Michel De Certeau In The Plural

Ian Buchanan

Michel De Certeau In The Plural:

Culture in the Plural Michel de Certeau, 1997 From the late Michel de Certeau comes an essential engagement with multiculturalism and identity politics De Certeau stresses that anyone attempting to understand contemporary societies in the West must grasp the already existing diversity that outflanks elitist conceptions of the national group He argues compellingly that old ideas of social unity have no relevance in the diverse societies of today **Michel de Certeau** Ian Buchanan, 2001-03 French philosopher Michel de Certeau wrote about seventeenth century mysticism religion and pluralism architecture everyday life and the history of anthropology But because critics of his works have tended to fragment it into hermetic compartments dealing only with what is relevant to their own fields the expansiveness of his oeuvre has suffered damaging distortions in the secondary literature This special issue of *South Atlantic Quarterly* provides the first comprehensive view of his complete work with contributors evaluating his weaknesses as well as his strengths With articles that engage directly as well as theoretically with de Certeau this collection corrects a long standing imbalance in the criticism by covering works from two periods about which little is known in anglophone circles his early books on religious history and his midlife histories of mysticism and possession It also includes critiques from queer theory and feminist theory as well as comparative readings that assess de Certeau alongside his famous contemporary Michel Foucault With articles by an international array of scholars who address both the secular and the religious thinker this special issue is the most definitive study to date of this important twentieth century thinker Contributors Jeremy Ahearne Frederick C Bauerschmidt Ian Buchanan Philippe Carrard Claire Colebrook Tom Conley Verena Andermatt Conley Catherine Driscoll Carla Freccero John Frow Richard Terdiman Timothy Tomasik Marie Claire Vallois Graham Ward *The Rhetorical Surface of Democracy* Scott Welsh, 2012-10-18 Citizens political theorists and politicians alike insist that political or partisan motives get in the way of real democracy Real democracy we are convinced is embodied by an ability to form collective judgments in the interest of the whole *The Rhetorical Surface of Democracy* How Deliberative Ideals Undermine Democratic Politics by Scott Welsh argues instead that it is our easy rejection of political motives individual interests and the rhetorical pursuit of power that poses the greatest danger to democracy Our rejection of politics understood as a rhetorical contest for power is dangerous because democracy ultimately rests upon the perceived public legitimacy of public political challenges to authority and the subsequent reconstitution of authority amid the impossibility of collective judgment Hence rather than searching for allegedly more authentic democracy rooted in the pursuit of ever illusive collective judgments we must find ways to come to terms with the persistence of rhetorical political contests for power as the essence of democracy itself Welsh argues that the impossibility of any kind of public judgment is the fact that democracy must face Given the impossibility of public judgment rhetorical competitions for political power are not merely poor substitutes for an allegedly more authentic democratic practice but constitute the essence of democracy itself *The Rhetorical Surface of Democracy* is an iconoclastic investigation

of the democratic process and public discourse *Post-Christian Religion in Popular Culture* Andrew D. Thrasher, 2024-09-05 Post Christian Religion in Popular Culture Theology through Exegesis analyzes several theological exegeses of contemporary popular culture as post Christian scripture It includes analyses of the Marvel Cinematic Universe The Lion King and Cloud Atlas the television shows Lucifer and Shameless and contemporary pop punk and alternative music Through an application of three hermeneutical methods re enchantment resourcement and rescription a prophetic and apocalyptic critique of modernity and an analysis of the late modern human condition Andrew D Thrasher argues how popular culture recites post Christian religious and theological messages marked by a post disenchantment theology constituted by the consumption of these messages shapes and informs what the contemporary world finds believable credible and desirable in a post Christian context *French Historians 1900-2000* Philip Daileader, Philip Whalen, 2010-03-16 French Historians 1900 2000 The New Historical Writing in Twentieth Century France examines the lives and writings of 40 of France's great twentieth century historians Blends biography with critical analysis of major works placing the work of the French historians in the context of their lifetimes Includes contributions from over 30 international scholars Provides English speaking readers with a new insight into the key French historians of the last century **Automobilities** Mike Featherstone, Nigel Thrift, John Urry, 2005-05-19 Mobility flows movement and migration in social life has emerged as a central area of sociological debate yet one of its most dominant forms automobility has remained largely ignored Edited by three leading social analysts Automobilities presents one of the first and most wide ranging examinations of the car and its promise of autonomy and mobility Drawing on rich empirical detail from ethnographies of office work on the motorway to the importance of the car in French cultural theory the contributions demonstrate just how significant have been the economic technological social and political consequences of a pervasive and accelerating culture of the car A broad array of theories are put to work to illuminate this vast and yet neglected topic strategy and tactics complexity theory performativity actor network theory film theory material culture theories of non places embodiment sensuous geography sociology ethnomethodology and non representational theory This book will firmly establish automobilities as a key topic for theory and research Automobilities represents a landmark text that will contribute to and provide a significant impetus for the emerging analysis of mobilities in contemporary societies *The Folk* Ross Cole, 2021-09-07 Who were the folk This question has haunted generations of radicals and reactionaries alike The Folk traces the musical culture of these elusive figures in Britain and the US during a crucial period from 1870 to 1930 and beyond to the contemporary alt right It follows an insistent set of disputes surrounding the practice of collecting ideas of racial belonging the poetics of nostalgia and the pre history of European fascism It is the biography of a people who exist only as a symptom of the modern imagination and the archaeology of a landscape directing the flow of global politics today *Critical Theory for Library and Information Science* Gloria J. Leckie, Lisa M. Given, John E. Buschman, 2010-07-26 This text provides an overview of major critical theorists from across

