Young English Language Learners Eugene E. Garcia, Ellen C. Frede, 2019-07-05 It is well known that the number of non English speakers is on the rise in the United States What is less well known is that the largest proportion of this population is children under the age of 5 These young English language learners ELLs often demonstrate achievement gaps in basic math and reading skills when they start school How best to educate this important and growing preschool population is a pressing concern for policymakers and practitioners The chapters in this important book provide up to date syntheses of the research base for young ELLs on critical topics such as demographics development of bilingualism cognitive and neurological benefits of bilingualism and family relationships as well as classroom assessment and teacher preparation

Vol II** Gemma Moya-Galé,2020-05-15 El proceso de evaluación y de diagnóstico representa un reto para cualquier profesional de la logopedia De hecho constituye toda una habilidad en sí misma Para desarrollarla es necesario poseer una formación de base de calidad que nos permita conocer los diferentes trastornos que pueda presentar la población a la que evaluaremos la heterogeneidad de los componentes de la evaluación y los diferentes métodos con los que implementarla El proceso de diagnóstico como todo se perfecciona con la experiencia y es lo que nos ayudará a desarrollar nuestro juicio clínico la herramienta clave que un buen logopeda debe poseer Con este manual esperamos transmitir la idea de evaluación holística en la que valoramos a nuestros pacientes desde una perspectiva global aunando diferentes técnicas de exploración y considerando tanto las fortalezas como debilidades del niño o con el que trabajamos Esperamos por lo tanto que sea de gran utilidad a los profesionales de nuestro campo y que se convierta en una fuente de información de referencia para todos ellos **Lexical Skills in Bilingual School-age Children** Kathryn Jean Kohnert,2000 Four different

cross sectional studies were conducted in order to examine lexical skills in early sequential Spanish English bilinguals All participants had learned Spanish as a first language L1 in the home with formal English L2 experience beginning at approximately 5 years Participants were grouped into five different age levels 5 7 8 10 11 13 14 16 18 20 years The primary objectives of these studies were to investigate changes in basic level lexical skills in early sequential bilinguals in both L1 and L2 as a function of age years of L2 experience modality comprehension vs production and varied cognitive linguistic processing demands in single vs mixed language conditions Combined results from the static discrete point measures of lexical knowledge and the dynamic experimental measures of lexical access indicate that gains were made in both languages across age These gains however were generally greater in English L2 than in Spanish L1 There was a developmental cross over from Spanish dominance in the youngest children through a period of relatively balanced cross linguistic skills in middle childhood culminating in a clear pattern of English dominance by adolescence The age at which this cross over from relative Spanish to English dominance occurred however varied as a function of modality i e with the switch appearing first in comprehension and later in production In the mixed language processing condition the results were also split across modalities That is there were no response decrements in the language mixed relative to language blocked processing condition for the dynamic comprehension task In contrast in the dynamic production task there was a significant slowing of response times in the mixed language condition across all age groups There were also changes in the pattern of speed accuracy trade offs in the mixed condition that may reflect developmental changes in the ability to resist cognitive interference during language processing In summary there was a general convergence across lexical measures indicating that normal sequential bilingual development in children takes place over a protracted period one that is marked by points of balance shifts in language dominance variable rates of growth as well as potential trade offs in the cost of regulating this dynamic dual language system

MacArthur-Bates del Desarrollo de Habilidades Comunicativas Donna Jackson-Maldonado, 2005 **Cuerpo de Maestros. Audición y Lenguaje. Volumen 1. LOMLOE** Varios autores, 2023-02-13 En este libro se presentan los 13

primeros temas del programa oficial de la especialidad de Audición y Lenguaje tal y como se recoge en la Orden de 9 de septiembre de 1993 por la que se aprueban los temarios que han de regir en los procedimientos de ingreso adquisición de nuevas especialidades y movilidad para determinadas especialidades de los Cuerpos de Maestros. Todos los temas han sido actualizados y adaptados a lo establecido en la Ley Orgánica 2/2006 de 3 de mayo de Educación LOE en la Ley Orgánica 3/2020 de 29 de diciembre por la que se modifica la Ley Orgánica 2/2006 de 3 de mayo de Educación LOMLOE en el Real Decreto 157/2022 de 1 de marzo por el que se establece la ordenación y las enseñanzas mínimas de la Educación Primaria en el Real Decreto 95/2022 de 1 de febrero por el que se establece la ordenación y las enseñanzas mínimas de la Educación Infantil y en el Real Decreto 217/2022 de 29 de marzo por el que se establece la ordenación y las enseñanzas mínimas de la Educación Secundaria Obligatoria. Cada tema contiene un índice sistemático, una introducción y una conclusión tal como demandan los criterios de evaluación de los tribunales. Un aspecto relevante digno de mención y a considerar en el desarrollo de los temas está relacionado con la legislación. En España el Estado transfiere competencias en materia educativa a las diferentes Comunidades Autónomas pudiendo concretar cada una de ellas el desarrollo normativo de la Ley Orgánica. En este sentido existe una normativa estatal constituida por las normas básicas y una normativa autonómica que la concreta y desarrolla. El opositor u opositora debe examinar y tener en cuenta la legislación específica de la comunidad por la que se va a presentar a la oposición cuyo contenido puede consultar a través del código QR. La evolución que ha experimentado el sistema educativo y las modificaciones establecidas por la LOMLOE provoca desajustes conceptuales con los temarios de acceso regulados en la Orden de 9 de septiembre de 1993. Esta obra es fiel a los epígrafes del temario oficial y a los cambios terminológicos de la nueva normativa relacionándolos y ajustándolos en cada tema. El equipo docente que ha redactado este temario posee experiencia en la preparación de oposiciones al Cuerpo de Maestros en la escuela pública y en la participación en tribunales de oposiciones. La preparación adecuada por parte del opositor para un examen de estas características requiere comprender los conceptos fundamentales de cada tema, ser capaz de relacionarlos de manera coherente y darles un cierto carácter de originalidad. Acorde con nuestra concepción constructivista del aprendizaje entendemos que es el propio alumno el que construye sus conocimientos. A partir del temario que presentamos el opositor o la opositora debe construir sus propios temas. Por eso en su elaboración hemos querido huir de dos posibles peligros: confeccionar unos temas tan sumamente sintetizados que prácticamente coincidan con lo que hay que desarrollar en la prueba frustrando así la posibilidad de que el opositor se construya su propio tema o en el polo opuesto hacer un tratado de cada tema ya que esto dispersa enormemente la atención. Confiamos en que este libro le sirva al opositor para conseguir el objetivo propuesto que es también el nuestro: lograr una preparación de calidad que le permita superar la oposición. Los autores.
