Masquerade and Femininity Urszula Chowaniec, Ursula Phillips, Marja Rytönen, 2009-03-26 *Masquerade and Femininity* Essays on Russian and Polish Women Writers introduces the reader to the diversity of women's writing in Poland and Russia in the 19th and 20th centuries in the light of the notion of masquerade The present articles scrutinize particular works by women writers Nadezhda Dmitrievna Khvoshchinskaya Irina Odoevtseva Vera Pavlova Narcyza Michowska Maria Komornicka Irena Krzywicka and others and the strategies of masquerading female experience Taken together the articles draw attention to the feeling of an inexpressible gap between the living body and its everyday life experience of pain and suffering or happiness and pleasure and the culturally constructed powerfully imposed code of expression that readily makes use of various masks guises and acts of pretending applied especially cleverly in literary works The concept of masquerade illuminates the complexity of what we call femininity by combining two sides of the divide the real feelings and the constructed expressions This volume uses both feminist and non feminist approaches to women's writing and sheds new light on the themes of femininity woman's identity experience masks body gender relations nature culture and authorship *Masquerade and Femininity* brings together East European literary studies and gender studies offering a comparative perspective on literature literary theory and cultural phenomena in Poland and Russia and featuring a range of both eastern European and western scholars In its pages the reader is invited to move beyond Russian literature and language into a dialogic approach between Slavic literatures This book will also contribute to filling the comparative gap which is still relatively unexplored not only with regard to the application of western scholarship to East European studies but also with regard to the dialogue between Russian and Polish scholarship

Men of Their Words Nigel Harkness, 2017-12-02 Whereas the centrality of femininity to nineteenth century French fiction has been the focus of widespread critical attention masculinity has until recently received little sustained treatment in either the literary or socio historical domains In this book Nigel Harkness uses the fiction of George Sand 1804-1876 the pre eminent woman writer of the period to explore questions of masculinity as they pertain to the nineteenth century French novel and to map out new approaches to the study of literary masculinity Drawing on contemporary theories of gender and narrative Harkness reveals how Sand's novels repeatedly focus on a nexus of language masculinity and power in which narrative is both a vehicle for the expression of manhood and a site where masculinity is discursively performed Masculinity is thus reconfigured in Sand's fiction as an identity constituted as much through words as through actions Analysis of the performances of masculinity staged in Sand's novels opens onto an exploration of gendered processes of literary representation the links between masculinity and the doxa the equation of writing and power the homosocial function of acts of narration and the masculinity of authorship and authority **The**

Maternal Voice in Victorian Fiction Barbara Z. Thaden, 2013-10-28 This is the first full length study to focus specifically on representations of motherhood in fiction by such Victorian writers as Elizabeth Gaskell Margaret Oliphant Caroline Norton and Ellen Price Wood These authors presented an idealized view of motherhood as part of a campaign to gain social and legal status for mothering in a society in which married women were not legal entities and children born in wedlock were the inalienable property of their fathers These writers used dead mother plots which reversed New Testament parables so that the mother plays the leading role and maternal circle plots which portray adult daughters and their mothers raising children outside marriage This fiction which showed how children benefit from good mothering was instrumental in married mothers eventually obtaining equal parental rights **The Atlantic Monthly**, 1892 **Finding the Middle Ground** Jehanne Gheith, 2004 An examination of two influential women writers in the mid nineteenth century which challenges many common assumptions about the development of the Russian literary tradition *Women in Modern Burma* Tharaphi Than, 2013-11-07 This book challenges the popular notion that Burmese women are powerful and are granted equal rights as men by society Throughout history Burmese women have been represented as powerful and as having equal status to men by western travellers and scholars alike National history about women also follows this conjecture This book explains why actually very few powerful Burmese women exist and how these few women help construct the notion of the high status of Burmese women thereby inevitably silencing the majority of unequal and disempowered women One of the underlying questions throughout this book is why a few powerful women feel compelled to defend the notion that women hold privileged positions in Burmese society Combining historical archives with statistical data published by UN agencies this book highlights the reality of women's status in modern Burma Case studies include why the first Burmese women's army was disbanded a few months after its establishment how women writers assessed the conditions of Burmese women and represented their contemporaries in their works the current state of prostitution how modern day sex workers are trying to find their voice and how women fared vis vis men in education **Displaced Women** Lucia Aiello, Joy Charnley, Mariangela Palladino, 2014-03-17 The essays included in this volume mostly originate from the conference organised by the editors at Glasgow Women's Library in March 2012 Language multilingual narratives and interaction between cultures and languages were key themes of the conference Interdisciplinary and international the conference like this edited volume brought together specialists working in a range of fields and provided an opportunity for exchanges between historians sociologists scientists and literary scholars as well as between theoreticians and practitioners academics and non academics In spite of these many different approaches all the papers presented here transcend the idea of national identity as an epic heritage or destiny both linguistic and literary and suggest a much more fluid definition of citizenship Working from this perspective and within this general framework both the editors and the contributors of this volume encourage a broader discussion on women's narratives of displacement that compels us to rethink the notions of mother tongue and native speaker and raises

philosophical questions about linguistic ownership in other words whether a language is owned appropriated imposed or rejected and how women experience and express their sense of permanent strangeness English Literary Sexology H. Bauer, 2009-04-30 It is well known that much of our modern vocabulary of sex emerged within nineteenth century German sexology But how were the German ideas translated and transmitted into English culture This study provides an examination of the formation of sexual theory between the 1860s and 1930s and its migration across national and disciplinary boundaries

