Whitaker's Books in Print ,1990 Celebrity Culture and the Myth of Oceania in Britain Ruth Scobie,2019 An intriguing case study on how popular images of Oceania mediated through a developing culture of celebrity contributed to the formation of British identity both domestically and as a nascent imperial power in the eighteenth century *Whitaker's Book List* ,1989 **The British National Bibliography** Arthur James Wells,2006 I Met God in Bermuda Steven Ogden,2009-06-16 In I Met God in Bermuda Steven Ogden shows how twenty first century faith is an open dynamic and courageous attitude toward life It presumes that God is found not in the sky but in the midst of life Daily Life of Women in Ancient Egypt Lisa K. The Metropolitan Magazine ,1834 **A People's History of Classics** Edith Hall,Henry Stead,2020-02-26 A People's History of Classics explores the influence of the classical past on the lives of working class people whose voices have been almost completely excluded from previous histories of classical scholarship and pedagogy in Britain and Ireland from the late 17th to the early 20th century This volume challenges the prevailing scholarly and public assumption that the intimate link between the exclusive intellectual culture of British elites and the study of the ancient Greeks and Romans and their languages meant that working class culture was a Classics Free Zone Making use of diverse sources of information both published and unpublished in archives museums and libraries across the United Kingdom and Ireland Hall and Stead examine the working class experience of classical culture from the Bill of Rights in 1689 to the outbreak of World War II They

analyse a huge volume of data from individuals groups regions and activities in a huge range of sources including memoirs autobiographies Trade Union collections poetry factory archives artefacts and documents in regional museums This allows a deeper understanding not only of the many examples of interaction with the Classics but also what these cultural interactions signified to the working poor from the promise of social advancement to propaganda exploited by the elites to covert and overt class war A People s History of Classics offers a fascinating and insightful exploration of the many and varied engagements with Greece and Rome among the working classes in Britain and Ireland and is a must read not only for classicists but also for students of British and Irish social intellectual and political history in this period Further it brings new historical depth and perspectives to public debates around the future of classical education and should be read by anyone with an interest in educational policy in Britain today *The Bible the People's Charter* Michael Thomas Sadler,1869

Understanding Community Librarianship Alistair Black,David Muddiman,2017-09-29 In the information society is the community focused library a real possibility This book reappraises the relationship between the library and its communities through an examination of the rise and decline of community librarianship over the last three decades The authors consider key models of community based library service and argue that bland assertions of community prevalence mask a complex and problematic relationship between a highly traditional public service bureaucracy and its users The resulting uncertainty of purpose they claim explains much of the current crisis of the public library movement Drawing on recent social science theory and empirical work in the field this book offers a new and critical perspective on the current public library debate It is essential reading for librarians students of information and library science and all who have a stake in the future of the public library As a case study of community public service and the local state it should also be of value to those with an interest in community development cultural policy and local government **The Saturday Review of Politics, Literature, Science and Art** ,1868 [Index-Catalogue of the Hulme Lending Branch.
