*The Transgender Studies Reader* Susan Stryker, Stephen Whittle, 2013-10-18 Transgender studies is the latest area of academic inquiry to grow out of the exciting nexus of queer theory feminist studies and the history of sexuality Because transpeople challenge our most fundamental assumptions about the relationship between bodies desire and identity the field is both fascinating and contentious The Transgender Studies Reader puts between two covers fifty influential texts with new introductions by the editors that taken together document the evolution of transgender studies in the English speaking world By bringing together the voices and experience of transgender individuals doctors psychologists and academically based theorists this volume will be a foundational text for the transgender community transgender studies and related queer theory

**Blending Genders** Richard Ekins, David King, 2002-03-11 First published in 1995 the book describes personal experiences of those who cross dress and sex change how they organise themselves socially in both outsider and respectable communities The contributors consider the dominant medical framework through which gender blending is so often seen and look at the treatment afforded gender blending in literature the press and the recently emerged telephone sex lines The book concludes with a discussion of the lively debates that have taken place concerning the politics of transgenderism in recent years and examines its prominence in recent contributions to contemporary cultural theory and queer theory

**Transgender Medicine** Leonid Poretsky, Wylie C. Hembree, 2019-02-22 Although transgender persons have been present in various societies throughout human history it is only during the last several years that they have become widely acknowledged in our society and their right to quality medical care has been established In the United States endocrinologists have been providing hormonal therapy for

transgender individuals for decades however until recently there has been only limited literature on this subject and non endocrine aspects of medical care for transgender individual have not been well addressed in the endocrine literature The goal of this volume is not only to address the latest in hormonal therapy for transgender individuals including pediatric and geriatric age groups but also to familiarize the reader with other aspects of transgender care including primary and surgical care fertility preservation and the management of HIV infection In addition to medical issues psychological social ethical and legal issues pertinent to transgender individuals add to the complexities of successful treatment of these patients A final chapter includes extensive additional resources for both transgender patients and providers Thus an endocrinologist providing care to a transgender person will be able to use this single resource to address most of the patient s needs While Transgender Medicine is intended primarily for endocrinologists this book will be also useful to primary care physicians surgeons providing gender confirming procedures mental health professionals participating in the care of transgender persons and medical residents and students

**The First Man-Made Man** Pagan Kennedy,2008-12-11 In the 1920s when Laura Dillon felt like a man trapped in a woman s body there were no words to describe her condition transsexual had yet to enter common usage And there was no known solution to being stuck between the sexes In a desperate bid to feel comfortable in her own skin she experimented with breakthrough technologies that ultimately transformed the human body and revolutionized medicine Michael Dillon s incredible story from upper class orphan girl to Buddhist monk reveals the struggles of early transsexuals and challenges conventional notions of what gender really means
