Music Of Aaron Copland

Aaron Copland

Music Of Aaron Copland:

The Music of Aaron Copland Neil Butterworth, 1985 First survey of Copland's entire output for some 30 years a period seeing some of his most important works Aaron Copland was one of the twentieth century's most popular and distinguished composers Copland was born in 1900 in Brooklyn where he began his musical career before moving to the Paris in the 1920s where Stravinsky Prokofiev and Les Six were the centre of attention On his return to the United States at the end of the decade he began to produce a series of works which could leave no one in any doubt that American composers were capable of writing music equal to the best of their European contemporaries This chronological survey of Copland's work discusses ever one of his compositions and examines his influential writings on music Profusely illustrated with music examples and photographs it includes a conversation on the piano music with Aaron Copland and Leo Smit and also features sketches of Copland in rehearsal by Milein Cosman NEIL BUTTERWORTH was formerly Head of Music at Napier College Edinburgh

Aaron Copland Richard Kostelanetz, 2021-12-16 This book presents a selection of the best writings of the American composer and music legend Aaron Copland on a wide variety of topics It features excerpts from his correspondence and recommendations he wrote for other composers **Music and Imagination** Aaron Copland, 1952 Describes the all important role of the imagination in the composition performance appreciation and intelligent comprehension of music and surveys its influence on contemporary music *Aaron Copland* Howard Pollack, 1999-03-15 The full richness of this American composer's life and accomplishments is detailed in this candid and fascinating portrait **Aaron Copland** Marta Robertson, Robin Armstrong, 2003-08-27 Aaron Copland 1900 1990 is generally considered the most popular and well known composer of American art music and yet little scholarly attention has been paid to Copland since the 1950s This volume begins with a portrait of the composer and an evaluation of significant research trends which is intended to fill a void and to suggest directions for further research The guide also provides a section discussing Copland's interdisciplinary interests such as ballet and film work as well as a comprehensive bibliography of writings about Copland and his music **Aaron Copland and His World** Carol J. Oja, Judith Tick, 2018-06-05 Aaron Copland and His World reassesses the legacy of one of America's best loved composers at a pivotal moment as his life and work shift from the realm of personal memory to that of history This collection of seventeen essays by distinguished scholars of American music explores the stages of cultural change on which Copland's long life 1900 to 1990 unfolded from the modernist experiments of the 1920s through the progressive populism of the Great Depression and the urgencies of World War II to postwar political backlash and the rise of serialism in the 1950s and the cultural turbulence of the 1960s Continually responding to an ever changing political and cultural panorama Copland kept a firm focus on both his private muse and the public he served No self absorbed recluse he was very much a public figure who devoted his career to building support systems to help composers function productively in America This book critiques Copland's work in these shifting contexts The topics include Copland's role in shaping an American school of

modern dance his relationship with Leonard Bernstein his homosexuality especially as influenced by the writings of André Gide and explorations of cultural nationalism Copland's rich correspondence with the composer and critic Arthur Berger who helped set the parameters of Copland's reception is published here in its entirety edited by Wayne Shirley The contributors include Emily Abrams Paul Anderson Elliott Antokoletz Leon Botstein Martin Brody Elizabeth Crist Morris Dickstein Lynn Garafola Melissa de Graaf Neil Lerner Gail Levin Beth Levy Vivian Perlis Howard Pollack and Larry Starr

What to Listen for in Music, by Aaron Copland Aaron Copland, 1957 **Copland on Music** Aaron Copland, 1960 Music for the Common Man : Aaron Copland during the Depression and War Elizabeth B. Crist Assistant Professor of Musicology University of Texas at Austin, 2005-10-27 In the 1930s Aaron Copland began to write in an accessible style he described as imposed simplicity Works like *El Salón México* *Billy the Kid* *Lincoln Portrait* and *Appalachian Spring* feature a tuneful idiom that brought the composer unprecedented popular success and came to define an American sound Yet the cultural substance of that sound the social and political perspective that might be heard within these familiar pieces has until now been largely overlooked While it has long been acknowledged that Copland subscribed to leftwing ideals *Music for the Common Man* is the first sustained attempt to understand some of Copland's best known music in the context of leftwing social political and cultural currents of the Great Depression and Second World War Musicologist Elizabeth Crist argues that Copland's politics never merely accorded with mainstream New Deal liberalism wartime patriotism and Communist Party aesthetic policy but advanced a progressive vision of American society and culture Copland's music can be heard to accord with the political tenets of progressivism in the 1930s and 40s including a fundamental sensitivity toward those less fortunate support of multiethnic pluralism belief in social democracy and faith that America's past could be put in service of a better future Crist explores how his works wrestle with the political complexities and cultural contradictions of the era by investing symbols of America the West folk song patriotism or the people with progressive social ideals Much as been written on the relationship between politics and art in the 1930s and 40s but very little on concert music of the era *Music for the Common Man* offers fresh insights on familiar pieces and the political context in which they emerged
