Hunt,1998 *Pulse Check* United States. Office of National Drug Control Policy,1997 *Pulse Check* ,1998 **Transgressing Women** Jamaluddin Aziz,2012-01-17 Transgressing Women focuses on the literary and cinematic representation of female characters in contemporary noir thrillers The book argues that as the genre has grown expanded and been subverted since its initial conception along with the changing definition of gender the representation of a female character has also inevitably gone through some dramatic changes So the book asks some important questions What links the female characters in canonical noir to their contemporary counterparts Is gender division still relevant in a text that transgresses gender boundaries What happens when it is the human body itself that betrays the traditional definition or constitution of a human being While many have written about the male protagonists and the femmes fatales in the noir genre little attention has been given to the other female characters who inhabit the noir world and are transgressors themselves The main concern of the book is to trace the transgressive female characters in contemporary noir thrillers both novels and films by engaging itself with some of the most topical debates within both post feminist and postmodernist theories The book is structured around two key concepts space and the body These temporal and spatial indicators are central in contemporary cultural theories such as postmodernism and post feminism along with other theorizations of gender and the noir genre This means that the analysis is drawn from the classical noir examples and will then arrive at the neo noir sub genre and then will move on to the most recent phenomenon in the genre future noir

Twentieth-Century Crime Fiction Lee Horsley, 2005-08-25 *Twentieth Century Crime Fiction* aims to enhance understanding of one of the most popular forms of genre fiction by examining a wide variety of the detective and crime fiction produced in Britain and America during the twentieth century It will be of interest to anyone who enjoys reading crime fiction but is specifically designed with the needs of students in mind It introduces different theoretical approaches to crime fiction e.g formalist historicist psychoanalytic postcolonial feminist and will be a useful supplement to a range of crime fiction courses whether they focus on historical contexts ideological shifts the emergence of sub genres or the application of critical theories Forty seven widely available stories and novels are chosen for detailed discussion In seeking to illuminate the relationship between different phases of generic development Lee Horsley employs an overlapping historical framework with sections doubling back chronologically in order to explore the extent to which successive transformations have their roots within the earlier phases of crime writing as well as responding in complex ways to the preoccupations and anxieties of their own eras The first part of the study considers the nature and evolution of the main sub genres of crime fiction the

classic and hard boiled strands of detective fiction the non investigative crime novel centred on transgressors or victims and the mixed form of the police procedural The second half of the study examines the ways in which writers have used crime fiction as a vehicle for socio political critique These chapters consider the evolution of committed oppositional strategies tracing the development of politicized detective and crime fiction from Depression era protests against economic injustice to more recent decades which have seen writers launching protests against ecological crimes rampant consumerism Reaganomics racism and sexism
