Luminous Bliss Traleg Kyabgon, 2015 MEDITATION DENNIS HILL, 2014-08-07 Through meditation we begin to get glimpses of the stillness With practice the stillness enters us and we begin to enjoy the spontaneous inner sense of serenity Over time the stillness becomes the foundation of our perception and we look out on the world from our peaceful presence Once we know this as our Self we can be free of the anxiety doubt disappointment and fear just being the watcher This is Deep Peace It might come as a surprise that consciousness the Self is the watcher of the mind In this we can become the impartial witness of mental dramas creating separation between the watcher and the chaos of ego Fortunately the mind begins to like the stillness and the suffering evaporates due to lack of interest In this we become truly happy and content

to these questions from the lens of the ancient Hindu scriptures Vedas written thousands of years ago and what modern scientists are discovering about happiness in the present Engage in a fascinating discovery of methods to achieve eternal bliss and enduring happiness This book starts off by uncovering the principles to achieve eternal bliss through the lens of one of the oldest Hindu scriptures in the world the Vedas It then dives deep into Vedanta which is the most prominent Hindu philosophical and metaphysical teaching of the Vedas The book then deals with the fusion of Eastern and Western philosophy to uncover secrets for enduring happiness The book then delves into the subject of enduring happiness from the perspective of Western psychologists and bridges the gap with ancient Hindu Vedic knowledge The book concludes with the authors personal and practical insights on striving toward enduring happiness Yoga, Meditation, and Mysticism Kenneth Rose,2016-09-08 Contemplative experience is central to Hindu yoga traditions Buddhist meditation practices and Catholic mystical theology and despite doctrinal differences it expresses itself in suggestively similar meditative landmarks in each of these three meditative systems In Yoga Meditation and Mysticism Kenneth Rose shifts the dominant focus of contemporary religious studies away from tradition specific studies of individual religious traditions communities and practices to examine the contemplative universals that arise globally in meditative experience Through a comparative exploration of the itineraries detailed in the contemplative manuals of Theravada Buddhism Pata jalian Yoga and Catholic mystical theology Rose identifies in each tradition a moment of sharply focused awareness that marks the threshold between immersion in mundane consciousness and contemplative insight As concentration deepens the meditator steps through this threshold onto a globally shared contemplative itinerary which leads through a series of virtually identical stages to mental stillness and insight Rose argues that these contemplative universals familiar to experienced contemplatives in multiple traditions point to a common spiritual mental and biological heritage Pioneering the exploration of contemplative practice and experience with a comparative perspective that ranges over multiple religious traditions religious studies philosophy neuroscience and the cognitive science of religion this book is a landmark contribution to the fields of contemplative practice and religious studies

book contains a lost Stages of the Path Lamrim work composed by the originator of the genre Atisa one of the greatest Indian Buddhist masters to ever set foot in Tibet Nearly a millennium ago the great Indian Buddhist master Atisa Dipamkarasrij ana ca 982 1054 wrote a guidebook for realizing all the stages to awakening at the repeated request of his closest Tibetan disciple Atisa is famously the author of the Lamp for the Path to Awakening Bodhipathapradipa a short work in verse but this longer prose work has been virtually unknown even in Tibet until now Atisa s Stages of the Path Awakening Bodhipathakrama translated here synthesizes all aspects of Buddhist practice from the very beginning of the path reflecting on the fortunate opportunity of human rebirth up through to attaining omniscient buddhahood by nondual meditation The Indian master s faithful disciple Dromt npa kept these teachings secret and they were only transmitted to select disciples in a closely guarded transmission but the lineage died out centuries ago after Dromt npa s Kadam school was eclipsed by history Now this significant work of Buddhist path literature has become available owing to recently recovered manuscripts of the Kadampas This book offers a study and complete translation from the Tibetan of this monument of guidance on the Buddhist path accompanied by the commentaries and ritual texts that were transmitted alongside Atisa s text Apple s substantial introduction includes a structural comparison with Atisa s famous work charts the transmission lineage for the present work before it died out and explores various hypotheses for why their fates diverged Recovered from the contingencies of history this book brings to life one of the most holistic and integrated approaches to the highest realizations of the Indian Buddhist path ever transmitted in Tibet
