Van Tuerenhout, 2005-06-21 How did a bedraggled band of nomads manage to evolve into a Mesoamerican superpower in such a brief time This volume looks at the essential elements in the Aztecs rise fall and enduring influence A wealth of new archaeological findings and interpretations has sparked a richer understanding of the Aztecs dispelling many myths *The Aztecs New Perspectives* looks at evidence from ancient colonial and modern times to present a contemporary well rounded portrait of this Mesoamerican culture Like no other volume it examines daily Aztec life both at and away from the seats of power revealing the Aztecs to be accomplished farmers astronomers mathematicians and poets as well as ruthless warriors and tireless builders of empire *The Aztecs* ranges from the mysterious origins of the Aztlan tribe to the glory years of empire and ultimate defeat But the story doesn't end there To present the most complete picture possible the author goes to the most fascinating source available the living ancestors who keep the Aztec language and many aspects of their ancient worldview alive There is no better volume for exploring the realities of Aztec life as it was and as it influences our world today *Fifth Sun* Camilla Townsend, 2019 *Fifth Sun* offers a comprehensive history of the Aztecs spanning the period before conquest to a century after the conquest based on rarely used Nahuatl language sources written by the indigenous people **El Códice mendocino: nuevas perspectivas** Jorge Gómez Tejada, Davide Domenici, Chiara Grazia, David Buti, Laura Cartechini, Francesca Rosi, Francesca Gabrieli, Virginia María Lladó-Buisán, Aldo Romani, Antonio Sgamelloti, Constanza Milani, B. C. Barker Benfield, Diana Magaloni, Mary E. Miller, Claudia Brittenham, Frances F. Berdan, Barbara E. Mundy, Daniela Bleichmar, Todd P. Olson, Carmen Fernández-Salvador, Joanne

Harwood, Lucien Sun, 2021-12-23 Conceptualizado como una contribución a la continua construcción de la identidad del C dice mendocino el presente volumen está organizado en torno a tres ejes el análisis material la interpretación textual y estilística y la recepción y transmisión del manuscrito Los estudios de Barker Benfield y MOLAB abren una ventana hacia el entendimiento objetivo de la materialidad del manuscrito El proceso de conservación y reencuadernamiento del Mendocino registrado por Barker Benfield ha disipado especulaciones en cuanto al método de construcción del manuscrito y sus posibles encuadernaciones previas permitiendo que conexiones antes aceptadas como la autoría de Francisco Gualpuyogualcal sean reexaminadas Asimismo el análisis llevado a cabo por el equipo de MOLAB liderado por Davide Domenici ha sacado del ámbito de la especulación la naturaleza de los pigmentos del manuscrito así como ha permitido que hipótesis interpretativas previamente articuladas al respecto del significado de pigmentos específicos y lo estricto de su aplicación en el tlacuillo sean refinadas y contenidas Si bien el color tiene significado para el tlacuilo este no está directa y necesariamente ligado a su materialidad A partir de estas observaciones se puede desarrollar una nueva generación de estudios interpretativos cuyas propuestas se basen en datos cada vez más ciertos acerca de la naturaleza material del Mendocino Los estudios interpretativos del manuscrito que ocupan el presente volumen representan una línea de investigación que al considerar al manuscrito desde la perspectiva compleja de la obra de arte bibliográfica y literaria complementa las lecturas antropológicas e históricas que se han hecho del Mendocino en estudios anteriores Así los ensayos de Diana Magaloni Daniela Bleichmar y Jorge Gómez Tejada editor del libro reconsideran el número y estilo de los artistas que crearon el manuscrito para entender tanto el proceso de creación del mismo como el lugar que este ocupa en el contexto artístico del virreinato temprano Las decisiones que estos artistas e intelectuales toman en el Mendocino lejos de insertarse en una relación binaria dominante dominado se presentan como una manifestación de los modos de pensar y ver el espacio y el tiempo en el mundo mesoamericano Las pinturas del Mendocino ejecutadas a manera de taller en donde uno dos o más individuos intervienen en una misma página para crear de manera sincronizada una sola composición tal como demuestra quien escribe toman visos de ritualidad y funcionan como instrumento para re-crear reactualizar y hacer coherente el devenir histórico ligado al territorio y los patrones cíclicos ver Capítulo 4 Esta última observación complementa y refuerza la lectura de la tercera sección del manuscrito propuesta por Joanne Harwood para quien independientemente de lo original de las soluciones visuales utilizadas para componer esta sección del manuscrito su modelo prehispánico se encuentra en un género de resonancia religiosa mesoamericana el teomoxtili

