Mallett,2013-11 Federal law requires state and local governments to designate a metropolitan planning organization MPO in each urbanized area with a population of 50 000 or more to help plan surface transportation infrastructure and services There are currently 381 MPOs nationwide Despite some strengthening of their authority over the years MPOs have generally remained subordinate to state departments of transportation DOTs in the planning and selecting programming of projects using federal surface transportation funds Moreover it can be argued that at the metropolitan level MPOs are subordinate to local governments that own and operate many elements of the transportation system and also control land use planning and zoning Because of the perceived weakness of MPOs some in the transportation community have argued that they ought to be given much more power over the planning and programming of projects using federal surface transportation funds Some of these observers go so far as to suggest that federal policies and programs in a number of areas including transportation housing and the environment need to be coordinated on a metropolitan scale and that MPOs are the organizational venue where this should occur Others argue that the relationship between state government local government and MPOs is well balanced *Metropolitan Transportation Planning Seminars* ,1970 Metropolitan transportation plan Tyler Metropolitan Planning Organization (Tyler,Texas).,1999 2005-2030 Metropolitan Transportation
