Parenting Keys Keys To Raising A Deaf Child:

Keys to Raising a Deaf Child Virginia Frazier-Maiwald, Virginia F. Frazier-Maiwald, Lenore M. Williams, 1999 Two educators who are also parents of deaf children offer positive advice and encouragement on helping children adapt to deafness They show how problems related to deafness can be overcome so that the child interacts as a social and intellectual equal with children who can hear The authors recommend what is called bimodal communication that is having the child parents and other non deaf family members learn American Sign Language as a first step in normal communication Though admitting that this approach is controversial they are personally convinced that bimodal use of signed and spoken English allows the deaf child's communication ability to grow and vocabulary to blossom The book also offers much good general advice on parenting stressing that deaf and hearing children are more alike than they are different Raising and Educating a Deaf Child Marc Marschark, 2009 The second edition of this guide offers a readable comprehensive summary of everything a parent or teacher would want to know about raising and educating a deaf child It covers topics ranging from what it means to be deaf to the many ways that the environments of home and school can influence a deaf child's chances for success in academic and social circles The new edition provides expanded coverage of cochlear implants spoken language mental health and educational issues relating to deaf children enrolled in integrated and separate settings Marschark makes sense of the most current educational and scientific literature and also talks to deaf children their parents and deaf adults about what is important to them Raising and Educating a Deaf Child is not a how to book or one with all the right answers for raising a deaf child rather it is a guide through the conflicting suggestions and programs for raising deaf children as well as the likely implications of taking one direction or the other *Library and Information Services for Individuals with Disabilities : an NCLIS Hearing in Washington, DC, July 8, 1999* United States.
