Luther And His Mother:

Luther and His Mother Ian Siggins, 2003-09-08 Correcting much of the received tradition Ian Siggins has undertaken original research that leads to a new understanding of the formative role that Martin Luther's mother played in his verbal spiritual and psychological development Siggins begins with a discussion of the traditional portrait of Hanna Luder including a review and the resolution of the debate about Hanna's maiden name Next he looks at a much less technical and more colorful controversy involving Luther's mother He describes the social background and achievements of Hanna's family and relates details of young Martin's contact with that family during his impressionable adolescent years Siggins pays special attention to the preaching that Luther heard in the circle of his maternal relatives Finally he examines Luther's mature writings for traces of his mother's influence

Luther and His Mother Ian D. Siggins, Martin Luther Alberto Melloni, 2017-12-20 The three volumes present the current state of international research on Martin Luther's life and work and the Reformation's manifold influences on history churches politics culture philosophy arts and society up to the 21st century The work is initiated by the Fondazione per le scienze religiose Giovanni XXIII Bologna in cooperation with the European network Refo500 This handbook is also available in German

Luther's Theology of the Cross Dennis Ngien, 2018-06-11 Luther was fundamentally a preacher pastor a care taker of souls whose ingenuity lies in his usage of the biblical message as a source of pastoral encouragement This book seeks to capture the often overlooked pastoral side of the Reformer through an examination of his sermons on John's gospel The sermons on John show the intrinsic close and causal link between doctrine and consolation They are an exercise of his vocation as a pastor or more precisely as a theologian of the cross who seeks to inculcate the good news of justification by faith in his people leading them to experience it within the dialectic of law and gospel St John said Luther is the master in the article of justification Luther's theological method namely his theology of the cross permeates and governs the exposition of the text and all major themes of his theology Christology Trinity and soteriology appear in his exegesis of John

his life cycle theory and concept of the identity crisis proposed that we are comprised of a number of selves In several earlier books including *At Home in the World* Donald Capps has suggested that the emotional separation of young children especially boys from their mothers results in the development of a melancholy self In this book Capps employs Erikson's assignment of an inherent strength to each stage of the life cycle and proposes that the life enhancing strengths of the childhood years hope will purpose and competence are central to the development of a resourceful self and that this self counters the life diminishing qualities of the melancholy self Focusing on Erikson's own writings Capps identifies the four primordial resources that Erikson associates with childhood humor play dreams and hope and shows how these resources assist children in confronting life's difficulties and challenges Capps further suggests that the resourceful self that develops in childhood is central to Jesus' own vision of what we as adults may become if we follow the lead of little children **The End**

of the Sentence Pamela Windham Stewart, Jessica Collier, 2019-01-15 HMP Holloway was the largest women's prison in Europe historically holding numerous infamous female criminals and eliciting intrigue and fascination from the public *The End of the Sentence: Psychotherapy with Female Offenders* documents the rich and varied psychotherapeutic work undertaken by dedicated specialists in this intense and often difficult environment where attempts to provide psychological security were often undermined by conflicting ideas of physical security Women commit crime most often in the context of poverty addiction and transgenerational violence or trauma familial cycles of offending and imprisonment which are often overlooked Using personal testimony and case studies and screened through the lens of psychoanalytic theory the book examines the enduring therapeutic and relational endeavour to find connection closure and to experience a good enough ending with prisoners when the possibility of a positive new beginning often seemed remote It also considers how the cultural and political discourse remains hostile towards women who are incarcerated and how this may have culminated in the closure of the only female prison in London Through insightful real life accounts this insightful book also emphasizes the importance of professionals finding ways of supporting one another to offer women who have entered the criminal justice system a way to leave it It will prove fascinating reading for forensic psychotherapists forensic psychologists and criminologists as well as anything interested in the criminal justice system
