in the anthropology of time toth *World Mythology* David Adams Leeming,2022 Deity Creation The flood The trickster The hero World mythology and cultural myths *Myth Formation in the Fiction of Chinua Achebe and Amitav Ghosh* Nilanjan Chakraborty,2020-09-28 This book studies culture in terms of myths and how they function to construct the identity of communities It focuses on myth formation in the fiction of Chinua Achebe and Amitav Ghosh two major twentieth century authors from Nigeria and India respectively The book analyses how these two authors use myth in their works to study the cultural mores of the societies they represent Achebe represents the Igbo community of Nigeria and Amitav Ghosh represents various communities in India in both the pre colonial and postcolonial phases ranging from Bihar to Sundarbans in south Bengal The book focuses on the area of myth studies in the postcolonial area of study delving into a comparative study between the two authors and how they contribute to myth studies through their fiction **Empire and Poetic Voice** Patrick Colm Hogan,2012-02-01 In *Empire and Poetic Voice* Patrick Colm Hogan draws on a broad and detailed knowledge of Indian African and European literary cultures to explore the way colonized writers respond to the subtle and contradictory pressures of both metropolitan and indigenous traditions He examines the work of two influential theorists of identity Judith Butler and Homi Bhabha and presents a revised evaluation of the important Nigerian critics Chinweizu Jemie and Madubuike In the process he presents a novel theory of literary identity based equally on recent work in cognitive science and culture studies This theory argues that literary and cultural traditions like languages are entirely personal and only appear to be a matter of groups due to our assertions of categorical identity which are ultimately both false and dangerous Classical Mythology Nathaniel Hawthorne,F. Storr,V.C. Turnbull,H.P. Maskell,Guy E. Lloyd,M. M. Bird,Hope Moncrieff,Thomas Bulfinch,2018-07-31 Travel back to a time when divine beings mixed with mortals when heroes battled sorcerers and nature was a mysterious realm ruled by beautiful and dangerous deities From the legends of Hercules and the Titans to tales of the underworld and the destruction of Troy these enduring myths have formed a major part of Western culture for millennia and continue to capture our imaginations today Beautifully illustrated with dramatic scenes from master artists of the 16th through to the 19th century this elegant collection contains more than 40 fascinating tales retold by a variety of expert storytellers **Metropolitan Pulpit and Homiletic Monthly** ,1888 New York and Los Angeles David Halle,2003-08-15 Capturing much of what is new and vibrant in urban studies today New York and Los Angeles should prove to be valuable reading for scholars in that field as well as in sociology political science and government Myth of Liberal Ascendancy G. Williams Domhoff,2015-11-17 Based on new archival research G Williams Domhoff challenges popular conceptions of the 1930 s New Deal Arguing instead that this period was one of increasing corporate dominance in government affairs affecting the fate of American workers up to the present day While FDR s New Deal brought sweeping legislation the tide turned quickly after 1938 From that year onward nearly every major new economic law passed by Congress showed the mark of corporate dominance Domhoff accessibly portrays documents of the Committee s vital influence in the halls of government

supported by his interviews with several of its key employees and trustees Domhoff concludes that in terms of economic influence liberalism was on a long steady decline despite two decades of post war growing equality and that ironically it was the successes of the civil rights feminist environmental and gay lesbian movements not a new corporate mobilisation that led to the final defeat of the liberal labour alliance after 1968

The Myth of the North American City Michael Goldberg, John Mercer, 2011-11-01 The continuing tendency to continentalize Canadian issues has been particularly marked in the area of urban studies where United States based research findings methodologies and attitudes have held sway In this book Goldberg and Mercer demonstrate that the label North American City as widely used is inappropriate and misleading in discussion of the distinctive Canadian urban environment Examining such elements of the cultural context as mass values social and demographic structures the economy and political institutions they reveal salient differences between Canada and the United States One of the most important of the many contextual differences is the strong collective sense in Canada which accepts more public intervention in social and economic matters in contrast to the American commitment to individualism Canadians consequently expect a livable central city which is compact and well served by public transit and which has a fiscally sound local government To demonstrate these issues the discussion includes a detailed cross national empirical analysis of over 300 North American metropolitan areas along some three dozen dimensions including density transportation household change and structure income and fiscal disparities and economic structure Since much urban planning in Canada is based upon the continentalist assumption this volume should generate a reassessment of policy and encourage the development of a research base to suit the distinctiveness of the Canadian experience With growing pressures to take a North American view of Canadian policies it is vitally important that the differences delineated in this book are understood not just for their urban policy implications but for broader purposes as well

Natives Making Nation Andrew Canessa, 2005-09-22 In Bolivia today the ability to speak an indigenous language is highly valued among educated urbanites as a useful job skill but a rural person who speaks a native language is branded with lower social status Likewise chewing coca in the countryside spells inferior indian but in La Paz jazz bars it s decidedly cool In the Andes and elsewhere the commodification of indianness has impacted urban lifestyles as people co opt indigenous cultures for qualities that emphasize the uniqueness of their national culture This volume looks at how metropolitan ideas of nation employed by politicians the media and education are produced reproduced and contested by people of the rural Andes people who have long been regarded as ethnically and racially distinct from more culturally European urban citizens Yet these peripheral natives are shown to be actively engaged with the idea of the nation in their own communities forcing us to re think the ways in which indigeneity is defined by its marginality The contributors examine the ways in which numerous identities racial generational ethnic regional national gender and sexual are both mutually informing and contradictory among subaltern Andean people who are more likely now to claim an allegiance to a nation than ever before Although indians are less often confronted with

crude assimilationist policies they continue to face racism and discrimination as they struggle to assert an identity that is more than a mere refraction of the dominant culture Yet despite the language of multiculturalism employed even in constitutional reform any assertion of indian identity is likely to be resisted By exploring topics as varied as nation building in the 1930s or the chuqila dance these authors expose a paradox in the relation between indians and the nation that the nation can be claimed as a source of power and distinct identity while simultaneously making some types of national imaginings unattainable Whether dancing together or simply talking to one another the people described in these essays are shown creating identity through processes that are inherently social and interactive To sing to eat to weave In the performance of these simple acts bodies move in particular spaces and contexts and do so within certain understandings of gender race and nation Through its presentation of this rich variety of ethnographic and historical contexts *Natives Making Nation* provides a finely nuanced view of contemporary Andean life

Imagining Manila Tom Sykes, 2021-04-08 The city of Manila is uniquely significant to Philippine Southeast Asian and world history It played a key role in the rise of Western colonial mercantilism in Asia the extinction of the Spanish Empire and the ascendancy of the USA to global imperial hegemony amongst other events This book examines British and American writing on the city situating these representations within scholarship on empire orientalism and US Asian and European political history Through analysis of novels memoirs travelogues and journalism written about Manila by Westerners since the early eighteenth century Tom Sykes builds a picture of Western attitudes towards the city and the wider Philippines and the mechanics by which these came to dominate the discourse This study uncovers to what extent Western literary tropes and representational models have informed understandings of the Philippines in the West and elsewhere and the types of counter narrative which have emerged in the Philippines in response to them
