Stieber, 2010-01-01 Some of the loveliest works of Archaic art were the Athenian korai sculptures of beautiful young women presenting offerings to the goddess Athena that stood on the Acropolis Sculpted in the sixth and early fifth centuries B C they served as votives until Persians sacked the citadel in 480-79 B C Subsequently they were buried as a group and forgotten for nearly twenty-four centuries until archaeologists excavated them in the 1880s Today they are among the treasures of the Acropolis Museum Mary Stieber takes a fresh look at the Attic korai in this book Challenging the longstanding view that the sculptures are generic female images she persuasively argues that they are instead highly individualized mimetically realistic representations of Archaic young women perhaps even portraits of real people Marshalling a wide array of visual and literary evidence to support her claims she shows that while the korai lack the naturalism that characterizes later Classical art they display a wealth and realism of detail that makes it impossible to view them as generic idealized images This iconoclastic interpretation of the Attic korai adds a new dimension to our understanding of Archaic art and to the distinction between realism and naturalism in the art of all periods      *Image Encounters* Lisa Trever, 2022-02-08 2022 Mr and Mrs Raymond J Horowitz Book Prize Bard Graduate Center A landmark study of ancient Peruvian Moche mural art Moche murals of northern Peru represent one of the great yet still largely unknown artistic traditions of the ancient Americas Created in an era without written scripts these murals are key to understandings of Moche history society and culture In this first comprehensive study on the subject Lisa Trever develops an interdisciplinary methodology of archaeo art history to examine how ancient histories of art can be written without texts boldly inverting the typical relationship of art to archaeology Trever argues that early coastal artistic traditions cannot be reduced uncritically to interpretations based in much later Inca histories of the Andean highlands Instead the author seeks the origins of Moche mural art and its emphasis on figuration in the deep past of the Pacific coast of South America *Image Encounters* shows how formal transformations in Moche mural art before and after the seventh century were part of broader changes to the work that images were made to perform at Huacas de Moche El Brujo Pa amarca and elsewhere in an increasingly complex social and political world In doing so this book reveals alternative evidentiary foundations for histories of art and visual experience      **The Christian Union** Henry Ward Beecher, 1891

**Catechetical Sessions on Christian Morality** Cheryl M. Tholcke, Eileen M. Daily, Steven C McGlaun, 2004 *Catechetical Sessions on Christian Morality* is a rich course that gives young people a solid grounding in the foundations of Christian morality to add to what they have already received in their faith community and in their family The manual presents young people with the fundamental concerns of the moral life in a Catholic Christian context Above all the course is an invitation to

