Before massive deforestation began in the 1960s the Lacand n jungle which lies on the border of Mexico and Guatemala was part of the largest tropical rain forest north of the Amazon The destruction of the Lacand n occurred with little attention from the international press until January 1 1994 when a group of armed Maya rebels led by a charismatic spokesperson who called himself Subcomandante Marcos emerged from jungle communities and briefly occupied several towns in the Mexican state of Chiapas These rebels known as the Zapatista National Liberation Army became front page news around the globe and they used their notoriety to issue rhetorically powerful communiqu s that denounced political corruption the Mexican government s treatment of indigenous peoples and the negative impact of globalization As Brian Gollnick reveals the Zapatista communiqu s had deeper roots in the Mayan rain forest than Westerners realized and he points out that the very idea of the jungle is also deeply rooted though in different ways in the Western imagination Gollnick draws on theoretical innovations offered by subaltern studies to discover oral traces left by indigenous inhabitants in dominant cultural productions He explores both how the jungle region and its inhabitants have been represented in literary writings from the

time of the Spanish conquest to the present and how the indigenous people have represented themselves in such works including post colonial and anti colonial narratives poetry video and photography His goal is to show how popular and elite cultures have interacted in creating depictions of life in the rain forest and to offer new critical vocabularies for analyzing forms of cross cultural expression     All the Agents and Saints, Paperback Edition Stephanie Elizondo Griest,2019-11-27 After a decade of chasing stories around the globe intrepid travel writer Stephanie Elizondo Griest followed the magnetic pull home only to discover that her native South Texas had been radically transformed in her absence Ravaged by drug wars and barricaded by an eighteen foot steel wall her ancestral land had become the nation s foremost crossing ground for undocumented workers many of whom perished along the way The frequency of these tragedies seemed like a terrible coincidence until Elizondo Griest moved to the New York Canada borderlands Once she began to meet Mohawks from the Akwesasne Nation she recognized striking parallels to life on the southern border Having lost their land through devious treaties their mother tongues at English only schools and their traditional occupations through capitalist ventures Tejanos and Mohawks alike struggle under the legacy of colonialism Toxic industries surround their neighborhoods while the U S Border Patrol militarizes them Combating these forces are legions of artists and activists devoted to preserving their indigenous cultures Complex belief systems meanwhile conjure miracles In All the Agents and Saints Elizondo Griest weaves seven years of stories into a meditation on the existential impact of international borderlines by illuminating the spaces in between and the people who live there This edition features a new preface by the author     *Children's Books in Print* R R Bowker Publishing,Bowker,1999-12     American Bookseller ,1993
