Heidegger, Metaphysics and the Univocity of Being Philip Tonner, 2011-10-27 In *Heidegger Metaphysics and the Univocity of Being* Philip Tonner presents an interpretation of the philosophy of Martin Heidegger in terms of the doctrine of the univocity of being According to the doctrine of univocity there is a fundamental concept of being that is truly predicable of everything that exists This book explores Heidegger's engagement with the work of John Duns Scotus who raised philosophical univocity to its historical apotheosis Early in his career Heidegger wrote a book length study of what he took to be a philosophical text of Duns Scotus Yet the word univocity rarely features in translations of Heidegger's works Tonner shows by way of a comprehensive discussion of Heidegger's philosophy that a univocal notion of being in fact plays a distinctive and crucial role in his thought This book thus presents a novel interpretation of Heidegger's work as a whole that builds on a suggested interpretation by Gilles Deleuze in *Difference and Repetition* and casts a new light on Heidegger's philosophy clearly illuminating his debt to Duns Scotus [Dictionary of Theologians](#) Jonathan Hill, 2010-03-25 An exhaustive guide to every significant Christian theologian who lived from the first century to 1308 the year in which John Duns Scotus died The dictionary encompasses the Catholic Orthodox Nestorian and Monophysite traditions including information not previously available in English Thoroughly indexed the dictionary incorporates common variants of names and concepts which will help and direct the reader The main criterion for inclusion has been contribution to the development of Christian theology Sub criteria by which that is measured include above all originality and influence on later figures With over 290 entries the dictionary provides a handy summary of theologians' lives and writings together with recent scholarship as well as an up to date definitive bibliography listing primary texts translations and secondary literature in the major western European languages Useful for all levels of academia no other text matches the depth of the dictionary's bibliographies The unprecedented thoroughness of Hill's compilation provides an essential resource for studies at all levels on such a large and varied range of Church thinkers [Miasma](#) John W. McGinley, 1996 This book explains how Duns Scotus's concept of Haecceitas thisness or individuation represents an insufficiently recognized yet central aspect of Aristotelianism namely its denial of and flight from the play of difference that was a core aspect of Plato's philosophy The difficulty the author asserts is that there has been historically an all too common tendency to read Plato through the distorting lens of Aristotle's view of him The author further asserts that Aristotelianism has informed Neo Platonism to the extent that it too becomes a corruption of Plato's thought because of their common flight from Plato's difference oriented theory of forms Throughout this work is a concern with the thinking of Derrida and Heidegger especially in terms of their readings of the classical and medieval traditions **Jerusalem {Resiliating Jerusalem} and Athens** Hullin, 2014-10-06 Jewish Studies Athens BUT BE CAREFUL THAT I DON'T SOMEHOW DECEIVE YOU UNINTENTIONALLY BY PROFFERRING AN ILLEGITIMATE ACCOUNTING OF THE CHILD TOKOU Republic 507a Jerusalem A Note from the Tanna Kamma The laws regarding the
