Ezra Pound and Confucianism Feng Lan,2011-11-01 In Ezra Pound and Confucianism Feng Lan offers the first study of Ezra Pound s project of establishing a Confucian humanism as an alternative to Western modernism While Pound scholars are familiar with the American poet s commitment to Confucianism the question of how Confucianism systematically shaped Pound s thoughts has not been convincingly answered Lan shows that when confronted with what appeared to him a dehumanising modern world Pound discovered in Confucianism possible solutions to issues that he encountered in language politics and religion which Western intellectual tradition as a whole had failed to provide By integrating Confucian doctrines with received ideas from Western tradition Pound developed a humanist discourse and brought it to bear on the historical conditions of his time The result was a discourse characterized primarily by the following beliefs the human mind as the source of creation the individual s moral will as the basis of truth and social order the human partnership with the world of nature the self perfectibility of human beings and their innate capability for internal transcendence in spiritual life Lan examines the strategies with which Pound reconstructed Confucianism into a systematic modern discourse focusing on his controversial translation of Confucian scriptures his rethinking of the nature of language and poetry his political theory of the individual and the state and his formulation of an unorthodox spirituality Situating Pound s works in diverse cultural historical and intellectual contexts Ezra Pound and Confucianism demonstrates that despite its frequent divergence from the Confucian canon Pound s Confucian humanism gives his poetry an ideological coherence enriches the Western humanist tradition and asserts its relevance to the historical and cross cultural development of Confucianism in modern times

Chinese Public Diplomacy Falk Hartig, 2015-08-27 This book presents the first comprehensive analysis of Confucius Institutes CIs situating them as a tool of public diplomacy in the broader context of

China's foreign affairs The study establishes the concept of public diplomacy as the theoretical framework for analysing CIs By applying this frame to in depth case studies of CIs in Europe and Oceania it provides in depth knowledge of the structure and organisation of CIs their activities and audiences as well as problems challenges and potentials In addition to examining CIs as the most prominent and most controversial tool of China's charm offensive this book also explains what the structural configuration of these institutes can tell us about China's understanding of and approaches towards public diplomacy The study demonstrates that in contrast to their international counterparts CIs are normally organised as joint ventures between international and Chinese partners in the field of education or cultural exchange From this unique setting a more fundamental observation can be made namely China's willingness to engage and cooperate with foreigners in the context of public diplomacy Overall the author argues that by utilizing the current global fascination with Chinese language and culture the Chinese government has found interested and willing international partners to co finance the CIs and thus partially fund China's international charm offensive This book will be of much interest to students of public diplomacy Chinese politics foreign policy and international relations in general **New Approaches to Chinese Word Formation** Jerome L.
