Philip Russell

Mexico And The United States Ambivalent Vistas The United States And The Americas Series:

Mexico and the United States William Dirk Raat, 2004 NAFTA the collapse of the peso the Zapatista rebellion in Chiapas and heightened attention to illegal immigration and the drug trade are just some of the recent issues that are newly interpreted in this updated survey of U S Mexican relations Ranging from the precontact colonial eras of each country to the present day administrations of Vicente Fox and George W Bush W Dirk Raat s coverage focuses on the economic cultural and political trends and events that have regarded each other over the centuries Raat pays special attention to the factors that have subordinated Mexico not only to the Colossus of the North but to many other players in the global market He also offers a unique look at the cultural dynamics of Gran Chichimeca or Mexamerica the borderlands where the two countries share a common history

America and the Americas Lester D. Langley, 2010-04-15 In this completely revised and updated edition of *America and the Americas* Lester D Langley covers the long period from the colonial era into the twenty first century providing an interpretive introduction to the history of U S relations with Latin America the Caribbean and Canada Langley draws on the other books in the series to provide a more richly detailed and informed account of the role and place of the United States in the hemisphere In the process he explains how the United States in appropriating the values and symbolism identified with America has attained a special place in the minds and estimation of other hemispheric peoples Discussing the formal structures and diplomatic postures underlying U S policy making Langley examines the political economic and cultural currents that often have frustrated inter American progress and accord Most important the greater attention given to U S relations with Canada in this edition provides a broader and deeper understanding of the often controversial role of the nation in the hemisphere and particularly in North America Commencing with the French British struggle for supremacy in North America in the French and Indian War Langley frames the story of the American experience in the Western Hemisphere through four distinct eras In the first era from the 1760s to the 1860s the fundamental character of U S policy in the hemisphere and American values about other nations and peoples of the Americas took form In the second era from the 1870s to the 1930s the United States fashioned a continental and then a Caribbean empire From the mid 1930s to the early 1960s the paramount issues of the inter American experience related to the global crisis In the final part of the book Langley details the efforts of the United States to carry out its political and economic agenda in the hemisphere from the early 1960s to the onset of the twenty first century only to be frustrated by governments determined to follow an independent course Over more than 250 years of encounter however the peoples of the Americas have created human bonds and cultural exchanges that stand in sharp contrast to the formal and often conflictive hemisphere crafted by governments

The Americas in the Modern Age Lester D. Langley, 2003-01-01 In this wide ranging book historian Lester D Langley offers a fresh interpretation of the history of the modern Western hemisphere since the mid nineteenth century He evaluates the dynamics of hemispheric history commencing with the articulation of the two Americas Theodore Roosevelt s America and

the contrasting America described by Cuban revolutionary essayist and poet Jos Mart and culminating with recent controversial efforts to forge a united hemisphere Tracing the interactions and influences among the nations of South Central and North America including Canada Langley departs from other accounts of the past 150 years He argues that the seedtime for today s Americas was not the Cold War but the late nineteenth and early twentieth centuries He also contends that it is not what the countries and people of the Americas have in common that binds them instead their cultural political and economic conflicts tie them together Comprehensive and balanced this history of the nations of the Americas offers new insights into both the past and the future of inter American relations

Mexico and the United States William Dirk Raat, Michael M. Brescia, 2010-04-15 Drug wars NAFTA presidential politics and heightened attention to Mexican immigration are just some of the recent issues that are freshly interpreted in this updated survey of Mexican U S relations The fourth edition has been completely revised and offers a lively engaging and up to date analysis of historical patterns of change and continuity as well as contemporary issues Ranging from Mexican antiquity and the arrival of the Spanish and British to the present day administrations of Felipe Caldern and Barack Obama historians Dirk Raat and Michael Brescia evaluate the political economic and cultural trends and events that have shaped the ways that Mexicans and Americans have regarded each other over the centuries Raat and Brescia pay special attention to the factors that have subordinated Mexico not only to the colossus of the North but to many other players in the global economy They also provide a unique look at the cultural dynamics of Gran Chichimeca or Mexamerica the borderlands where the two countries share a common history The bibliographical essay has been revised to reflect current research and scholarship

America in the World Michael J. Hogan, 1995 A survey of the historical literature on intelligence and national security during the Cold War

