Provençal Literature & Language Including the Local History of Southern France New York Public Library, 1925
Bulletin of the New York Public Library New York Public Library, 1922 Includes its Report 1896 19 Europe in the Seventeenth Century David Ogg, 1925 **Études sur les relations de Lyon avec le Mâconnais et la Bresse au XVe siècle** Louis Caillet, 1909 **Salt** Pierre Laszlo, 2001 In the tradition of *The Story of Corn and Uncommon Grounds* comes a fascinating look at salt a substance that is a necessity for the body a treat for the tongue and a commodity that shaped history 10 halftones **The Institutions of France Under the Absolute Monarchy, 1598-1789, Volume 1** Roland Mousnier, 1979-11 Political and administrative institutions cannot be understood unless one knows who is operating them and for whose benefit they function In the first volume of this history Mousnier analyzes such institutions in light of the prevailing social economic and ideological structures and shows how they shaped life in 17th and 18th century France He traces the changing role of monarchical government showing how it emerged over two centuries and why it failed In a society divided by hierarchical social groups conflicts among lineages communities and districts became inevitable Aristocratic disdain ancestral attachment to privileges and autonomous powers looked upon as rights made civil unrest dislocation and anarchy endemic Mousnier examines this contention between classes as they faced each other across the institutional barriers of education religion economic resources technology means of defense and communication and territorial and family ties He shows why a monarchical state was necessary to preserve order within this fragmented society Though it was intent on ensuring the survival of French society and the public good the Absolute Monarchy was unable to maintain security equilibrium and cooperation among rival social groups Discussing the feeble technology at its disposal and its weak means of governing Mousnier points to the causes that brought the state to the limits of its resources His comprehensive analysis will greatly interest students of the ancien régime and comparativists in political science and sociology as well **The People's Revolution of 1789** Micah Alpaugh, 2024-09-15 *The People's Revolution of 1789* analyzes the historic events that unleashed a vast panoply of anarchic destructive and creative disorders that demolished France's Old Regime and founded a new revolutionary order It captures the complex and dynamic interplay of uprisings elections meetings and revolutionary moments that helped create modern freedom *The People's Revolution of 1789* is the first book to chronicle the Parisian provincial and colonial movements of 1789 together In doing so Micah Alpaugh builds from hundreds of local and regional studies and sources on the French Revolution to provide a new interpretation of the powerful contestations that created the modern revolutionary tradition He explores the multiplicity of movements anarchistically operating without a common leader and usually in only loose coordination that gave the revolutionary dynamic its power without which the legislators' revolution at Versailles would have failed or been severely curtailed The rapid onslaught of protests across the First Year of Liberty compounded their effects overpowering authorities' efforts to maintain a degenerating order and forcing the establishment of

a more open system The People's Revolution of 1789 reveals in new ways how the French revolutionaries ended feudalism established human rights abolished the police and instituted new elected governments By returning emphasis to the people's revolution we can better understand how world history's most consequential revolution developed as millions of French people embraced direct action in hopes of fundamental change Through the movements of millions the French created the most powerful revolution the world had yet experienced An Encyclopedia of the Wines and Domains of France Clive

Coates,2000 In this detailed study of the wines of France one of the world's leading authorities on wine discusses every appellation and explains its character and the best growers He uses a star system to identify the finest estates More than 40 specially commissioned maps show the main appellations and wine villages of France *Sources of Law, Legal Change, and Ambiguity* Alan Watson,2016-12-09 Why is the law notoriously unclear arcane slow to change in the face of changing

circumstances In this sweeping comparative analysis of the lawmaking process from ancient Rome to the present day Alan Watson argues that the answer has largely to do with the mixed ancestry of modern law the confusion of sources custom legislation scholarly writing and judicial precedent from which it derives France as it is André Lebon,Paul Pelet,1888