disciplines including the humanities social sciences and education that discusses the importance of these critical perspectives for the advancement of LIS research and scholarship The practical application of library and information science is based upon 75 years of critical theory and thought Therefore it is essential for students and faculty in LIS to be familiar with the work of a wide range of critical theorists The aim of Critical Theory for Library and Information Science Exploring the Social from Across the Disciplines is to provide a comprehensive introduction to the critical theorists important to the LIS audience and to give insights into how such theory can be incorporated into actual LIS research and practice This book consists of chapters on individual critical theorists ranging from Aglietta to Habermas to Spivak written by an international group of library and information science scholars Each chapter provides an overview of the theoretical stance and contributions of the theorist as well as relevant critical commentary This book will be particularly valuable as a reference text of core readings for those pursuing doctoral or masters level degrees in LIS **Storia della storiografia** ,2001

Philosophy of Culture as Theory, Method, and Way of Life ,2022-05-16 The idea of culture comprises almost all human activities from science to art from music to microscopy Does anything important escape the limits of this idea The authors of this collection argue that all philosophy is really the philosophy of culture since in some way each and every discipline and subdiscipline is foremost a manifestation of our collective cultural effort Further they argue that by engaging with philosophy as a cultural activity and as a discipline to meaningful engage with all dimensions of inter cultural life we can live more meaningful flourishing and wisely guided lives *Commodified Communion* Antonio Eduardo Alonso,2021-06-01 WINNER 2021 HTI BOOK PRIZE Resist This exhortation animates a remarkable range of theological reflection on consumer culture in the United States And for many theologians the source and summit of Christian cultural resistance is the Eucharist In *Commodified Communion* Antonio Eduardo Alonso calls into question this dominant mode of theological reflection on contemporary consumerism Reducing the work of theology to resistance and centering Christian hope in a Eucharist that might better support it he argues undermines our ability to talk about the activity of God within a consumer culture By reframing the question in terms of God s activity in and in spite of consumer culture this book offers a lived theological account of consumer culture that recognizes not only its deceptions but also traces of truth in its broken promises and fallen hopes

Everyday Life and Cultural Theory Ben Highmore,2002-08-27 Everyday Life and Cultural Theory provides a unique critical and historical introduction to theories of everyday life Ben Highmore traces the development of conceptions of everyday life from the cultural sociology of Georg Simmel through the Mass Observation project of the 1930s to contemporary theorists such as Michel de Certeau **Encountering the Everyday** Michael Hviid Jacobsen,2017-09-16 Everyday life is something we tend to take for granted something that just is something unnoticed But everyday life is perhaps the most important dimension of society it s where we live most parts of our lives with each other This book provides a clear contemporary and comprehensive overview of the sociologies of everyday life Looking at everyday activities and

experiences from language and emotions to popular culture and leisure Encountering the Everyday explores what social structures orders and processes mean to us on a daily basis The book carefully leads the reader through historical developments in the field beginning at the earlier Chicago school and finishing with up to date ideas of postmodernism and interactionism Each chapter relates theoretical ideas directly to case studies and real empirical research to make complex concepts and core issues accessible relevant and engaging Written by leading international scholars in the field this truly global book will inspire and inform all students and scholars of everyday life sociology **Speaking the Lower**

Frequencies Walter R. Jacobs,2012-02-01 Speaking the Lower Frequencies demonstrates how students can be critical consumers of media while retaining the pleasure they derive from it In Walter R Jacobs s classes on media and society students use the instructor s experiences as a model for investigating their own histories By creating new social contexts and meanings the students learn to speak the lower frequencies Jacobs looks at the students reception and critique of pop culture texts like the movie I Like It Like That and the television show The X Files to provide evidence for the effects of alternative pedagogy on critical literacy He shows that when students are encouraged to be more than just passive receptors of the media they learn to develop active critical voices that they use both inside and outside the classroom Jacobs also explains how students can become more aware and active in attempts to create democratic possibilities for themselves and others

