**Methods of Project Analysis** Deepak Lal, World Bank, 1974      Management ,1968      **Planning with the semi-input-output method** A. Kuyenhoven, 2012-12-06 The semi input output method was introduced by Professor Jan Tinbergen in the early 1960 s in fairly obscure places in the economic literature The basic idea of the method is a very simple one and does not require lengthy and sophisticated exposition to be understood This fact together perhaps with Tinbergen s dislike for very formalized and technical analysis probably explains why he himself has never given a full exposition and elaboration of this method Nevertheless the concept did not remain unnoticed and authors such as B Hansen and some of Tinbergen s collaborators in particular P A Cor nelisse and J Versluis have contributed to the elaboration of the method The present work by Dr A Kuyenhoven also a long time collaborator of Tinbergen has provided us with the first full and in my opinion definite exposition of the nature technique and use of the semi input output method now more than 15 years after the launching of the concept      **Analytical Methods and Approaches for Water Resources Project Planning** National Research Council, Division on Earth and Life Studies, Ocean Studies Board, Water Science and Technology Board, Committee to Assess the U.S. Army Corps of Engineers Methods of Analysis and Peer Review for Water Resources Project Planning, Panel on Methods and Techniques of Project Analysis, 2004-09-30 Analytical Methods and Approaches for Water Resources Project Planning is part of a larger study that was conducted in response to a request from the U S Congress in the Water Resources Development Act of 2000 for the National Academy of Sciences to review the U S Army Corps of Engineer s peer review methods and analytical approaches This report reviews the Corps analytical procedures and planning methods largely in the context of the federal Economic and Environmental Principles and Guidelines for Water and Related Land Resources Implementation Studies also known as the Principles and Guidelines or P and G P G as well as the Corps Planning Guidance Notebook PGN      NASA SP-7500 United States.