Crucible of Power Howard Jones, 2009 Employing a narrative approach that uncovers the tangled and often confusing nature of foreign affairs Crucible of Power focuses on the personalities security interests and post war Cold War tendencies behind the formulation and implementation of U S foreign policy since 1945 The book includes updated coverage of the Bush administration s foreign policy with particular emphasis on the Middle East Selections from key foreign policy documents appear in each chapter

The Third Century Mark T. Gilderhus, David C. LaFevor, Michael J. LaRosa, 2017-01-05 This text focuses on U S relations with Latin America from the advent of the New Diplomacy late in the nineteenth century to the present Providing a balanced perspective it presents both the United States view that the Western Hemisphere needed to unite under a common democratic capitalistic society and the Latin American countries response to U S attempts to impose these goals on its southern neighbors The authors examine the reciprocal interactions between the two regions each with distinctive purposes outlooks interests and cultures They also place U S Latin American relations within the larger global political and economic context

Two Nations Indivisible Shannon K. O'Neil, 2013-04-01 Five freshly decapitated human heads are thrown onto a crowded dance floor in western Mexico A Mexican drug cartel dismembers the body of a rival and

then stitches his face onto a soccer ball These are the sorts of grisly tales that dominate the media infiltrate movies and TV shows and ultimately shape Americans perception of Mexico as a dangerous and scary place overrun by brutal drug lords Without a doubt the drug war is real In the last six years over 60 000 people have been murdered in narco related crimes But there is far more to Mexico s story than this gruesome narrative would suggest While thugs have been grabbing the headlines Mexico has undergone an unprecedented and under publicized political economic and social transformation In her groundbreaking book *Two Nations Indivisible* Shannon K O Neil argues that the United States is making a grave mistake by focusing on the politics of antagonism toward Mexico Rather we should wake up to the revolution of prosperity now unfolding there The news that isn t being reported is that over the last decade Mexico has become a real democracy providing its citizens a greater voice and opportunities to succeed on their own side of the border Armed with higher levels of education upwardly mobile men and women have been working their way out of poverty building the largest most stable middle class in Mexico s history This is the Mexico Americans need to get to know Now more than ever the two countries are indivisible It is past time for the U S to forge a new relationship with its southern neighbor Because in no uncertain terms our future depends on it

The Rebel Scribe Christopher Neal, 2022-01-27 Carleton Beals was among America s most distinctive foreign correspondents His colorful combatively critical reporting of U S intervention in Latin America had a fearless energy and authority that won him millions of readers He interviewed the Nicaraguan rebel leader Sandino in the camp from which he fought thousands of U S marines in 1928 covered two revolutions in Cuba 1933 and 1959 and interpreted the Mexican Revolution for American readers Beals s dispatches and features appeared regularly in the *Nation* *New Republic* *Current History* and the *Progressive* and often in the *New York Times* *Time* magazine called him the best informed and the most awkward living writer on Latin America Forty books including chronicles political analysis and novels drawn mostly from his travels and wide ranging contacts in what he called *America South* made that characterization apt But Beals was also an eyewitness reporter on Mussolini s rise in Italy He wrote on U S topics too such as Louisiana s Huey Long and the environmental damage and rural migration in the 1930s caused by emerging agri business in America s South and West Many of his books were best sellers their evidence based assessments earning at least grudging respect even among those who took issue with his indictments of U S economic and government elites At once biography and analytical history *The Rebel Scribe* tells the story of a fiercely independent non conformist It probes Beals s interactions with political leaders democrats demagogues populists and revolutionaries and reveals how his ability to immerse himself in their societies gave his accounts a palpable authenticity and time has shown a prescience that is almost prophetic Christopher Neal s layered narrative traces how Beals identified patterns of political behavior and concepts that later became fully fledged schools of thought such as the idea of a Third World dependency theory U S neo imperialism and aspects of critical theory His story sheds light on the evolution of U S foreign policy and intervention from Mexico and Nicaragua in the 1920s to Cuba and

Vietnam in the 1960s It reveals the fraught trail that faced and still faces contrarian journalists who challenge conventional assumptions while also showing how probing journalism drives change *The History of Mexico* Philip Russell, 2011-04-06

