Model Wife Six Woman:

Gender-Based Violence Yanyi K. Djamba, Sitawa R. Kimuna, 2015-06-10 This book offers new perspectives on gender based violence in three regions where the subject has been taboo in everyday discourse often due to patriarchal cultural norms that limit women's autonomy. The contributions to this book provide rare insight into not only the levels and the socio-demographic determinants of domestic violence but topics ranging from men's attitudes toward wife beating domestic violence related adolescent deaths and women's health problems due to sexual and physical abuse. With a comprehensive introduction that provides a comparative international research framework for discussing gender based violence in these three unique regions this volume provides a key basis for understanding gender based violence on a more global level. Part I on Africa covers men's attitudes towards domestic violence the impact of poverty and fertility the association between adolescent deaths and domestic violence and the link between domestic abuse and HIV. Part II on the Middle East covers the importance of consanguinity on domestic violence in Egypt and Jordan the effects of physical abuse on reproductive health and the link between political unrests and women's experience and attitudes towards domestic violence. Part III on India shows how sexual abuse puts women at risk of reproductive tract infections and sexually transmitted infections as well as the role of gender norms in wife abuse and the role of youth aggressive behavior in nonconsensual sex. With such a deep and broad coverage of factors of intimate partner abuse this book serves as a reference document for researchers decision makers and organizations that are searching for ways to reduce gender based domestic violence. This book is of interest for researchers in Criminology and Criminal Justice as well as Sociology Social Work Public Health and Human Rights. The research found in *The Surveillance of Women on Reality TV: Watching The Bachelor and The Bachelorette* meets the growing need for scholarship on the reality genre. This book asks us to be attentive to how the surveillance context of the program impacts gendered and racialized bodies. Dubrofsky takes up issues that cut across the U.S. cultural landscape: the use of surveillance in the creation of entertainment products the proliferation of public confession and its configuration as a therapeutic tool the ways in which women's displays of emotion are shown on television the changing face of popular feminist discourse notions of choice and empowerment and the recentering of whiteness in popular media. **A Digest of the Decisions of the Courts of the State of New York : from the Earliest Period to 1880 ...** Frederick Charles Brightly, 1880 *The Concept of Woman, Volume 3* Prudence Allen, 2017-01-05 The culmination of a lifetime's scholarly work this pioneering study by Sister Prudence Allen traces the concept of woman in relation to man in Western thought from ancient times to the present.
