Langer, 2018-11-01 *Hemispheric Indigeneities* is a critical anthology that brings together indigenous and nonindigenous scholars specializing in the Andes Mesoamerica and Canada The overarching theme is the changing understanding of indigeneity from first contact to the contemporary period in three of the world's major regions of indigenous peoples Although the terms *indio* *indigène* and *indian* only exist in Spanish French and English respectively because of European conquest and colonization indigenous peoples have appropriated or changed this terminology in ways that reflect their shifting self identifications and aspirations As the essays in this volume demonstrate this process constantly transformed the relation of Native peoples in the Americas to other peoples and the state This volume's presentation of various factors geographical temporal and cross cultural provide illuminating contributions to the burgeoning field of hemispheric indigenous studies *Hemispheric Indigeneities* explores indigenous agency and shows that what it means to be indigenous was and is mutable It also demonstrates that self identification evolves in response to the relationship between indigenous peoples and the state The contributors analyze the conceptions of what indigeneity meant means today or could come to mean tomorrow *Canada: The State of the Federation, 2013* Martin Papillon, André Juneau, 2016-03-01 Traditionally associated with the federal government Aboriginal policy has arguably become a far more complex reality With or without formal self government Aboriginal communities and nations are increasingly assertive in establishing their own authority in areas as diverse as education land management the

Capitalism and Colonialism: The Making of Modern Canada 1890-1960 Bryan D. Palmer,2025-09-02 This second volume of Bryan Palmer s history of Canada covers 1890 to 1960 Weaving together themes that include business labour politics and social history this account brings the experiences of Indigenous peoples into the centre of the narrative Canada experienced extraordinary growth during these decades notably after the Second World War when many Canadians quickly became far better off Yet vast inequalities persisted Indigenous peoples experienced ongoing and often worsening deprivation and ordinary people saw little or no real improvement in their lives These realities set the

stage for the interplay of reform resistance and reaction that followed after 1960 Palmer examines the continuing role of capitalism and colonialism in structuring Canada in the period between 1890 and 1960 from capital s conflicts and fragile ententes with labour to the struggles of Indigenous Peoples and francophone Canada and the changing role of Canadian capital internationally Relying on the work of scholars who have produced a vast academic literature on a wide range of topics in Canadian history Bryan Palmer offers a new history of Canada which reflects the knowledge and values of 21st century Canadians

Blurring Timescapes, Subverting Erasure Sarah Surface-Evans,A. E. Garrison,Kisha Supernant,2020-08-30 What happens when we blur time and allow ourselves to haunt or to become haunted by ghosts of the past Drawing on archaeological historical and ethnographic data Blurring Timescapes Subverting Erasure demonstrates the value of conceiving of ghosts not just as metaphors but as mechanisms for making the past more concrete and allowing the negative specters of enduring historical legacies such as colonialism and capitalism to be exorcised

The Apathetic and the Defiant Craig L. Mantle,2007-02-12 Canadian soldiers have served their country for centuries and for the most part they have done so honourably and loyally Yet on certain occasions their conduct has been anything but honourable Whether by disobeying their legal orders terrorizing the local population or committing crimes in general some soldiers have embodied the very antithesis of appropriate military conduct Covering examples of unsavoury behaviour in the representatives of our military forces from the War of 1812 to the immediate aftermath of the First World War The Apathetic and the Defiant reveals that disobedience and mutiny have marked all of the major conflicts in which Canada has participated Canadian military indiscipline has long been overshadowed by the nation s victories and triumphs until now

Indigenous in the City Evelyn Peters,Chris Andersen,2013-04-22 Research on Indigenous issues rarely focuses on life in major metropolitan centres Instead there is a tendency to frame rural and remote locations as emblematic of authentic or real Indigeneity and as central to the survival of Indigenous cultures and societies While such a perspective may support Indigenous struggles for territory and recognition as distinct peoples it fails to account for large swaths of contemporary Indigenous realities not the least of which is the increased presence of Indigenous people and communities in cities The chapters in this volume explore the implications of urbanization on the production of distinctive Indigenous identities in Canada the United States New Zealand and Australia Instead of viewing urban experiences in terms of assimilation and social and cultural disruption this book demonstrates the resilience creativity and complexity of the urban Indigenous presence both in Canada and internationally

Louis Riel and the Creation of Modern Canada Jennifer Reid,2008-11 Since he was tried and hanged for treason in November of 1885 Louis Riel has been the subject of more histories biographies novels and poetry than any other figure in Canadian history Politician founder of Manitoba and leader of the aboriginal M tis people Riel led two resistance movements against the Canadian

government the Red River Uprising of 1869-70 and the North West Rebellion of 1885 in defense of Métis and other minority rights. Against the backdrop of these legendary uprisings, Jennifer Reid examines Riel's religious background, the mythic significance that has consciously been ascribed to him, and how these elements combined to influence Canada's search for a national identity. Reid's study provides a framework for rethinking the geopolitical significance of the modern Canadian state, the historic role of Confederation in establishing the country's collective self-image, and the narrative space through which Riel's voice speaks to these issues.

Constitutional Politics in Multinational Democracies André Lecours, Nikola Brassard-Dion, Guy Laforest, 2021-07-15

Constitutional politics is exceptionally intense and unpredictable. It involves negotiations over the very nature of the state and the implications of self-determination. Multinational democracies face pressing challenges to the existing order because they are composed of communities with distinct cultures, histories, and aspirations striving to coexist under mutually agreed-upon terms. Conflict over the recognition of these multiple identities and the distribution of power and resources is inevitable and indeed part of what defines democratic life in multinational societies. In *Constitutional Politics in Multinational Democracies*, André Lecours, Nikola Brassard-Dion, and Guy Laforest bring together experts on multinational democracies to analyze the claims of minority nations about their political future and the responses they elicit through constitutional politics. Essays focus on the nature of these states and the actors and political process within them. This framework allows for a multidimensional examination of crucial political periods in these democracies by assessing what constitutional politics is, who is involved in it, and how it happens. Case studies include Catalonia and Spain, Puerto Rico and the United States, Scotland and the United Kingdom, Belgium, Bosnia and Herzegovina, and Quebec, and the Métis People in Canada. Theoretically significant and empirically rich, *Constitutional Politics in Multinational Democracies* is a necessary read for any student of multinationalism.

One of the Family Brenda Macdougall, 2011-01-01

In recent years, there has been growing interest in identifying the social and cultural attributes that define the Métis as both Aboriginal and a distinct people. The study of Métis identity formation has also emerged as an innovative way to explore cultural encounters and change in North American history and anthropology. In *One of the Family*, Brenda Macdougall employs the concept of *wahkootowin*, the Cree term for a worldview that privileges family and values interconnectedness, to trace the emergence of a Métis community in northern Saskatchewan. *Wahkootowin* describes how relationships in the nineteenth century were supposed to work and helps to explain how the Métis negotiated with fur trade companies and the Roman Catholic Church while nurturing a society that emphasized family obligation and responsibility. This path-breaking study offers a model for future research and discussion that will appeal to anyone interested in the history of the fur trade or Métis culture and identity.
