Mouse Georgie Carroll, 2014-11-15 From Mickey to Jerry Rizzo to

Pinky mice have played an important role in our childhood tales. Often a heroic figure in culture and fiction, mice are the iconic symbol of Disney and Earth's intellectually superior race in *The Hitchhiker's Guide to the Galaxy*; they are also considered one of the human race's greatest adversaries responsible for disease and plague. Presenting a natural and cultural history of the mouse, this book explores the large role this diminutive animal plays in both the animal kingdom and human imagination. Examining the evolution, species, habitats, and behaviors of mice, Georgie Carroll reveals that they are accomplished survivors having colonized six of the world's continents and even traveled into space. As one of the earth's smallest prey, the mouse she shows represents courage, perseverance, and adaptability. She surveys the depiction of mice in art, myth, literature, and folklore, considering how they are held in divine regard in the Hindu and Buddhist traditions. Carroll also delves into the integral place mice hold within the modern scientific endeavor, that of the laboratory animal. Telling the story of this beguiling creature in rich detail, *Mouse* is an intriguing look at an animal we have worshipped, tested, slaughtered, loved, and loathed.

The Church Mice and the Moon Graham Oakley, 1974 Two church mice are kidnapped to be trained as astronauts and sent to the moon. The church cat goes to their aid.

The Mouse and the Moon Gabriel Alborozo, 2016-09-27 This is the story of a little mouse who lives in a dark and wild wood. He is all alone except for his friend the moon. Each night the mouse tells the moon all of his news, his hopes, and his fears. But the moon never replies. So the little mouse ventures out to find his friend and finds someone unexpected. Instead, Gabriel Alborozo's beautiful illustrations shift from black and white to color, celebrating the dawn of a new day and the beginning of a new friendship.

Why Did the Mouse Go to the Moon? John Grden, 2018-11-21 This wonderful tale is about friends working together to send a Mouse to the moon. Told through detailed illustrations, it's a story of invention, determination, and some sprinkles of reality. The spacecraft is an abandoned toy water rocket to be commanded by Captain John of MASA Mouse Academe Space Adventures. We can all learn lessons from these small mice that actually live their dream. The author of the book leaves real space facts along the path, like maintaining the atmospheric pressure of the rocket while in space, lending to the reality of their adventure and expanding the knowledge of those who will read this book. Captain John shows perseverance and ingenuity, making you think all is possible. Watch other cadets rise to the task of making, monitoring, and mousing around a bit in all they have to accomplish. Working together, they are able to do human things in their fantasy world. A silent propulsion to the story is the old myth that mice like cheese. Find out how much they really do like cheese.
