Mexico And The United States Ambivalent Vistas

Gregory B. Weeks, Michael E. Allison

Mexico And The United States Ambivalent Vistas:

Mexico and the United States William Dirk Raat,2004 NAFTA the collapse of the peso the Zapatista rebellion in Chiapas and heightened attention to illegal immigration and the drug trade are just some of the recent issues that are newly interpreted in this updated survey of U S Mexican relations Ranging from the precontact colonial eras of each country to the present day administrations of Vicente Fox and George W Bush W Dirk Raat s coverage focuses on the economic cultural and political trends and events that have regarded each other over the centuries Raat pays special attention to the factors that have subordinated Mexico not only to the Colossus of the North but to many other players in the global market He also offers a unique look at the cultural dynamics of Gran Chichimeca or Mexamerica the borderlands where the two countries share a common history

Mexico and the United States William Dirk Raat,Michael M. Brescia,2010-04-15 Drug wars NAFTA presidential politics and heightened attention to Mexican immigration are just some of the recent issues that are freshly interpreted in this updated survey of Mexican U S relations The fourth edition has been completely revised and offers a lively engaging and up to date analysis of historical patterns of change and continuity as well as contemporary issues Ranging from Mexican antiquity and the arrival of the Spanish and British to the present day administrations of Felipe Caldern and Barack Obama historians Dirk Raat and Michael Brescia evaluate the political economic and cultural trends and events that have shaped the ways that Mexicans and Americans have regarded each other over the centuries Raat and Brescia pay special attention to the factors that have subordinated Mexico not only to the colossus of the North but to many other players in the global economy They also provide a unique look at the cultural dynamics of Gran Chichimeca or Mexamerica the borderlands where the two countries share a common history The bibliographical essay has been revised to reflect current research and scholarship

Mexico-United States Relations Arturo Santa-Cruz,2012-09-10 Sovereignty is a key factor to consider when studying the Mexico United States relationship During most of the twentieth century as a result of the new character of the Mexican post revolutionary regime there was a decoupling between the state s maximalist discourse on sovereignty and its practice Sovereignty as an undifferentiated whole does not exist it should instead be disaggregated into the myriad issue areas in which it is constantly negotiated Focusing on a tripartite classification relating to the construction of Mexico s sovereignty towards its northern neighbor since 1920 this volume illustrates how Mexico s sovereignty has varied not only according to the times but also according to the issues at stake In doing so Arturo Santa Cruz comprehensively covers a variety of issues in the bilateral agenda such as drug trafficking electoral observation human rights investment migration security and trade as well as some defining moments in the relationship such as the 1923 US granting of recognition to the Mexican post revolutionary regime the 1938 oil nationalization the 1982 debt crisis and the 1995 financial bailout These diverse cases analyzed through an original analytical approach capture sovereignty s multifocal meaning

America and the Americas Lester D. Langley,2010-04-15 In this completely revised and updated edition of *America and the Americas* Lester D

Langley covers the long period from the colonial era into the twenty first century providing an interpretive introduction to the history of U S relations with Latin America the Caribbean and Canada Langley draws on the other books in the series to provide a more richly detailed and informed account of the role and place of the United States in the hemisphere In the process he explains how the United States in appropriating the values and symbolism identified with America has attained a special place in the minds and estimation of other hemispheric peoples Discussing the formal structures and diplomatic postures underlying U S policy making Langley examines the political economic and cultural currents that often have frustrated inter American progress and accord Most important the greater attention given to U S relations with Canada in this edition provides a broader and deeper understanding of the often controversial role of the nation in the hemisphere and particularly in North America Commencing with the French British struggle for supremacy in North America in the French and Indian War Langley frames the story of the American experience in the Western Hemisphere through four distinct eras In the first era from the 1760s to the 1860s the fundamental character of U S policy in the hemisphere and American values about other nations and peoples of the Americas took form In the second era from the 1870s to the 1930s the United States fashioned a continental and then a Caribbean empire From the mid 1930s to the early 1960s the paramount issues of the inter American experience related to the global crisis In the final part of the book Langley details the efforts of the United States to carry out its political and economic agenda in the hemisphere from the early 1960s to the onset of the twenty first century only to be frustrated by governments determined to follow an independent course Over more than 250 years of encounter however the peoples of the Americas have created human bonds and cultural exchanges that stand in sharp contrast to the formal and often conflictive hemisphere crafted by governments

