Mibion De Mediation Sur Limplantation De Laboratoires:

Managing Conflict in Facility Siting Sidney Hayden Lesbirel, Daigee Shaw, 2005-01-01 The book addresses a growing policy problem confronting all democratic nations By exploring the lessons to be learned from international siting experiences it will prove invaluable reading for academics policymakers government agencies NGOs and other societal interests involved in environmental and siting issues **BOOK JACKET** **Radioactive Waste Management** ,1995

Facility Siting Asa Boholm, 2013 From dams to landfill sites and power plants to radioactive waste repositories the siting of facilities is a veritable minefield of conflicts involving industry planners authorities NGOs and citizens This penetrating volume examines risk power and identity in contests over the siting of infrastructure and industrial facilities Going beyond nimby ism experts in a variety of fields bring a multiperspective analysis from science law and media to case studies from the UK USA and Europe and expose the political and cultural dimensions of siting conflicts In the process they show how place attachment and notions of landscape and local identity play a prominent role in resistance to development Topics covered include the importance of context in siting controversies siting methods and social representation siting conflicts the importance of institutional thinking in facility siting risk industrial encroachment and the sense of place siting and sacred places and law and fairness This book is essential reading for academics in social sciences policy planning law and risk policy makers planners and decision makers at all levels of government business and industry particularly energy generation including nuclear and renewables transportation and large dams risk assessment professionals and NGOs and activists

Disposition of High-Level Waste and Spent Nuclear Fuel National Research Council, Division on Earth and Life Studies, Board on Radioactive Waste Management, Committee on Disposition of High-Level Radioactive Waste Through Geological Isolation, 2001-07-05 Focused attention by world leaders is needed to address the substantial challenges posed by disposal of spent nuclear fuel from reactors and high level radioactive waste from processing such fuel The biggest challenges in achieving safe and secure storage and permanent waste disposal are societal although technical challenges remain Disposition of radioactive wastes in a deep geological repository is a sound approach as long as it progresses through a stepwise decision making process that takes advantage of technical advances public participation and international cooperation Written for concerned citizens as well as policymakers this book was sponsored by the U S Department of Energy U S Nuclear Regulatory Commission and waste management organizations in eight other countries **Scientific Uncertainty and Its Influence on the Public Communication Process** Virginia H. Sublet, V.T. Covello, Tim L. Tinker, 2013-03-09 Experts from academia and government who are actively engaged in research in the area of risk communication present a compendium of cases that give information and allow the development of strategies to improve the communication of scientific information to the public The cases span Western Central and Eastern Europe covering such areas as nuclear waste heavy metal contamination landfill siting risk perception global warming international health for all

and more The conclusions and recommendations presented here are being used to develop future activities to further explore this area of risk communication as an international study Audience Scientists risk communicators psychologists toxicologists health professionals and anyone who has an interest in public communication on scientific uncertainty *OECD Papers*, 2004 A compilation of reports previously issued by the OECD *Mission de médiation sur l'implantation de laboratoires de recherche souterrains* Christian Bataille, 1993 La nature dans tous ses états Philippe Brunet, 2004 **Mission de médiation sur l'implantation de laboratoires de recherche souterrains** Christian Bataille, France.