Latinx Literature Unbound Ralph E. Rodriguez, 2018-05-08 Since the 1990s there has been unparalleled growth in the literary output from an ever more diverse group of Latinx writers Extant criticism however has yet to catch up with the diversity of writers we label Latinx and the range of themes about which they write Little sustained scholarly attention has been paid moreover to the very category under which we group this literature Latinx Literature Unbound thus begins with a fundamental question What does it mean to label a work of literature or an entire corpus of literature Latinx From this question others emerge What does Latinx allow or predispose us to see and what does it preclude us from seeing If the grouping which brings together a heterogeneous collection of people under a seemingly homogeneous label tells us something meaningful is there a poetics we can develop that would facilitate our analysis of this literature In answering these questions Latinx Literature Unbound frees Latinx literature from taken for granted critical assumptions about identity and theme It argues that there may be more salubrious taxonomies than Latinx for organizing and analyzing this literature Privileging the act of reading as a temporal meaning making event Ralph E Rodriguez argues that genre may be a more durable category for analyzing this literature and suggests new ways we might proceed with future studies of the writing we have come to identify as Latinx

The Social Life of Criticism Kimberly J Stern, 2016-10-17 *The Social Life of Criticism* explores the cultural representation of the female critic in Victorian Britain focusing especially on how women writers imagined themselves in literary essays periodical reviews and even works of fiction as participants in complex networks of literary exchange Kimberly Stern proposes that in response to the male collectivity prominently featured in critical writings female critics adopted a social and sociological understanding of the profession often reimagining the professional networks and communities they were so eager to join This engaging study begins by looking at the eighteenth century when critical writing started to assume the institutional and generic structures we associate with it today and examines a series of case studies that illuminate how women writers engaged with the forms of intellectual sociability that defined nineteenth century criticism including critical dialogue the club the salon and the publishing firm In doing so it clarifies the fascinating rhetorical and political debates surrounding the figure of the female critic and charts how women writers worked both within and against professional communities Ultimately Stern contends that gender was a formative influence on critical practice from the very beginning presenting the history of criticism as a history of gender politics While firmly grounded in literary studies *The Social Life of Criticism* combines an attention to historical context with a deep investment in feminist scholarship

social theory and print culture The book promises to be of interest not only to professional academics and graduate students in nineteenth century literature but also to scholars in a wide range of disciplines including literature intellectual history cultural studies gender theory and sociology **Dickinson and the Strategies of Retice** Joanne Dobson,1989-09-22 Rejecting the view that interprets Emily Dickinson exclusively as a proto modernist poet Joanne Dobson finds Dickinson rooted in the expressive assumptions of her contemporary women writers By looking at Dickinson in the context of these writers Dobson uncovers the effects of common grounding in a cultural ethos of femininity that mandated personal reticence Combining literary history and contemporary feminist literary theory this study posits a complex interaction of personal preferences and editorial policies that resulted in a community of expression with impact on women s writing and literary careers **Unruly Women of Paris** Gay L. Gullickson,2018-09-05 In this vividly written and amply illustrated book Gay L. Gullickson analyzes the representations of women who were part of the insurrection known as the Paris Commune The uprising and its bloody suppression by the French army is still one of the most hotly debated episodes in modern history Especially controversial was the role played by women whose prominent place among the Communards shocked many commentators and spawned the legend of the p troleuses women who were accused of burning the city during the battle that ended the Commune In the midst of the turmoil that shook Paris the media distinguished women for their cruelty and rage The Paris Journal for example raved Madness seems to possess them one sees them their hair down like furies throwing boiling oil furniture paving stones on the soldiers Gullickson explores the significance of the images created by journalists memoirists and political commentators and elaborated by latter day historians and political thinkers The p troleuse is the most notorious figure to emerge from the Commune but the literature depicts the Communardes in other guises too the innocent victim the scandalous orator the Amazon warrior and the ministering angel among others Gullickson argues that these caricatures played an important role in conveying and evoking moral condemnation of the Commune More important they reveal the gender conceptualizations that structured limited and assigned meaning to women as political actors for the balance of the nineteenth and well into the twentieth century **Wordsmith 101** Nanda Esalawati,R.L.
