Reconciling Truths Kim Stanton, 2022-01-15 Hundreds of commissions of inquiry have been struck in Canada since before Confederation but many of their recommendations have never been implemented. *Reconciling Truths* explores the role and implications of commissions such as Canada's Truth and Reconciliation Commission and the National Inquiry into Missing and Murdered Indigenous Women and Girls and particularly their limits and possibilities in an era of reconciliation with Indigenous peoples. Whether it is a public inquiry, truth commission or royal commission, the chosen leadership and processes fundamentally affect its ability to achieve its mandate. Kim Stanton provides examples and in-depth critical analysis of these factors to offer practical guidance on how to improve the odds that recommendations will be implemented. As a forthright examination of the institutional design of public inquiries, *Reconciling Truths* affirms their potential to create a dialogue about issues of public importance that can prepare the way for policy development and shifts the dominant Canadian narrative over time. *World Development Report 2012* World Bank, 2011-09-01 This year's World Development Report looks at facts and trends regarding the various dimensions of gender equality in the context of the development process.

On the Politics of Ugliness Sara Rodrigues, Ela Przybylo, 2018-08-29 Ugliness or unsightliness is much more than a quality or property of an individual's appearance; it has long functioned as a social category that demarcates access to social, cultural and political spaces and capital. The editors and authors in this collection harness intersectional and interdisciplinary approaches in order to examine ugliness as a political category that is deployed to uphold established notions of worth and entitlement. *On the Politics of Ugliness* identifies and challenges the harmful effects that labels and feelings of ugliness have on individuals and the socio-political order. It explores ugliness in relation to the intersectional processes of racialization, colonization and settler colonialism, gender, making, ableism, heteronormativity and fatphobia. *On the Politics of Ugliness* asks that we fight against visual injustice and imagine new ways of seeing.

Street Sex Work and Canadian Cities Shawna Ferris, 2015-03-02 Our voices scrubbed out and forgotten. There are those who research and write about sex workers who often forget we are human. Amy Lebovitch Shawna Ferris gives a voice to sex workers who are often pushed to the background even by those who fight for them. In the name of urban safety and orderliness, street sex workers face stigma, racism and ignorance. Their human rights are ignored and some even lose their lives. Ferris aims to reveal the cultural dimensions of this discrimination through literary and art, critical theory, legal and sociological research and activist intervention. Canadian cities are striving for high safety ratings by eliminating crime, which includes cleaning urban areas of the street sex industry. Ironically, sex workers also want to live and work in a safe environment. Ferris questions these sanitizing political agendas, reviews exclusionary legislative and police initiatives and examines media representations of sex workers. This book has much to offer to educators and activists, sex workers and anti-violence organizations and academics studying women, cultural gender or Indigenous issues. Foreword by

Amy Lebovitch
