## **Metropolitan Philadelphia A Study Of Conflicts And Social Cleavages:**

**Metropolitan Philadelphia** Peter O. Muller, Kenneth C. Meyer, Roman A. Cybriwsky, 1976 African American Urban History since World War II Kenneth L. Kusmer, Joe W. Trotter, 2009-08-01 Historians have devoted surprisingly little attention to African American urban history of the postwar period especially compared with earlier decades Correcting this imbalance African American Urban History since World War II features an exciting mix of seasoned scholars and fresh new voices whose combined efforts provide the first comprehensive assessment of this important subject The first of this volume's five groundbreaking sections focuses on black migration and Latino immigration examining tensions and alliances that emerged between African Americans and other groups Exploring the challenges of residential segregation and deindustrialization later sections tackle such topics as the real estate industry's discriminatory practices the movement of middle class blacks to the suburbs and the influence of black urban activists on national employment and social welfare policies Another group of contributors examines these themes through the lens of gender chronicling deindustrialization's disproportionate impact on women and women's leading roles in movements for social change Concluding with a set of essays on black culture and consumption this volume fully realizes its goal of linking local transformations with the national and global processes that affect urban class and race relations

**Philadelphia Divided** James Wolfinger, 2011-02-01 In a detailed study of life and politics in Philadelphia between the 1930s and the 1950s James Wolfinger demonstrates how racial tensions in working class neighborhoods and job sites shaped the contours of mid twentieth century liberal and conservative politics As racial divisions fractured the working class he argues Republican leaders exploited these racial fissures to reposition their party as the champion of ordinary white citizens besieged by black demands and overwhelmed by liberal government orders By analyzing Philadelphia's workplaces and neighborhoods Wolfinger shows the ways in which politics played out on the personal level People's experiences in their jobs and homes he argues fundamentally shaped how they thought about the crucial political issues of the day including the New Deal and its relationship to the American people the meaning of World War II in a country with an imperfect democracy and the growth of the suburbs in the 1950s As Wolfinger demonstrates internal fractures in New Deal liberalism the roots of modern conservatism and the politics of race were all deeply intertwined Their interplay highlights how the Republican Party reinvented itself in the mid twentieth century by using race based politics to destroy the Democrats fledgling multiracial alliance while simultaneously building a coalition of its own

uses By examining the complex interactions among economic decline federal regulations local politics and shifting ethnic demographics she not only dissects what went wrong in Philadelphia but also identifies lessons for environmental justice activism today Sicotte s research tallies both the environmental and social costs of industrial pollution exposing the devastation that occurs when mass quantities of society s wastes mix with toxic levels of systemic racism and economic inequality From Workshop to Waste Magnet is a compelling read for anyone concerned with the health of America s cities and the people who live in them *Housing and Planning References* ,1977 Separate Destinations James G. Gimpel,2010-05-25 Natives who change residence do not settle in the same places as immigrants Separate Destinations argues that these distinct mobility patterns coupled with record levels of immigration from impoverished third world nations are balkanizing the American electorate James G Gimpel examines the consequences of different patterns of movement and settlement on the politics of the communities in which these different groups settle Newer immigrants are con strained by a lack of education money English literacy and information and frequently by discrimination to live in areas of coethnic settlement Domestic native born migrants predominantly Caucasian free of discrimination and possessing more money and information move where they wish often to communities where immigrants are not welcome or cannot afford to live Strong evidence suggests that spatially isolated immigrants are slower to naturalize and get involved in politics than domestic migrants Gimpel looks closely at states with very different patterns of migration and immigration California Colorado Kansas Kentucky Florida Pennsylvania and New York In these states Gimpel shows the impact of population mobility on party registration party votes and voter turnout and asks whether population changes have changed the dominant party in a state or produced a political reaction from natives Separate Destinations contains a number of thematic maps detailing the settlement patterns of internal migrants and immigrants for both counties and census tracts Blending insights from a number of social science disciplines including economics demography sociology political science and anthropology this book will be of interest to a wide and diverse readership of scholars students and policymakers James G Gimpel is Associate Professor of Government University of Maryland *Cities of the Mind* Lloyd Rodwin,Robert M.