Two Nations Indivisible Shannon K. O'Neil, 2013-03-18 Five freshly decapitated human heads are thrown onto a crowded dance floor in western Mexico A Mexican drug cartel dismembers the body of a rival and then stitches his face onto a soccer ball These are the sorts of grisly tales that dominate the media infiltrate movies and TV shows and ultimately shape Americans perception of Mexico as a dangerous and scary place overrun by brutal drug lords Without a doubt the drug war is real In the last six years over 60 000 people have been murdered in narco related crimes But there is far more to Mexico s story than this gruesome narrative would suggest While thugs have been grabbing the headlines Mexico has undergone an unprecedented and under publicized political economic and social transformation In her groundbreaking book *Two Nations Indivisible* Shannon K O Neil argues that the United States is making a grave mistake by focusing on the politics of antagonism toward Mexico Rather we should wake up to the revolution of prosperity now unfolding there The news that isn t being reported is that over the last decade Mexico has become a real democracy providing its citizens a greater voice and opportunities to succeed on their own side of the border Armed with higher levels of education upwardly mobile men and women have been working their way out of poverty building the largest most stable middle class in Mexico s history This is the Mexico Americans need to get to know

Now more than ever the two countries are indivisible It is past time for the U S to forge a new relationship with its southern neighbor Because in no uncertain terms our future depends on it **North America** Michael M. Brescia, John C. Super, 2009-01-01 This exquisitely written history of a complex but unstudied continent should be required reading for all residents of the emerging region of North America Robert A Pastor Professor and Director of the Center for North American Studies American University **The Encyclopedia of the Cold War** Spencer C. Tucker, 2007-09-12 A comprehensive five volume reference on the defining conflict of the second half of the 20th century covering all aspects of the Cold War as it influenced events around the world The conflict that dominated world events for nearly five decades is now captured in a multivolume work of unprecedented magnitude from a publisher widely acclaimed for its authoritative military and historical references Under the direction of internationally known military historian Spencer Tucker ABC CLIO s The Encyclopedia of the Cold War A Political Social and Military History offers the most current and comprehensive treatment ever published of the ideological conflict that not so long ago enveloped the globe From the Second World War to the collapse of the Soviet Union The Encyclopedia of the Cold War provides authoritative information on all military conflicts battlefield and surveillance technologies diplomatic initiatives important individuals and organizations national histories economic developments societal and cultural events and more The nearly 1 300 entries plus topical essays and an extraordinarily rich documents volume draw heavily on recently opened Russian Eastern European and Chinese archives The work is a definitive cornerstone reference on one of the most important historical topics of our time **Mexico** Jaime Suchlicki, 2008 An updated edition of the classic survey of Mexico and its history **Handbook of Latin American Studies** Dolores Moyano Martin, P. Sue Mundell, 1997-12-01 Beginning with volume 41 1979 the University of Texas Press became the publisher of the Handbook of Latin American Studies the most comprehensive annual bibliography in the field Compiled by the Hispanic Division of the Library of Congress and annotated by a corps of more than 130 specialists in various disciplines the Handbook alternates from year to year between social sciences and humanities The Handbook annotates works on Mexico Central America the Caribbean and the Guianas Spanish South America and Brazil as well as materials covering Latin America as a whole Most of the subsections are preceded by introductory essays that serve as biannual evaluations of the literature and research underway in specialized areas The Handbook of Latin American Studies is the oldest continuing reference work in the field Dolores Moyano Martin of the Library of Congress Hispanic Division has been the editor since 1977 and P Sue Mundell has been assistant editor since 1994 The subject categories for Volume 55 are as follows Anthropology including Archaeology and Ethnology Economics Electronic Resources for the Social Sciences Geography Government and Politics International Relations Sociology Exceptionalism in Crisis Alys D. Beverton, 2025-04-04 Before 1861 US Americans could confidently claim to belong to the New World s exceptional republic unlike other self governing nations in the Western Hemisphere such as Mexico which struggled with political violence and unrest Americans used such comparisons to show

