The reforms aimed at raising the competitiveness of the Mexican economy have the potential to establish Mexico's position as a regional powerhouse. Optimism surrounding the recent wave of reforms, coupled with a stable macroeconomic environment and an improved credit rating from international agencies, has placed Mexico centre stage. Despite slower than anticipated growth of 1.1% in 2013, a wave of reforms affecting a range of sectors is expected to bring a new dynamism to the economy and continue to attract increasing amounts of foreign investment. A highly anticipated energy reform approved by Congress in 2013 will for the first time in decades open the nationalised oil industry to foreign investment, while a new public-private partnership law is set to provide the climate of legal certainty needed to attract private investment in the myriad of sectors undergoing expansion. While challenges remain in particular informality and deficient domestic supply chains, growth prospects remain positive for the second largest economy in Latin America. DK Eyewitness Mexico DK Eyewitness, 2017-01-16 The DK Eyewitness Mexico Travel Guide is your indispensable guide to this beautiful part of the world. The fully updated guide includes unique cutaways, floorplans and reconstructions of the must-see sites, plus street by street maps of all the fascinating cities and towns.  Group, 2016-11-11 Slow economic growth has characterised Mexico's economic performance for much of the past decade
 Taking office in December 2012 the government of Enrique Peña Nieto set out to boost Mexico's competitiveness with a
 package of structural reforms affecting a number of sectors including energy telecommunications tax labour and education
 The package's most eye catching component was a constitutional reform designed to end decades of state monopoly in the oil
 and gas sector and attract investment from major international oil companies Though low oil prices and a degree of
 nervousness over the potential effects of monetary tightening in the US have dampened initial investor and market
 enthusiasm over the reforms the outlook for the Mexican economy remains stable with demand from the US expected to
 support Mexican activity despite low domestic demand and business confidence **National Geographic Traveler:**
