**Metropolitan Desegregation** Robert Green, 2013-11-11 Most of the findings in this book are based on the work of a team of researchers from Urban Affairs Programs at Michigan State University From 1976 to 1981 the team observed the progress of school desegregation in metropolitan Wilmington Delaware which encompasses New Castle County The project was made possible by a grant from the Rockefeller Foundation Division of Social Sciences Metropolitan desegregation is a strategy deserving of national attention because this country's black population has become increasingly concentrated within central cities Desegregation solutions must be found that encompass America's white suburbs as well as its urban areas In a 1977 statement the U S Commission on Civil Rights called metropolitan school desegregation the last frontier to be crossed in the long judicial effort to make equal educational opportunity a living reality Moreover the National Task Force on Desegregation Strategies concluded in 1979 The simple demographic fact is that many large city school districts cannot desegregate by themselves For children in such districts the best hope for attending a desegregated school lies in the implementation of metropolitan desegregation strategies i e desegregation plans which do not stop at the city line but rather encompass at least some of the surrounding suburban areas p 1 The Michigan State University research team began its investigation in New Castle County Delaware after a three judge federal district court ruled that area schools were illegally segregated between districts *Milliken V. **Public Schools** Dionne Danna, 2014-01-15 Highlighting the processes and missteps involved in creating and carrying out school desegregation policies in Chicago Dionne Danna discusses the challenges of using the 1964 Civil Rights Act to implement school desegregation and the resultant limitations and effectiveness of government legislative power in bringing about social change **The Containment** Michelle Adams, 2025-01-14 Splendid Adams's book explores class as well as race with a richness and sophistication that recall J Anthony Lukas's 1985 masterpiece *Common Ground* Jeffrey Toobin The New York Times Book Review Passionate and well researched Louis Menand The New Yorker The epic story of Detroit's struggle to integrate schools in its suburbs and the defeat of desegregation in the North In 1974 the Supreme Court issued a momentous decision In the case of *Milliken v Bradley* the justices brought a halt to school desegregation across the North and to the civil rights movement's struggle for a truly equal education for all How did this come about and why In *The Containment* the esteemed legal scholar Michelle Adams tells the epic story of the struggle to integrate Detroit schools and what happened when it collided with Nixon appointed justices committed to a judicial counterrevolution Adams chronicles the devoted activists who tried to uplift Detroit's students amid the upheavals of riots Black power and white flight and how their efforts led to federal judge Stephen Roth's landmark order to achieve racial balance by tearing down the walls

separating the city and its suburbs The metropolitan remedy could have remade the landscape of racial justice Instead the Supreme Court ruled that the suburbs could not be a part of the effort to integrate and thus upheld the inequalities that remain in place today Adams tells this story via compelling portraits of a city under stress and of key figures including Detroit's first Black mayor Coleman Young and Justices Marshall Rehnquist and Powell The result is a legal and historical drama that exposes the roots of today's backlash against affirmative action and other efforts to fulfill the country's promise **Milliken**

**V. Bradley--the Implications for Metropolitan Desegregation**, 1975 **When the Fences Come Down** Genevieve Siegel-Hawley, 2016-04-12 How we provide equal educational opportunity to an increasingly diverse highly urbanized student population is one of the central concerns facing our nation As Genevieve Siegel Hawley argues in this thought provoking book within our metropolitan areas we are currently allowing a labyrinthine system of school district boundaries to divide students and opportunities along racial and economic lines Rather than confronting these realities though most contemporary educational policies focus on improving schools by raising academic standards holding teachers and students accountable through test performance and promoting private sector competition Siegel Hawley takes us into the heart of the metropolitan South to explore what happens when communities instead focus squarely on overcoming the educational divide between city and suburb Based on evidence from metropolitan school desegregation efforts in Richmond Virginia Louisville Kentucky Charlotte Mecklenburg North Carolina and Chattanooga Tennessee between 1990 and 2010 Siegel Hawley uses quantitative methods and innovative mapping tools both to underscore the damages wrought by school district boundary lines and to raise awareness about communities that have sought to counteract them She shows that city suburban school desegregation policy is related to clear measurable progress on both school and housing desegregation Revisiting educational policies that in many cases were abruptly halted or never begun this book will spur an open conversation about the creation of the healthy integrated schools and communities critical to our multiracial future **Anti-Black Racism in**

