The Collected Poems of Bertolt Brecht is the most extensive English translation of Brecht's poetry to date. Widely celebrated as the greatest German playwright of the twentieth century, Bertolt Brecht was also, as George Steiner observed, that very rare phenomenon: a great poet for whom poetry is an almost everyday visitation and drawing of breath. Hugely prolific, Brecht also wrote more than two thousand poems, though fewer than half were published in his lifetime, and early translations were heavily censored. Now award-winning translators David Constantine and Tom Kuhn have heroically translated more than 1,200 poems in the most comprehensive English collection of Brecht's poetry to date. Written between 1913 and 1956, these poems celebrate Brecht's unquenchable love of life, the desire for better and more of it, and reflect the technical virtuosity of an artist driven by bitter and violent politics as well as by the untrammelled forces of love and erotic desire. A monumental achievement and a reclamation, *The Collected Poems of Bertolt Brecht* is a must-have for any lover of twentieth-century poetry.

Coleridge's Ancient Mariner & Select Poems Samuel T Coleridge, 2024-03-07 Coleridge's *Ancient Mariner* Select Poems by Samuel Taylor Coleridge is an affirmative and enchanting collection that showcases the poet's mastery of the Romantic era's lyrical and imaginative expressions. Published during the late 18th and early 19th centuries, Coleridge's selected poems, including the iconic *Rime of the Ancient Mariner*, invite readers into a world of vivid imagery, introspection, and supernatural elements. In this collection, readers can expect a variety of poems that exemplify Coleridge's exploration of nature, the human psyche, and the mystical. The *Rime of the Ancient Mariner*, a central piece, likely stands out as a narrative ballad that combines elements of adventure, guilt, and redemption. Other selected poems may delve into themes such as the sublime, the supernatural, and the transcendental. The title *Coleridge's Ancient Mariner Select Poems* emphasizes the significance of *The Ancient Mariner* while also offering a curated selection of Coleridge's poetic oeuvre. The use of "select" implies a thoughtful compilation that showcases the breadth and depth of his literary contributions.

Momoyama, Japanese Art in the Age of Grandeur Metropolitan Museum of Art (New York, N.Y.), 1975. Catalog focusing on the Momoyama period (1568-1615) when Japan emerged from the medieval into the modern age. It was reunified into a single country, and the changes reflected in areas of art, theatre, decor, fashion, and weapons.

Poetry and Displacement Stan Smith, 2007-01-01. The last hundred years have been an era of unprecedented displacements: the accelerated drift of rural populations to the metropolis, the spread of these cities into successive empires, and the resulting diasporas that have forged the modern United States and any number of smaller nations. These processes have fostered a poetry of exile and expatriation, intimately bound up with the experience and culture of modernity. *Poetry and Displacement* is a thought-provoking and challenging examination of globalized displacement in the work of some of our most critically acclaimed poets, including Christopher Middleton, Philip Larkin, and Derek Walcott.
