Central Asia at the End of the Transition Boris Z. Rumer, 2016-07-22 For better or worse the former Soviet republics of Central Asia have largely completed their post independence transitions Over more than a decade they have established themselves as independent states whose internal regimes and external relations have characteristic patterns and vulnerabilities both individually and as a group The purpose of this volume is to assess both what has been accomplished and the trends of development in the region especially its leading states How sound are the foundations of this bulwark against the spread of terrorism in Eurasia **International Bibliography of Economics**, 2003 IBSS is the essential tool for librarians university departments research institutions and any public or private institution whose work requires access to up to date and comprehensive knowledge of the social sciences **Bibliographie Mensuelle** United Nations Library (Geneva, Switzerland), 2001 *Current Bibliographical Information* Dag Hammarskjöld Library, 1989 Monthly Bibliography United Nations Library (Geneva, Switzerland), 1997 **International Financial Organizations** George B. Grey, 2000 Are the International Monetary Fund and World Bank the modern armies of the Developed Countries as many allege Is their function to enhance the power and wealth of the rich countries or are they earnestly attempting to assist countries to develop This bibliography gathers the literature on International Banking International Monetary Fund World Bank Bank for International Settlements and the Asian Development Bank Access is provided via Title Author and Subject Indexes *The Library Catalogs of the Hoover Institution on War, Revolution, and Peace, Stanford University* Hoover Institution on War, Revolution, and Peace, 1969 International Law and Development in the Global South Emeka Duruigbo, Remigius Chibueze, Sunday Gozie Ogbodo, 2023-01-01 This book provides contributions in international law development and international relations from a cross section of jurists and scholars including a justice of the Supreme Court of Nigeria and a former Judge of the International Court of Justice at The Hague The project conceived as a festschrift in honor of Professor Christian Okeke aims to amplify the voices and perspectives that are not often accorded the limelight in international legal discourse Additionally the contributors discuss such relevant issues as frozen conflicts in Eastern Europe counter terrorism and cyber security in Central Asia and judicial contrivance in African countries Bridging the gap between political science and legal scholarship the book presents an interdisciplinary perspective on the emergence of an international rule of law and development It also provides much needed empirical research on the implications of multi level governance and global legal pluralism for the rule of law beyond the nation state This book will be highly relevant to scholars academics researchers and students in the fields of international relations law and development *Widener Library Shelflist: Economics and economics periodicals, v.1. Library, 1970 For Peace and Money Jennifer Siegel, 2014-11-03 From the late imperial period until 1922 the British and French made private and government loans to Russia making it the foremost

international debtor country in pre World War I Europe To finance the modernization of industry the construction of public works projects the building of railroads and the development of the military industrial complex Russia s ministers of finance municipal leaders and nascent manufacturing class turned time and time again to foreign capital From the forging of the Franco Russian alliance onwards Russia s needs were met first and foremost by France and Great Britain its allies and diplomatic partners in the developing Triple Entente Russia s continued access to those ready lenders ensured that the empire of the Tsars would not be tempted away from its alliance and entente partners This web of financial and political interdependence affected both foreign policy and domestic society in all three countries The Russian state was so heavily indebted to its western creditors rendering those western economies almost prisoners to this debt that the debtor nation in many ways had the upper hand the Russian government at times was actually able to dictate policy to its French and British counterparts Those nations investing classes which in France in particular spanned not only the upper classes but the middle rentier class as well had such a vast proportion of their savings wrapped up in Russian bonds that any default would have been catastrophic for their own economies That default came not long after the Bolshevik Revolution brought to power a government who felt no responsibility whatsoever for the debts accrued by the tsars for the purpose of oppressing Russia s workers and peasants The ensuing effect on allied morale the Anglo French relationship and ultimately on international relations in the twentieth century was grim and far reaching Jennifer Siegel narrates a classic tale of money and power in the modern era an age of economic interconnectivity and great power interdependency involving such figures as Lord Revelstoke chairman of Baring Brothers the British and French Rothschild cousins and Sergei Witte Russia s authoritative finance minister during much of this age of expansion For Peace and Money highlights the importance of foreign capital in policymaking on the origins and conduct of World War I **Devindex** ,1980 *A Scholars' Guide to Humanities and Social Sciences in the Soviet Union* Blair A. Maggs,2019-03-04 In the past Soviet policymakers planners and jurists in their enthusiasm for economic and technological development devoted little attention to the often negative consequences of modernization New concerns however have become apparent in recent literature statutes and decrees In this book political scientists and experts on Soviet law address many of those concerns analyzing the legal issues associated with economic modernization in the USSR The central themes of the book are the increasingly centralized nature of the policymaking process in the USSR and Eastern Europe and the marked tendency to rely on law as a principal mechanism for managing the undesirable consequences of scientific and technological progress The authors also assess the impact of the scientific technical revolution on Soviet East European relations and East West relations emphasizing the foreign policy consequences of increased financial and technological interdependence The study does not deal with narrow legalistic issues of technical progress

rather its focus on policy questions reflects the inclination of Soviet and Eastern European governments to view those questions in terms of law and legislative activity and to see law as an instrument of social engineering *National Union Catalog* ,1979 **List of Recent Additions** Joint Bank-Fund Library,1969 *Bibliographic Guide to Soviet and East European Studies* ,1980 Liste mensuelle d'ouvrages catalogués à la Bibliothèque de la Société des Nations League of Nations Library,United Nations Library (Geneva, Switzerland),1965
