Michael Nyman Film Music For Piano Solo:

The Music of Michael Nyman Pwyll ap Siôn, 2017-07-05 Nyman's rise to international prominence during the last three decades has made him one of the world's most successful living composers. His music has nevertheless been criticized for its parasitic borrowing of other composers' ideas and for its relentless self-borrowing. In this first book-length study in English, Pwyll ap Siôn places Nyman's writings within the general context of Anglo-American experimentalism, minimalism, and post-minimalism and provides a series of useful contexts from which controversial aspects of Nyman's musical language can be more clearly understood and appreciated. Drawing upon terms informed by intertextual theory, in general, appropriation and borrowing are first introduced within the context of twentieth-century art music and theory. Intertextual concepts are explained and their terms defined before Nyman's musical language is considered in relation to a series of intertextual classifications and types. These types then form the basis of a more in-depth study of his works during the second half of the book, ranging from opera and chamber music to film. Rather than restricting style and technique, Nyman's intertextual approach, on the contrary, is shown to provide his music with an almost infinite amount of variety, flexibility, and diversity, and this has been used to illustrate a wide range of technical, aesthetic, and expressive forms. He composes with his ear towards the past as if it were a rich quarry to mine, working like a musical archaeologist uncovering artefacts and chiselling fresh and vibrant sonic edifices out of them.

The Invisible Art of Film Music Laurence E. MacDonald, 2013-05-02 Beginning with the era of synchronized sound in the 1920s, music has been an integral part of motion pictures. Whether used to heighten the tension of a scene or evoke a subtle emotional response, scores have played a significant, if often unrealized, role in the viewer's enjoyment. In *The Invisible Art of Film Music*, Laurence MacDonald provides a comprehensive introduction for the general student, film historian, and aspiring cinematographer. Arranged chronologically from the silent era to the present day, this volume provides insight into the evolution of music in cinema and analyzes the vital contributions of scores to hundreds of films. MacDonald reviews key developments in film music and discusses many of the most important and influential scores of the last nine decades, including those from *Modern Times*, *Gone with the Wind*, *Citizen Kane*, *Laura*, *A Streetcar Named Desire*, *Ben-Hur*, *Lawrence of Arabia*, *The Godfather*, *Jaws*, *Ragtime*, *The Mission*, *Titanic*, *Gladiator*, *The Lord of the Rings*, *Brokeback Mountain*, and *Slumdog Millionaire*. MacDonald also provides biographical sketches of such great composers as Max Steiner, Alfred Newman, Franz Waxman, Bernard Herrmann, Elmer Bernstein, Henry Mancini, Maurice Jarre, John Barry, John Williams, Jerry Goldsmith, Dave Grusin, Ennio Morricone, Randy Newman, Hans Zimmer, and Danny Elfman. Updated and expanded to include scores produced well into the twenty-first century, this new edition of *The Invisible Art of*

Michael Nyman: Collected Writings Pwyll ap Siôn, 2016-04-22 For over three decades Michael Nyman's music has succeeded in reaching beyond the small community of contemporary music aficionados to a much wider range of listeners An important element in unlocking the key to Nyman's success lies in his writings about music which preoccupied him for over a decade from the late 1960s to the early 1980s During this time Nyman produced over 100 articles covering almost every conceivable musical style and genre from the Early Music revival and the West's interest in world music or from John Cage and minimalism to rock and pop Nyman initiated a number of landmark moments in the course of late twentieth century music along the way he was one of the first to critique the distinction between the European avant garde and the American experimental movement he was the first to coin the term minimalism in relation to the music of then largely unknown Steve Reich and Terry Riley and later Philip Glass the first to seriously engage with the music of the English experimental tradition and the importance of Cornelius Cardew and to identify the importance of Art Colleges in nurturing and developing a radical alternative to modernism and one of the first writers to grasp the significance of post minimalists such as Brian Eno and Harold Budd and to realize how these elements could be brought together into a new aesthetic vision for his own creative endeavours which was formulated during the late 1970s and early 80s Much of what transformed and defined Nyman's musical character may be found within the pages of this volume of his writings comprehensively edited and annotated for the first time and including previously unpublished material from Nyman's second interview with Steve Reich in 1976 There is also much here to engage the minds of those who are interested in pre twentieth century music from Early and Baroque music Handel and Purcell in particular to innovative features in Haydn spatial elements in Berlioz or Bruckner and Mahler's symphonic works
