Keck,Kathryn A. Sikkink,2014-02-15 In *Activists beyond Borders* Margaret E Keck and Kathryn Sikkink examine a type of pressure group that has been largely ignored by political analysts networks of activists that coalesce and operate across national frontiers Their targets may be international organizations or the policies of particular states Historical examples of such transborder alliances include anti slavery and woman suffrage campaigns In the past two decades transnational activism has had a significant impact in human rights especially in Latin America and advocacy networks have strongly influenced environmental politics as well The authors also examine the emergence of an international campaign around violence against women *Encyclopedia of Human Rights* Edward H. American and Indo American societies though research on Brazil has been particularly prominent Special attention has been given to the relationship between social class and race and ethnicity *The Politics of Food in Mexico* Jonathan Fox,1993 Compares a range of Mexican food policy reforms focusing on the SAM Mexican Food System a program in place from 1980 82 designed to shift subsidies and privileged access from large private farmers and ranchers to peasants and small producers In this context Fox political science MIT examines the limits and possibilities of political reform and its history and future in the Mexican state Annotation copyright by Book News Inc Portland OR *Imperialism and Theatre* J. Ellen Gainor,2003-09-02 Imperialism is a transnational and transhistorical phenomenon it occurs neither in limited areas nor at one specific moment In cultures from across the world theatrical performance has long been a site for both the representation and support of imperialism and resistance and rebellion against it Imperialism and Theatre is a groundbreaking collection which explores the questions of why and how the theatre was selected within imperial cultures for the representation of the concerns of both the colonizers and the colonized Gathering together fifteen noted scholars and theatre practitioners this collection spans global and historical boundaries and presents a uniquely comprehensive study of post colonial drama The essays engage in current theoretical issues while shifting the focus from the printed text to theatre as a cultural formation and locus of political force A compelling and extremely timely work Imperialism and Theatre reveals fascinating new dimensions to the post colonial debate Contributors Nora Alter Sudipto Chatterjee Mary Karen Dahl Alan Filewood Donald H Frischmann Rhonda Garelick Helen Gilbert Michael Hays Loren Kruger Josephine Lee Robert Eric Livingston Julie S Peters Michael Quinn Edward Said Elaine Savory *Mexico* United States. Congress. House. Committee on Foreign Affairs. Subcommittee on the Western Hemisphere,1994 *Encyclopedia of War Crimes and Genocide* Leslie Alan Horvitz,Christopher Catherwood,2014-05-14 Entries address topics related to genocide crimes against humanity and peace and human rights violations profile perpetrators including Joseph Stalin Pol Pot and Idi Amin and discuss institutions set up to prosecute these crimes in countries around the world **Reconceptualizing The Peasantry** Michael Kearney,2018-02-07 The concept of peasant has been constructed from residual images of pre industrial European and colonial rural society Spurred by Romantic sensibilities and modern nationalist imaginations the images the word peasant brings to mind are anachronisms that do not reflect the ways in which rural people live today In this path breaking book Michael Kearney shows how the concept has been outdistanced by contemporary history He situates the peasantry within the current social context of the transnational and post Cold War nation state and clears the way for alternative theoretical views Reconceptualizing the Peasantry looks at rural society in general and considers the problematic distinction between rural and urban Most definitions of and debates about peasants have focused on their presumed social economic cultural and political characteristics but Kearney articulates the way in which peasants define themselves in a rapidly changing world In the process he develops ethnographic and political forms of representation that correspond to contemporary postpeasant

identities Moving beyond a reconsideration of peasantry the book situates anthropology in global context showing how the discipline reconstructs itself and its subjects according to changing circumstances