The History of Mexico From Pre Conquest to Present traces the last 500 years of Mexican history from the indigenous empires that were devastated by the Spanish conquest through the election of 2006 and its aftermath The book offers a straightforward chronological survey of Mexican history from the pre colonial times to the present and includes a glossary as well as numerous tables and images for comprehensive study For additional information and classroom resources please visit The History of Mexico companion website at www.routledge.com/textbooks/russell *The Second Century* Mark T. Gilderhus, 2000 The Second Century U S Latin American Relations since 1889 focuses on U S relations with Latin America during the second century a period bounded by the advent of the New Diplomacy late in the nineteenth century and the end of the Cold War about one hundred years later This text provides a balanced perspective as it presents both the United States s view that the Western Hemisphere needed to unite under a common democratic capitalistic society and the Latin American countries response to U S attempts to impose these goals on their southern neighbors This book examines the reciprocal interactions between the two regions each with distinctive purposes outlooks interests and cultures It also places U S Latin American relations within the larger context of global politics and economics The Second Century is an excellent text for courses in Latin American history and diplomatic history **Mexico-United States Relations** Arturo Santa-Cruz, 2012-09-10 Sovereignty is a key factor to consider when studying the Mexico United States relationship During most of the twentieth century as a result of the new character of the Mexican post revolutionary regime there was a decoupling between the state s maximalist discourse on sovereignty and its practice Sovereignty as an undifferentiated whole does not exist it should instead be disaggregated into the myriad issue areas in which it is constantly negotiated Focusing on a tripartite classification relating to the construction of Mexico s sovereignty towards its northern neighbor since 1920 this volume illustrates how Mexico s sovereignty has varied not only according to the times but also according to the issues at stake In doing so Arturo Santa Cruz comprehensively covers a variety of issues in the bilateral agenda such as drug trafficking electoral observation human rights investment migration security and trade as well as some defining moments in the relationship such as the 1923 US granting of recognition to the Mexican post revolutionary regime the 1938 oil nationalization the 1982 debt crisis and the 1995 financial bailout These diverse cases analyzed through an original analytical approach capture sovereignty s multifocal meaning [Selected Papers from the 1992 \(59th Annual\) Meeting of the Society for Military History Hosted by the Command and Staff College of the Marine Corps University](#) Society for Military History (U.S.). Meeting, 1994 **The Encyclopedia of the Mexican-American War** Spencer C. Tucker, 2012-10-09 This user friendly encyclopedia comprises a wide array of accessible yet detailed entries that address the military social political cultural and economic aspects of the Mexican American War The Encyclopedia of the Mexican American War A Political

Social and Military History provides an in depth examination of not only the military conflict itself but also the impact of the war on both nations and how this conflict was the first waged by Americans on foreign soil and served to establish critical U S military political and foreign policy precedents The entries analyze the Mexican American War from both the American and Mexican perspectives in equal measure In addition to discussing the various campaigns battles weapons systems and other aspects of military history the three volume work also contextualizes the conflict within its social cultural political and economic milieu and places the Mexican American War into its proper historical and historiographical contexts by covering the eras both before and after the war This information is particularly critical for students of American history because the conflict fomented sectional conflict in the United States which resulted in the U S Civil War

Claiming Rights and Righting Wrongs in Texas Emilio Zamora,2009 For Mexican workers on the American home front during World War II unprecedented new employment opportunities contrasted sharply with continuing discrimination inequality and hardship

Exceptionalism in Crisis Alys D. Beverton,2025-04-04 Before 1861 US Americans could confidently claim to belong to the New World s exceptional republic unlike other self governing nations in the Western Hemisphere such as Mexico which struggled with political violence and unrest Americans used such comparisons to show themselves and the world that democracy in the United States was working as designed The outbreak of the Civil War in 1861 exploded this illusion by showing that the United States was in fact not immune to domestic political instability Joining a growing community of historians who study the war in a global context Alys D Beverton examines Mexico s place in the US imagination during the Civil War and postbellum period Beverton reveals how pro and antiwar Confederates and Unionists alike used Mexico s long history of political strife to alternately justify and oppose the Civil War and after 1865 various policies aimed at reuniting the states Both sides used Mexico as a cautionary tale of how easily a nation even the so called exceptional United States could slip into anarchy in the tumultuous nineteenth century