The Spiritual City Philip Sheldrake,2014-04-03 A Spiritual City provides a broad examination of the meaning and importance of cities from a Christian perspective Contains thought provoking theological and spiritual reflections on city making by a leading scholar Unites contemporary thinking about urban space and built environments with the latest in urban theology Addresses the long standing anti urban bias of Christianity and its emphasis on inwardness and pilgrimage Presents an important religious perspective on the potential of cities to create a strong human community and sense of sacred space

The Other Mirror Miguel Angel Centeno,Fernando López-Alves,2020-12-08 If social science s cultural turn has taught us anything it is that knowledge is constrained by the time and place in which it is produced In response scholars have begun to reassess social theory from the standpoints of groups and places outside of the European context upon which most grand theory is based Here a distinguished group of scholars reevaluates widely accepted theories of state property race and economics against Latin American experiences with a two fold purpose They seek to deepen our understanding of Latin America and the problems it faces And by testing social science paradigms against a broader variety of cases they pursue a better and truly generalizable map of the social world Bringing universal theory into dialogue with specific history the contributors consider what forms Latin American variations of classical themes might take and which theories are most useful in describing Latin America For example the Argentinian experience reveals the limitations of neoclassical descriptions of economic development but Charles Tilly s emphasis on the importance of war and collective action to statemaking holds up well when thoughtfully adapted to Latin American situations Marxist structural analysis is problematic

in a region where political divisions do not fully express class cleavages but aspects of Karl Polanyi's socioeconomic theory cross borders with relative ease. This fresh theoretical discussion expands the scope of Latin American studies and social theory, bringing the two into an unprecedented conversation that will benefit both. Contributors are in addition to the editors: Jeremy Adelman, Jorge I Domínguez, Paul Gootenberg, Alan Knight, Robert M. Levine, Claudio Lomnitz, John Markoff, Verónica Montecinos, Steven C. Topik, and J. Samuel Valenzuela.

Intercultural Contact, Language Learning and Migration
 Barbara Geraghty, Jean Conacher, 2014-09-25. At the heart of this volume lies an exploration of what actually happens to languages and their users when cultures come into contact. What actions do supra-national institutions, nation-states, communities, and individuals take in response to questions raised by the increasingly diverse forms of migration experienced in a globalized world? The volume reveals the profound impact that decisions made at national and international level can have on the lives of the individual migrant, language student, or speech community. Equally, it evaluates the broader ramifications of actions taken by migrant communities and individual language learners around issues of language learning, language maintenance, and intercultural contact. Reflecting Jan Blommaert's assertion that in a world shaped by globalization what is needed is a theory of language in society, of changing language in a changing society, this volume argues that researchers must increasingly seek diverse methodological approaches if they are to do justice to the diversity of experience and response they encounter.

Literary Voice
 Donald Wesling, Tadeusz Slawek, 1995-08-23. Jacques Derrida has ably analyzed the writing that is in speaking, but this reply to his work analyzes the speaking that is in writing. This book defends and illustrates literary voice against modern philosophy's critique of the spoken, and in the light of Mikhail Bakhtin's dialogism and Henri Meschonnic's studies on subjectivity in rhythmic language. The authors find literary voice to be maximal in bardic speech, where the author speaks for the nation. This full voice stands between the two minimums of the body: grunts and sighs, and birdsong and the material text, loss of logic, narrative, and social tones in Nietzsche and in the American LANGUAGE poets.

The Out of Bounds Church?
 Steve Taylor, 2010-12-21. What's Going on Out There? Author Steve Taylor takes trips to the edge of the church envelope and sends us back what he's finding inside the emerging church around the globe. From the revival of ancient spiritual practices to the rise of multimedia, each of his posts sketches a view of the body of Christ in wild flux. Topics include birth, pilgrimage, community, creativity, DJing and leading, and following.

The Discernment of Spirits
 Wendy Love Anderson, 2011. Anderson succeeds in neatly fitting together selected pieces of the history of discernment of spirits to provide a valuable, readable description of the contours of its evolution in the late Middle Ages.

Debra L. Stoudt, Virginia Polytechnic Institute and State University. *The Medieval Review*. Late medieval Christians lived in a world of visions, but they knew that not all visions came from God; angels, demons, illness, nature, or passion could also inspire an apparent divine visitation. During the thirteenth and fourteenth centuries, the involvement of visionaries in everything from reform movements to military campaigns to papal schisms raised the political and spiritual stakes of determining whether or

not a vision was truly from God In response a diverse group of medieval thinkers including men and women clergy and laity visionaries and theologians gradually began to transform the loose patristic readings of Pauline discretio spirituum into a system with the potential to distinguish between true and false visions and between genuine and delusional visionaries Wendy Love Anderson chronicles the historical political and spiritual struggles behind the flowering of late medieval mysticism and what came to be seen as the Christian doctrine of discernment of spirits