themselves and the world that democracy in the United States was working as designed The outbreak of the Civil War in 1861 exploded this illusion by showing that the United States was in fact not immune to domestic political instability Joining a growing community of historians who study the war in a global context Alys D Beverton examines Mexico's place in the US imagination during the Civil War and postbellum period Beverton reveals how pro and antiwar Confederates and Unionists alike used Mexico's long history of political strife to alternately justify and oppose the Civil War and after 1865 various policies aimed at reuniting the states Both sides used Mexico as a cautionary tale of how easily a nation even the so called exceptional United States could slip into anarchy in the tumultuous nineteenth century Mexicans at Arms Pedro Santi,1996 The decades that followed independence from Spain in 1821 transformed Mexico from a strong stable colony to a republic suffering from economic decline political turmoil regional divisions and class hatred This chaotic state hindered efforts of the young republic to meet the aggressive expansionism of the United States between 1845 and 1848 Pedro Santi sheds new light on Mexican political history during the conflict a much neglected subject through a comprehensive examination of the only Mexican political bloc that wanted war with the United States Led by Valentin Gomez Farias this faction was the radical federalists who in 1846 took the name of *puros* Santi demonstrates the reasons for the failure of the *puros* efforts to gain political power and coordinate the war effort Examining the *puros* attempts to reestablish federalism in Mexico shape public opinion develop a civic militia and forge alliances with senior army officers and opposing political groups Santi maintains that the economic social and political troubles of Mexico nullified the *puros* endeavors to direct armed resistance against the Americans He also dispels some of the erroneous notions that the *puros* and Gomez Farias were self serving and corrupt and sold out Mexico to the United States for example that have been propagated by historians in the past *Mexico, from Independence to Revolution, 1810-1910* William Dirk Raat,1982-01-01 The first classroom reader devoted exclusively to nineteenth century Mexican history this volume brings together twenty six essays and primary documents treating Mexico's Age of Caudillos The readings many by Mexican politicians historians and commentators and available here in English for the first time are organized into four groups representing major eras in the early national development of Mexico Independence the age of Santa Anna La Reforma and the French Intervention and the Porfiriato The selections range from autobiography to political and economic history from the history of ideas to philosophy and social history The interpretive essays represent both traditional and revisionist views while the primary materials comprise both political documents and contemporary personal accounts *Latino Politics and Arizona's Immigration Law SB 1070* Lisa Magaña,Erik Lee,2013-03-25 Arizona has one of the fastest growing communities of Latino immigrants in the United States In response to accusations that the Federal government was hampering the immigration enforcement actions of Arizona police state Senator Russell Pearce introduced the Support Our Law Enforcement and Safe Neighborhoods Act Better known as SB 1070 the policy allows police officers in Arizona to arrest unauthorized immigrants under the state's trespassing law

The law also gives officers the latitude to question and detain those that may appear suspicious which may simply mean that they appear Latino Under the State s statute immigrants can also be criminalized for their mere presence in Arizona The bill was signed into law on April 23 2010 which generated a number of immensely complex issues at the local national and international level The measure has affected an already problematic U S Mexico bi national relationship at a time of increased security cooperation between the two countries Furthermore former the President of Mexico has criticized the law issuing travel advisories and as a sanction trade between Arizona and Mexico has been reduced Elected officials across the country called for a variety of economic boycotts and campaigns that would discourage the full implementation of the law Over fifteen major cities have ended business contracts with Arizona The State tourism industry has lost almost one billion dollars in less than six months as a result of this policy This book examines a variety of issues and consequences of SB 1070 at the local national and international level It provides timely research and analysis on a topic not previously examined and from a variety of inter disciplinary approaches making it of interest to political scientists and policy makers alike

Conflict And Commerce On The Rio Grande John A. Adams,2008 Laredo is a city at the crossroads of North American history Founded by the Spanish in 1755 it has stood at the intersection of regional commerce since its earliest days Now John A Adams Jr provides the first ever panoramic business and economic history of Laredo He traces the evolution of the region from its early days as a ranching center into the mid twentieth century when Laredo had become what it remains today a booming port of trade and a principal center of commerce and financial services on the southern border of the United States In *Commerce and Conflict on the Rio Grande* Adams demonstrates how the increasingly diversified economy of the region fed the fortunes of the city His narrative buttressed throughout by tables and statistics paints a vivid mural of both the economic forces and the farsighted and ambitious individuals that combined to bring prosperity to this unique American city Readers will find a wealth of insights into regional economics history and borderlands themes

U.S. and Latin American Relations Gregory B. Weeks,Michael E. Allison,2022-12 A textbook providing theoretical and historical analyses for understanding contemporary US Latin American relations

Cold War Spencer C. Tucker,Priscilla Roberts,2007-09-10 The most comprehensive and up to date student reference on the Cold War offering expert coverage of all aspects of the conflict in a richly designed format fully illustrated to give students a vivid sense of life in all countries affected by the war ABC CLIO is proud to announce the latest addition to its widely acclaimed legacy of historical reference works for students Under the direction of internationally known expert Spencer Tucker *Cold War A Student Encyclopedia* captures the vast scope day to day drama and lasting impact of the Cold War more clearly and powerfully than any other student resource ever published Ranging from the end of the Second World War to the collapse of the Soviet Union *Cold War A Student Encyclopedia* offers vivid portrayals of leading individuals significant battles economic developments societal cultural events changes in military technology and major treaties and diplomatic agreements The nearly 1 100 entries plus topical essays and a documents

volume draw heavily on recently opened Russian Eastern European and Chinese archives Enhanced by a rich program of maps and images it is a comprehensive current and accessible student reference on the dominant geopolitical phenomenon of the late 20th century