The Pacific Basin since 1945 Roger C. Thompson,2014-09-25 The nations of the Pacific Basin in East and Southeast Asia Australasia the Pacific islands and the Americas make up the world s largest economic zone and its most culturally diverse region In recent years its Asian Tiger Economies have suffered economic collapse and unfinished business from the Cold War has produced continuing conflict and instability The new edition of this pioneering book traces the postwar inter relationships of all the rim and island nations It gives a unique impression of the make up of the region and the tensions within it The book integrates a wide range of information from books and articles from published and unpublished sources including recently opened Russian and American archives and from the first hand experiences of participants including those of the author in Pacific Basin affairs Vigorously written and strongly argued no other account brings together all the threads of the development of international relations in this complex and fascinating region

The Long American Revolution and Its Legacy Lester D. Langley,2019-10-01 This book brings together Lester D Langley s personal and professional link to the long American Revolution in a narrative that spans more

than 150 years and places the Revolution in multiple contexts from the local to the transatlantic and hemispheric and from racial and gendered to political social economic and cultural perspectives It offers a reminder that we are an old republic but a young nation and shows how an awareness of that dynamic is critical to understanding our current political cultural and social malaise The United States of America is still a work in progress A descendant on his father s side from a long line of Kentuckians Langley grew up torn between a father who embodied the idea of the Revolution s poor white male driven by economic self interest and racial prejudices and a devoted and pious mother who saw life and history as a morality play The author s intellectual and professional encounter with the American Revolution came in the 1960s as a young historian specializing in U S foreign relations and Latin American history an era when the U S encounter with the revolution in Cuba and with the civil rights movement at home served as a reminder of the lasting and troublesome legacy of a long American Revolution In a sweeping account that incorporates both the traditional iconic literature on the Revolution and more recent works in U S Canadian Latin American Caribbean and Atlantic world history Langley addresses fundamental questions about the Revolution s meaning continuing relevance and far reaching legacy

A Companion to Franklin D. Roosevelt

William D. Pederson, 2011-03-21 A Companion to Franklin D Roosevelt presents a collection of historiographical essays by leading scholars that provides a comprehensive review of the scholarship on the president who led the United States through the tumultuous period from the Great Depression to the waning days of World War II Represents a state of the art assessment of current scholarship on FDR the only president elected to four terms of office and the central figure in key events of the first half of the 20th century Covers all aspects of FDR s life and times from his health relationships and Supreme Court packing to New Deal policies institutional issues and international relations Features 35 essays by leading FDR scholars

Redeeming La Raza Gabriela González, 2018-06-15 The transborder modernization of Mexico and the American Southwest during the late nineteenth and early twentieth centuries transformed the lives of ethnic Mexicans across the political divide While industrialization urbanization technology privatization and wealth concentration benefitted some many more experienced dislocation exploitative work relations and discrimination based on race gender and class The Mexican Revolution brought these issues to the fore within Mexican society igniting a diaspora to el norte Within the United States similar economic and social power dynamics plagued Tejanos and awaited the war refugees Political activism spearheaded by individuals and organizations such as the Idars Leonor Villegas de Magn n s White Cross the Magonista movement the Munguias Emma Tenayuca and LULAC emerged in the borderlands to address the needs of ethnic Mexicans whose lives were shaped by racism patriarchy and poverty As Gabriela Gonzalez shows in this book economic modernization relied on social hierarchies that were used to justify economic inequities Redeeming la raza was about saving ethnic Mexicans in Texas from a social hierarchy premised on false notions of white supremacy and Mexican inferiority Activists used privileges of class education networks and organizational skills to confront the many injustices that racism bred but

they used different strategies. Thus the anarcho syndicalist approach of Mag nistas stands in contrast to the social and cultural redemption politics of the Idars who used the press to challenge a Jaime Crow world. Also the family promoted the intellectual material and cultural uplift of la raza working to combat negative stereotypes of ethnic Mexicans. Similar contrasts can be drawn between the labor activism of Emma Tenayuca and the Munguias whose struggle for rights employed a politics of respectability that encouraged ethnic pride and unity. Finally maternal feminist approaches and the politics of citizenship serve as reminders that gendered and nationalist rhetoric and practices foment hierarchies within civil and human rights organizations. Redeeming La Raza examines efforts of activists to create a dignified place for ethnic Mexicans in American society by challenging white supremacy and the segregated world it spawned.

Mexico And The United States Ambivalent Vistas The United States And The Americas Series Book Review: Unveiling the Magic of Language