**America** Thomas F. Pettigrew, 2025 This book presents a fresh comprehensive look at American Black White relations Drawing on his decades of experience at the intersection of social psychology and intergroup relations Thomas F Pettigrew demonstrates the advances made in recent years that promise a decline in anti Black racism especially in politics and education but also highlights where American racism remains firmly entrenched in economics housing and the justice system The book emphasizes the central importance of segregated housing that restrains both interracial contact and the growth of Black American wealth It closes with new proposal for Black reparations that could be generated from billionaires alone

*Detroit and the New Political Economy of Integration in Public Education* Curtis L. Ivery, Joshua A. Bassett, 2022-09-10 This edited volume analyzes a little known but important juncture in the history of racial integration and public education during the Obama administration through the advent of the Trump administration which also marks a significant transition of US racial politics and race relations from its foundations in civil rights movements of the 1950s 60s Focusing on the City of Detroit which via the historic Supreme Court case Milliken v Bradley stands as the central site of analysis for these broader national dynamics of race education and integration what we term as a new political economy of integration this volume offers a multidisciplinary perspective on the critical role integration must play in the project of America becoming a multiracial democracy as US populations continue to grow more diverse and will soon transform the nation into a multiracial majority for the first time in its history

Urban Politics Myron A. Levine, 2019-07-24 *Urban Politics* blends the most insightful classic and current political science and related literature with current issues in urban affairs The book s integrative theme is power demonstrating that the study of urban politics requires an analyst to look beyond the formal institutions and procedures of local government The book also develops important subthemes the impact of globalization the dominance of economic development over competing local policy concerns the continuing importance of race in the urban arena local government activism versus the limits imposed on local action by the American constitutional system and economic competition and the impact of national and state government action on cities *Urban Politics* engages students with pragmatic case studies and boxed material that use classic and current urban films and TV shows to illustrate particular aspects of urban politics The book s substantial concluding discussion of local policies for

environmental sustainability and green cities also appeals to today's students. Each chapter has been thoroughly rewritten to clearly relate the content to current events and academic literature including the following: the importance of the intergovernmental city; the role of local governments as active policy actors and vital policy makers even in areas outside traditional municipal policy concerns; the prospects for urban policy and change in and beyond the Trump administration including the ways in which urban politics is affected by but not determined by Washington; Mixing classic theory and research on urban politics with the most recent developments and data in urban and metropolitan affairs. *Urban Politics 10e* is an ideal introductory textbook for students of metropolitan and regional politics and policy. The book's material on citizen participation, urban bureaucracy, policy analysis and intergovernmental relations also makes the volume an appropriate choice for Urban Administration courses. All Together Now Richard D. Kahlenberg, 2004-05-13. This provocative book asks a simple question: since we know that middle class schools tend to work best, why not give every child in America the opportunity to attend a public school in which the majority of students come from middle class households? Economically integrated schools, the author argues, will do far more to promote achievement and equal opportunity than vouchers, standards, class size reduction or any of the other leading education proposals on the left and right that seek to make separate but equal schools work. Building on two recent education trends, the decline in racial desegregation as a legal tool and the movement toward greater public school choice, *All Together Now* provides a blueprint for creating schools that educate children from various backgrounds under one roof. Concurring with the concerns of voucher proponents about the unfairness of trapping poor kids in failing schools, the book provides a practical, viable and legally sound plan for promoting economic and racial integration among public schools.

More Than One Struggle Jack Dougherty, 2005-12-15. Traditional narratives of black educational history suggest that African Americans offered a unified voice concerning *Brown v. Board of Education*. Jack Dougherty counters this interpretation, demonstrating that black activists engaged in multiple overlapping and often conflicting strategies to advance the race by gaining greater control over schools. Dougherty tells the story of black school reform movements in Milwaukee from the 1930s to the 1990s, highlighting the multiple perspectives within each generation. In profiles of four leading activists, he reveals how different generations redefined the meaning of the *Brown* decision over time to fit the historical conditions of their particular struggles. William Kelley of the Urban League worked to win teaching jobs for blacks and to resettle Southern black migrant children in the 1950s. Lloyd Barbee of the NAACP organized protests in support of integrated schools and the

teaching of black history in the 1960s and Marian McEvilly and Howard Fuller contested in different ways the politics of implementing desegregation in the 1970s paving the way for the 1990s private school voucher movement Dougherty concludes by contrasting three interpretations of the progress made in the fifty years since Brown showing how historical perspective can shed light on contemporary debates over race and education reform