Visions of Paradise Robert Stephen Haskett, 2005 Cuernavaca often

called the Mexican Paradise or Land of Eternal Spring has a deep rich history Few visitors to this modern resort city near Mexico City would guess from its Spanish architecture and landmarks that it was governed by its Tlaluic residents until the early nineteenth century Formerly called Cuauhnahuac the city was renamed by the Spanish in the sixteenth century when Hernando Cort s built his stone palacio on its main square and thrust Cuernavaca into the colonial age In *Visions of Paradise* Robert Haskett presents a history of Cuernavaca basing his account on an important body of late seventeenth century historical records known as primordial titles written by still unknown members of the Native population Until comparatively recently these indigenous language documents have been dismissed as false or forged land records Haskett however uses these Nahuatl texts to present a colorful portrait of how the Tlaluicas of Cuernavaca and its environs made intellectual sense of their place in the colonial scheme conceived of their relationship to the sacred worlds of both their native religion and Christianity and defined their own history Surveying the local history of Cuernavaca from precontact observations by the Aztecs through postclassic times to the present with a concentration on early colonial times Haskett finds that the Native authors of the primordial titles crafted a celebratory history proclaiming themselves to be an enduringly autonomous essentially unconquered people who triumphed over the rigors of the Spanish colonial system *The Colors of the New World* Diana Magaloni Kerpel ,2014-07-01 In August 1576 in the midst of an outbreak of the plague the Spanish Franciscan friar Bernardino de Sahag n and twenty two indigenous artists locked themselves inside the school of Santa Cruz de Tlatelolco in Mexico City with a mission to create nothing less than the first illustrated encyclopedia of the New World Today this twelve volume manuscript is preserved in the Biblioteca Medicea Laurenziana in Florence and is widely known as the Florentine Codex A monumental achievement the Florentine Codex is the single most important artistic and historical document for studying the peoples and cultures of pre Hispanic and colonial Central Mexico It reflects both indigenous and Spanish traditions of writing and painting including parallel columns of text in Spanish and Nahuatl and more than two thousand watercolor illustrations prepared in European and Aztec pictorial styles This volume reveals the complex meanings inherent in the selection of the pigments used in the manuscript offering a fascinating look into a previously hidden symbolic language Drawing on cuttingedge approaches in art history anthropology and the material sciences the book sheds new light on one of the world s great manuscripts and on a pivotal moment in the early modern Americas *The Lords of Tetzco* Bradley Benton,2017-05-02 Tetzco was one of the most important cities of the pre Hispanic Aztec Empire When the Spaniards arrived in 1519 the indigenous hereditary nobles that governed Tetzco faced both opportunities and challenges and were forced to adapt from the very moment of contact This book examines how the city s nobility navigated this tumultuous period of conquest and colonialism and negotiated a place for themselves under Spanish rule While Tetzco s native nobles experienced a remarkable degree of continuity with the pre contact period especially in the first few decades after conquest various forces and issues such as changing access to economic resources interethnic marriage and intra

familial conflict transformed Tetzco's ruling family into colonial subjects by the century's end Zumarraga and the Mexican Inquisition, 1536-1543 Richard E. Greenleaf, 2018-12-01 The purpose of this study is to investigate the inquisitorial activities of Don Fray Juan de Zumarraga first Bishop and Archbishop of Mexico 1528-1548 Zumarraga served as Apostolic Inquisitor in the bishopric of Mexico from 1536 to 1542 when he was superseded in that office by the Visitor General Francisco Tello de Sandoval largely because he had relaxed Don Carlos the cacique of Texcoco to the secular arm for burning an act regarded as rash by the authorities in Spain Throughout this essay an attempt is made to relate the Inquisition to the political and intellectual life of early sixteenth century Mexico Zumarraga is pictured as the defender of orthodoxy and the stabilizer of the spiritual conquest in Mexico The relationship of the individual and of society collectively with the Holy Office of the Inquisition is stressed With the exception of background materials this study is based entirely upon primary sources trial records which for the most part have lain unstudied since the sixteenth century In all two years of research in the Ramo de la Inquisición of the Archivo General de la Nación in Mexico City were consumed in ferreting out these materials Subsidiary investigations in other sections of the Mexican archives were made in order to place the Inquisition materials in their proper perspective Richard E Greenleaf *Materia Americana* Gabriela Siracusano, Agustina Rodríguez Romero, 2025-05-02 The studies on American artistic production in viceregal times have revolved since their beginnings around the problem of style meaning or attribution among others In recent years hand in hand with a look more attentive to social and cultural issues and to interdisciplinary intersections an inquiry into the materiality of these objects has appeared as unavoidable In this sense *Materia Americana* is a book that for the first time brings together the research of leading art historians chemists physicists curators and museologists concerned with Spanish American art and purports to become a reference book for future works on the subject **The Woman Who Turned Into a Jaguar, and Other Narratives of Native Women in Archives of Colonial Mexico** Lisa Sousa, 2017-01-11 This book is an ambitious and wide ranging social and cultural history of gender relations among indigenous peoples of New Spain from the Spanish conquest through the first half of the eighteenth century In this expansive account Lisa Sousa focuses on four native groups in highland Mexico the Nahuatl Mixtec Zapotec and Mixe and traces cross cultural similarities and differences in the roles and status attributed to women in prehispanic and colonial Mesoamerica Sousa intricately renders the full complexity of women's life experiences in the household and community from the significance of their names age and social standing to their identities ethnicities family dress work roles sexuality acts of resistance and relationships with men and other women Drawing on a rich collection of archival textual and pictorial sources she traces the shifts in women's economic political and social standing to evaluate the influence of Spanish ideologies on native attitudes and practices around sex and gender in the first several generations after contact Though catastrophic depopulation economic pressures and the imposition of Christianity slowly eroded indigenous women's status following the Spanish conquest Sousa argues that gender relations nevertheless remained more

complementary than patriarchal with women maintaining a unique position across the first two centuries of colonial rule
