Photographing the Mexican Revolution John Mraz, 2012-04-18 The Mexican Revolution of 1910 1920 is among the world s most visually documented revolutions Coinciding with the birth of filmmaking and the increased mobility offered by the reflex camera it received extraordinary coverage by photographers and cineastes commercial and amateur national and international Many images of the Revolution remain iconic to this day Francisco Villa galloping toward the camera Villa lolling in the presidential chair next to Emiliano

Zapata and Zapata standing stolidly in charro raiment with a carbine in one hand and the other hand on a sword to mention only a few But the identities of those who created the thousands of extant images of the Mexican Revolution and what their purposes were remain a huge puzzle because photographers constantly plagiarized each other's images In this pathfinding book acclaimed photography historian John Mraz carries out a monumental analysis of photographs produced during the Mexican Revolution focusing primarily on those made by Mexicans in order to discover who took the images and why to what ends with what intentions and for whom He explores how photographers expressed their commitments visually what aesthetic strategies they employed and which identifications and identities they forged Mraz demonstrates that contrary to the myth that Agustín Víctor Casasola was the photographer of the Revolution there were many who covered the long civil war including women He shows that specific photographers can even be linked to the contending forces and reveals a pattern of commitment that has been little commented upon in previous studies and completely unexplored in the photography of other revolutions

Bunuel and Mexico Ernesto R. Acevedo-Muñoz, 2025-03-18 Though Luis Buñuel one of the most important filmmakers of the twentieth century spent his most productive years as a director in Mexico film histories and criticism invariably pay little attention to his work during this period The only book length English language study of Buñuel's Mexican films this book is the first to explore a significant but neglected area of this filmmaker's distinguished career and thus to fill a gap in our appreciation and understanding of both Buñuel's achievement and the history of Mexican film Ernesto Acevedo Muñoz considers Buñuel's Mexican films made between 1947 and 1965 within the context of a national and nationalist film industry comparing the filmmaker's employment of styles genres character types themes and techniques to those most characteristic of Mexican cinema In this study Buñuel's films emerge as a link between the Classical Mexican cinema of the 1930s through the 1950s and the new Cinema of the 1960s flourishing in a time of crisis for the national film industry and introducing some of the stylistic and conceptual changes that would revitalize Mexican cinema

Responding to Crisis in Contemporary Mexico Claire Brewster, 2022-08-23 Regarded as among modern Mexico's foremost creative writers

Octavio Paz Carlos Fuentes Carlos Monsivís and Elena Poniatowska are also esteemed as analyzers of society critics of public officials and both molders and mirrors of public opinion This book offers a reading of Mexican current affairs from 1968 to 1995 through a comparative study of these four writers political work In hundreds of articles essays and comments published in the Mexican press *Excelsior* *La Cultura en México* *La Jornada* *Proceso* and many other publications these writers tackled current affairs as events unfolded Yet the lack of detailed examination of their contributions in the press has left a gap in our understanding of their vital role in raising awareness of national concerns as they were happening Claire Brewster has mined direct quotations from a host of publications to illustrate the techniques that they used in combating government and editorial restraints Brewster first addresses the Student Movement of 1968 the violent suppression of which was a watershed in the relationship between the Mexican government and people and illustrates the ways in which the student crisis affected the writers relationships with presidents Luis Echeverría Álvarez and José López Portillo She next considers the profound social and political repercussions of the 1985 earthquake as described by Poniatowska and Monsivís and the consequent emergence of Mexican civil society She then outlines Paz's and Monsivís's vociferous responses to the 1988 presidential election campaigns and their highly contentious result and lastly she examines the Chiapas rebellion from January to July 1994 The eloquent Zapatista spokesman Subcomandante Marcos challenged Mexican writers to a duel of words and Brewster analyzes the ways in which the four writers took up the gauntlet and in so doing reveals the development of their political thoughts and their relationships with the Mexican people and the federal government The work of these four authors charts an important historical era and a close examination of their essays reveals their maturation as writers and provides an understanding of the development of Mexican society By bringing their opinions and attitudes to light Brewster unearths a rich lode of insight into the inner workings of Mexican intellectuals and invites observers of contemporary Mexico to reconsider their role in reflecting social change

Religious Culture in Modern Mexico Martin Austin Nesvig, 2007 This nuanced book considers the role of religion and religiosity in modern Mexico breaking new ground with an emphasis on popular religion and its relationship to politics The contributors highlight the multifaceted role of religion illuminating the ways that religion and religious devotion have persisted and changed since Mexican independence They explore such themes as the relationship between church and state the resurgence of religiosity and religious societies in the post reform period the religious values of the liberals of the 1850s and the ways that popular expressions of religion often trumped formal and universal proscriptions Focusing on individual stories and vignettes and on local elements of religion the contributors show that despite efforts to secularize society religion continues to be a strong component of Mexican culture Portraying the complexity of religiosity in Mexico in the context of an increasingly secular state this book will be invaluable for all those interested in Latin American history and religion Contributions by Silvia Marina Arrom Adrian Bantjes Alejandro Cortés Jason Dormady Martin Austin Nesvig Matthew D O'Hara Daniela Traffano Paul J Vanderwood
