger context of political repression Mexico s democratization process has entailed a little known but highly significant cost of human lives in pre and post election violence The majority of these crimes remain in a state of impunity in other words no person had been charged with the crime and or no investigation of it had occurred This has several consequences for Mexican politics when the level of violence is extreme and when political killings that are systematic and invasive are involved this could indicate a real fracture in the democratic system This book analyzes several dimensions regarding impunity and political crime more specifically the political killings of members of the PRD in the post 1988 period in Mexico The main argument proposed in this book is that impunity for political killings is a structured system requiring one central precondition namely the failure of the legal system to function as a system of restraint for killings Dr Schatz s research finds that political assassinations are indeed rational targeted actions but they do not occur within an institutional vacuum Political assassinations are calculated strategies of action aimed at eliminating political rivals As a form of interpersonal violence political assassination involves direct or implied authorization from political leaders the availability of assassins for hire and the willingness of some political leaders to utilize them against political opponents and violent

interactions between political parties combined with judicial system ineffectiveness A corrupt legal system facilitates the use of political assassination and explains the persistence of impunity for political murder over time To reduce political violence in the transition to electoral democracy specific institutional conditions namely a structured system of impunity for murder must be overcome An American Family in the Mexican Revolution Robert Woodmansee Herr,1999 This memoir details the experiences of an American family caught in Revolutionary Mexico Based on personal documents written by Richard Herr's older brother the manuscript covers a critical period in Mexican history beginning during the Porfiriato and continuing through the 1920s Mexico's Fuel Trafficking Phenomenon Samuel León Sáez,2025-02-13 Fuel trafficking has consolidated in recent years as a paramount illegal enterprise and a priority for Mexico's diverse criminal actors This black market has been growing at an overwhelming pace in Mexico since 2011 it is estimated that between 2013-2018 more than 100 million barrels containing different fuels were stolen from the country's refineries terminals and pipelines This academic book focuses on finding explanations as to how this came to be By examining the Mexican fuel black market one of the largest and most sophisticated criminal enterprises of its kind worldwide this timely investigation shines a light on this recently relevant criminal market which has been detected across the world including in North and South America the Middle East North Africa Europe Southeast Asia and Sub Saharan Africa This book will prove of relevance for readers interested in energy and security illicit markets criminality modern day Mexico and the challenges posed by the country's security crisis At a wider level this work contributes with insights on the diversification and sophistication of criminality and black markets in Mexico Latin America and the world *In the Shadow of Saint Death* Michael Deibert,2014-06-03 With the war between the Mexican state and the drug traffickers operating within its borders having claimed over 70 000 lives since 2006 noted journalist and author Michael Deibert zeroes in on the story of the notorious Gulf Cartel their deadly war with their former allies Los Zetas the cartel's connections in Mexican politics and what its trajectory means for Mexico's and America's future Punctuated by the disappearance of busloads full of people from Mexican highways heavy weapon firefights in once picturesque colonial towns and the discovery of mass graves nowhere has the violence of Mexico's drug war been more intense than directly across the border from East Texas the scene of a scorched earth war between two of Mexico's largest drug trafficking organizations The Gulf Cartel a criminal body with roots stretching back to Prohibition and Los Zetas a group famous for their savagery and largely made up of deserters from Mexico's armed forces From the valleys and sierras of rural Tamaulipas and Nuevo León to the economic hub of Monterrey the violence rivals anything seen in the more well known narco war in Ciudad Juárez 830 miles to the west Combining dozens of interviews that the author has conducted over the last six years in Mexico and other countries in the region along with a vast reserve of secondary source material *In the Shadow of Saint Death* gives U.S. readers the story of the war being waged along our border in the voices of the cartel hitmen law enforcement officials politicians shopkeepers migrants and children living inside of it year round Through their

Sampeck, 2017-11-08

Chocolate and sugar alcohol and tobacco peyote and hallucinogenic mushrooms these seductive substances have been a nexus of desire for both pleasure and profit in Mesoamerica since colonial times But how did these substances seduce And when and how did they come to be desired and then demanded even by those who had never encountered them before The contributors to this volume explore these questions across a range of times places and peoples to discover how the individual pleasures of consumption were shaped by social cultural economic and political forces Focusing on ingestible substances as a group which has not been done before in the scholarly literature the chapters in *Substance and Seduction* trace three key links between colonization and commodification First as substances that were taken into the bodies of both colonizers and colonized these foods and drugs participated in unexpected connections among sites of production and consumption racial and ethnic categories and free forced and enslaved labor regimes Second as commodities developed in the long transition from mercantile to modern capitalism each substance in some way drew its enduring power from its ability to seduce to

stimulate bodies to alter minds to mark class social and ethnic boundaries and to generate wealth Finally as objects of scholarly inquiry each substance rewards interdisciplinary approaches that balance the considerations of pleasure and profit materiality and morality and culture and political economy
