*Michael, the Master* William J. Lambert, 1981-01-01      *English Episcopal Acta 31, Ely 1109-1197* Nicholas Karn, David Michael Smith, British Academy, 2005-12-15 The 170 acta published in this volume provide one of the best records of the structuring of a new diocese and the establishment of a cathedral chapter The diocese of Ely comprising historic Cambridgeshire was founded in 1109 and its first four bishops oversaw the elaboration of a system of local ecclesiastical government and also the formulation of a settlement between themselves and the Benedictine monks of Ely whose church became the cathedral Two of the bishops also held high secular office William de Longchamp was effective regent of England while King Richard I was on Crusade and the acta issued in connection with these duties shed light on the delegation of royal power      **The Family of Master of Henhurst** Alfred Master, 2024-05-01 Reprint of the original first published in 1881

*Masters of War* Michael I. Handel, 2005-12-05 This is the first comprehensive study based on a detailed textual analysis of the classical works on war by Clausewitz Sun Tzu Mao Tse tung and to a lesser extent Jomini and Machiavelli Brushing stereotypes aside the author takes a fresh look at what these strategic thinkers actually said not what they are widely believed to have said He finds that despite their apparent differences in terms of time place cultural background and level of material technological development all had much more in common than previously supposed In fact the central conclusion of this book is that the logic of waging war and of strategic thinking is as universal and timeless as human nature itself This third revised and expanded edition includes five new chapters and some new charts and diagrams      **A History of St.**

**Sacred Grotesques** Michael E. Heyes, 2018-08-10 Holy Monsters Sacred Grotesques examines the intersection of religion and monstrosity in a variety of different time periods in the hopes of addressing two gaps in scholarship within the field of monster studies The first part of the volume running from the medieval to the Early Modern period focuses upon the view of the monster through non majority voices and accounts from those who were themselves branded as monsters Overlapping partially with the Early Modern and proceeding to the present day the contributions of the second part of the volume attempt to problematize the dichotomy of secular religious through a close look at the monsters this period has wrought      The