young people to build God's Reign by loving themselves and others as God loves them In other words it is an invitation to become holy healthy and happy In doing so they will bring God and the world together      **Memoir of David Hale** David Hale, Joseph Parrish Thompson, 1850      *Material Bernini* Evonne Levy, Carolina Mangone, 2016-04-14 Bringing together established and emerging specialists in seventeenth century Italian sculpture Material Bernini is the first sustained examination of the conspicuous materiality of Bernini's work in sculpture architecture and paint The various essays demonstrate that material Bernini has always been tied whether theologically geologically politically or in terms of art theory to his immaterial twin Here immaterial Bernini and the historiography that sustains him is finally confronted by material Bernini Central to the volume are Bernini's works in clay a fragmentary record of a large body of preparatory works by a sculptor who denied any direct relation between sketches of any kind and final works Read together the essays call into question why those works in which Bernini's bodily relation to the material of his art is most evident his clay studies have been configured as a point of unmediated access to the artist's mind to his immaterial ideas This insight reveals a set of values and assumptions that have profoundly shaped Bernini studies from their inception and opens up new and compelling avenues of inquiry within a field that has long remained remarkably self enclosed      **Jacob Campo Weyerman and his Collection of Artists' Biographies** Lyckle de Vries, 2020-02-25 Weyerman's collection of artists biographies 1729 is exceptional for three reasons Firstly he includes a great number of painters not mentioned elsewhere Secondly he does not limit his selection to good artists only he also discusses failed painters and their abortive careers Thirdly he writes as an art critic who does not hesitate to pass judgments sometimes severe on his chosen subjects In the process Weyerman provides much information on the social and economic circumstances of art production He found that a bohemian lifestyle was pernicious to a painter's career and argued that artists should live and think as merchants In addition to analyzing Weyerman's art critical terminology and his ideas on art theory De Vries includes translations of two full chapters along with the original Dutch      Renaissance Theories of Vision Charles H. Carman, 2016-12-05 How are processes of vision perception and sensation conceived in the Renaissance How are those conceptions made manifest in the arts The essays in this volume address these and similar questions to establish important theoretical and philosophical bases for artistic production in the Renaissance and beyond The essays also attend to the views of historically significant writers from the ancient classical period to the eighteenth century including Plato Aristotle Plotinus St Augustine Ibn Sina Avicenna Ibn al Haytham Alhazen Ibn Sahl Marsilio Ficino Nicholas of Cusa Leon Battista Alberti Gian Paolo Lomazzo Gregorio Comanini John Davies Rene Descartes Samuel van Hoogstraten and George Berkeley Contributors carefully scrutinize and illustrate the effect of changing and evolving ideas of intellectual and physical vision on artistic practice in Florence Rome Venice England Austria and the Netherlands The artists whose work and practices are discussed include Fra Angelico Donatello Leonardo da Vinci Filippino Lippi Giovanni Bellini Raphael Parmigianino Titian Bronzino Johannes Gump and Rembrandt van Rijn Taken

together the essays provide the reader with a fresh perspective on the intellectual confluence between art science philosophy and literature across Renaissance Europe     *Hawthorne, Sculpture, and the Question of American Art* Deanna Fernie,2011 Analyzing sculpture in Hawthorne s fiction through the recurring motif of the fragment in its double guise as ruin and project Deanna Fernie establishes the intellectual contexts for her study through a discussion of sculpture and fragmentary form as revealed in American British and Continental thought Her book will be an important text not only for American literature scholars but also for anyone interested in British and Continental Romanticism and the intersections of art and literature

McClafferty,2013-11-01 A look into the life of America s first president and the efforts to recreate what he may have actually looked like at different points of that life George Washington s face has been painted printed and engraved more than a billion times since his birth in 1732 And yet even in his lifetime no picture seemed to capture the likeness of the man who is now the most iconic of all our presidents Worse still people today often see this founding father as the old and grumpy Washington on the dollar bill In 2005 a team of historians scientists and artisans at Mount Vernon set out to change the image of our first president They studied paintings and sculptures pored over Washington s letters to his tailors and noted other people s comments about his appearance even closely examined the many sets of dentures that had been created for Washington Researchers tapped into skills as diverse as 18th century leatherworking and cutting edge computer programming to assemble truer likenesses Their painstaking research and exacting processes helped create three full body representations of Washington as he was at key moments in his life And all along the way the team gained new insight into a man who was anything but old and grumpy Join award winning author Carla Killough McClafferty as she unveils the statues of the three Georges and rediscovers the man who became the face of a new nation     **The American Farmer's Magazine**

**Sacred Power in Byzantium** Gary Vikan,2024-10-28 In these studies Gary Vikan has opened new perspectives on the daily life and material culture of Late Antiquity more specifically on icons and relics and on objects revealing of the world of

pilgrimage the early cult of saints and marriage He contextualizes these familiar categories of object in the patterns of belief and ritual extracted from contemporary texts and the objects themselves in order to understand their meaning within the everyday lives of those by whom and for whom they were made The studies give a nuanced delineation of the inherently ambiguous boundary between conventional religion and magic noting repeatedly those instances wherein the two are invoked in the same breath and by way of the same art object toward the same end From this historically constructed matrix of art belief and ritual the author derives an anthropologically defined paradigm of charisma and pilgrimage applied in one essay as an intriguing parallel to deconstructing the world of a contemporary secular saint Elvis Presley