The Encyclopedia of the Mexican-American War Spencer C. Tucker, 2012-10-09 This user friendly encyclopedia comprises a wide array of accessible yet detailed entries that address the military social political cultural and economic aspects of the Mexican American War The Encyclopedia of the Mexican American War A Political Social and Military History provides an in depth examination of not only the military conflict itself but also the impact of the war on both nations and how this conflict was the first waged by Americans on foreign soil and served to establish critical U S military political and foreign policy precedents The entries analyze the Mexican American War from both the American and Mexican perspectives in equal measure In addition to discussing the various campaigns battles weapons systems and other aspects of military history the three volume work also contextualizes the conflict within its social cultural political and economic milieu and places the Mexican American War into its proper historical and historiographical contexts by covering the eras both before and after the war This information is particularly critical for students of American history because the conflict fomented sectional conflict in the United States which resulted in the U S Civil War

Latin American International Law in the Twenty-First Century Alejandro Chehtman, Alexandra Huneeus, Sergio Puig (Law teacher), 2025 Latin America has been a pivotal site for influential and innovative developments in international law since the colonial era Throughout much of the 20th century Latin American politics were entangled with the political and economic interests of the United States Today as the global order shifts scholars and legal practitioners are grappling with the current restructuring and potential transformation of international relations and what this means for international law in the region This collection of essays brings together a group of highly regarded scholars to present a broad survey of Latin America s approaches and contributions historically and presently to the field of international law Comprehensive diverse and multidisciplinary the book covers recent developments in areas like environmental regulation internet regulation Indigenous rights LGBTIQ rights and public health among others It also considers more traditional themes such as law and development the doctrine of non intervention human rights and jurisdictional disputes in the Spanish colonies A timely publication covering an ever evolving region Latin American International Law in the 21st Century explores the role of Latin American politics on the world stage Theories perspectives and methods of international law are expertly interwoven with those of sociology political science anthropology philosophy history and economics to present a dynamic and multifaceted work of scholarship

The Agrarian Dispute John Dwyer, 2008-09-12 Focuses on U S Mexican relations in postrevolutionary Mexico placing Cardenas s agrarian reform including the nationalization of American owned Mexican farmland in an international context

Redeeming La Raza Gabriela González, 2018-06-15 The transborder modernization of Mexico and the American Southwest during the late nineteenth and early twentieth centuries transformed the lives of ethnic Mexicans across the political divide While

industrialization urbanization technology privatization and wealth concentration benefitted some many more experienced dislocation exploitative work relations and discrimination based on race gender and class The Mexican Revolution brought these issues to the fore within Mexican society igniting a diaspora to el norte Within the United States similar economic and social power dynamics plagued Tejanos and awaited the war refugees Political activism spearheaded by individuals and organizations such as the Idars Leonor Villegas de Magn n s White Cross the Magonista movement the Munguias Emma Tenayuca and LULAC emerged in the borderlands to address the needs of ethnic Mexicans whose lives were shaped by racism patriarchy and poverty As Gabriela Gonzalez shows in this book economic modernization relied on social hierarchies that were used to justify economic inequities Redeeming la raza was about saving ethnic Mexicans in Texas from a social hierarchy premised on false notions of white supremacy and Mexican inferiority Activists used privileges of class education networks and organizational skills to confront the many injustices that racism bred but they used different strategies Thus the anarcho syndicalist approach of Mag nistas stands in contrast to the social and cultural redemption politics of the Idars who used the press to challenge a Jaime Crow world Also the family promoted the intellectual material and cultural uplift of la raza working to combat negative stereotypes of ethnic Mexicans Similar contrasts can be drawn between the labor activism of Emma Tenayuca and the Munguias whose struggle for rights employed a politics of respectability that encouraged ethnic pride and unity Finally maternal feminist approaches and the politics of citizenship serve as reminders that gendered and nationalist rhetoric and practices foment hierarchies within civil and human rights organizations Redeeming La Raza examines efforts of activists to create a dignified place for ethnic Mexicans in American society by challenging white supremacy and the segregated world it spawned
